2. About RISL

RajCOMP Info Services Ltd. (formerly RajCOMP) is a fully owned Government of Rajasthan Company; it is a leading consulting organization in the field of Information Technology. RajCOMP Info Services Ltd. (RISL) operates under the aegis of Government of Rajasthan.

Government of Rajasthan has established a metropolitan area network (MAN) in 2005 covering around 48 various offices located in Jaipur city under SECLAN project. Thereafter, in 2013, the network has been extended to 33 District Collectorates, 240 Block Head Quarters and 3500 (approx.) offices located in these District/Block Headquarters under Rajasthan State Wide Area Network (RajSWAN) project. State Government has envisaged to establish network connectivity to Government Departments, and expand the network upto 9341 Gram Panchayats, 250+ municipal areas and some other offices in Rajasthan to cater voice, video and data services under various categories of G2G, G2B and G2C services.

3. Project Profile:

RajWiFi

Government of Rajasthan, as part of its on-going Information Technology reforms, established Wi-Fi network in various Government buildings located in Jaipur City, District Collectorate offices, Bharat Nirman Rajeev Gandhi Sewa Kendra (BNRGSK) situated at Panchayat Samiti / Gram Panchayat level and various tourist places across the State of Rajasthan. It aims to utilize the benefits of Information Technology to bring about radical changes in the way various processes are carried out presently to improve the Accountability, Transparency & Effectiveness in Government administration.

The State Government established a Wide Area Network upto Gram Panchayat level under RajNET project. RajNET is providing connectivity to most of the Government buildings across the State through OFC/ MPLS/ P2P leased line/VSAT. The RajNET connects all the building to the State Data Centre at Yojana Bhawan, Jaipur. The Wi-Fi network utilizes the RajNET as backbone to provide network connectivity and Internet Access to its users. The Wi-Fi Network is accessible to Government officials, Guests and visiting citizens who could use it.

There are 2 deployments under RajWiFi Project. First one is deployed in year **2013 (Jaipur WiFi)** and second one is deployed in year **2018 (RajWiFi-GP)**.

RajWiFi-GP: Under this project, below mentioned infrastructure is deployed to provide WiFi connectivity upto GP level offices:

S. No.	Equipment	Count	Remarks
1	Aruba 7240 XM Controller	8	5 in DC and 3 in DR
2	Aruba Airwave Server on HP-DL360G9-2XE5	15	10 in DC and 5 in DR
3	Aruba Glass Server on HP-DL360G9-2XE5	6	3 in DC and 3 in DR
4	Aruba AP 365	19500	Deployed across Rajasthan
5	Efficient IP DHCP Server on ProLiant DL380 G9	2	1 in DC and DR each

Jaipur WiFi: The users of SHQ/DHQ/BHQ/Rajasthan High Court are being catered through first deployment. All the Jaipur-WiFi, Jaipur-WiFi-EMP, iStart, CMR, CMO & Rajasthan High Court SSIDs are being served through this setup. Approx 10000+ government users and 160000+ citizens are being catered through this deployment.

The existing Wi-Fi network is AAA server and controller-based Wi-Fi solution. The details of existing solution are as under (ref. Annexure-15 for more details):

Sr. No.	Item	Quantity	Make & Model
1.	AAA Server (on HP-DL360G9-2XE5)	05	Aruba CPPM Server
2.	Wi-Fi NMS Server	01	Aruba Airwave
3.	Wi-Fi Controller	04	Aruba 7240
4.	Access Points (Indoor / Outdoor)	948+350+200 =1498	Aruba AP-105/AP-275/ AP-305
5.	DHCP Server (on DELL E34S server)	1	Efficient IP SOLID Server – 550

The cluster of 5 Aruba CPPM (One publisher and four subscribers) servers are having 1 Lac user licenses.

The above-mentioned Aruba Wi-Fi Controller(s) was procured with license to support up to 1500 Indoor/Outdoor Access points. Presently DoIT&C/RISL has procured total 1498 Access Points (Aruba AP-105, AP-275 and AP-305) to establish this Wi-Fi infrastructure. DoIT&C/RISL, through this bidding process, intends to take comprehensive AMC, Technical Support and to upgrade the capacity of WiFi infrastructure.

Further, After Covid and migration of multiple G2G & G2B services are online. Hence, requirement of new WiFi AP installation has been increased multifold. The license capacity of existing controller is bottleneck.

Under Jaipur WiFi project, RISL shall select a bidder, who would provide comprehensive below mentioned solution along with Technical Support of the items mentioned in Annexure-1 to strengthen the coverage of existing Wi-Fi network and to increase this Wi-Fi network in other Government/PSU buildings and tourist-points of the State.

- A Load Balancer/Master Controller of controllers in HA (High Availability) with minimum 10000 AP Licenses capacity with 5-year OEM support.
- 6 Controllers and 8000 AP licenses (in bundle of 1024 AP licenses) with 5-year OEM support. Existing 1536 AP licenses of 7240 Controllers should be migrated to proposed new single cluster with load balanced deployment.
- The AMC of existing Airwave Server, CPPM Server and DHCP Server may be taken.
- Manpower: 2 WLAN NMS Administrator (with Aruba certification) for 5 years.
- Procurement of 250 Indoor access points to cater future requirement.
- Work of installation of WiFi access point across Rajasthan with PoE (As per requirement) and LAN work.
- Migration of Urban APs from RajWiFi-GP to Jaipur WiFi.

POC may be conducted for any item asked in tender document and if not found technically qualified, complete bid will be rejected.

d) Tabulation of Technical Bids

- a. If Technical Bids have been invited, they shall be tabulated by the bid evaluation committee in the form of a comparative statement to evaluate the qualification of the bidders against the criteria for qualification set out in the bidding document.
- b. The members of bid evaluation committee shall give their recommendations below the table as to which of the bidders have been found to be qualified in evaluation of Technical Bids and sign it.
 - a. The number of firms qualified in technical evaluation, if less than three and it is considered necessary by the procuring entity to continue with the procurement process, reasons shall be recorded in writing and included in the record of the procurement proceedings.
 - b. The bidders who qualified in the technical evaluation shall be informed in writing about the date, time and place of opening of their financial Bids.

15) Evaluation & Tabulation of Financial Bids

- a) The financial bids/ cover of bidders who qualify in technical evaluation shall be opened at the notified time, date and place by the members of the designated Procurement Committee in the presence of the bidders or their representatives who choose to be present. Alternatively, the bidders may also view the financial bid opening status/ process online at e-Procurement website.
- b) The process of opening of financial bids/ covers shall be similar to that of technical bids.
- c) The names of the bidders, the rates given by them and conditions put, if any, shall be read out and recorded.
- d) Conditional Bids are liable to be rejected;
- e) In order to decide the L1 bidder, Refer “Selection Method” at Point 12.
- f) To evaluate a bid, the tendering authority shall consider the following:-
 - a. the bid price as quoted in accordance with bidding document.
 - b. price adjustment for correction of arithmetic errors in accordance with bidding document.
- g) The evaluation shall include all costs and all taxes and duties applicable to the bidder as per law of the Central/ State Government/ Local Authorities.
- h) The offers shall be evaluated and marked L1, L2, L3 etc. based “Selection Method” as above. L1 being the lowest offer and then others in ascending order.
- i) The bid evaluation committee shall prepare a comparative statement in tabular form in accordance with rules along with its report on evaluation of financial Bids and recommend the lowest offer for acceptance to the procuring entity.
- j) The members of bids evaluation committee shall give their recommendations below the table regarding lowest Bid and sign it.
- k) It shall be ensured that the offer recommended for sanction is justifiable looking to the prevailing market rates of the goods, works or service required to be procured.

16) Correction of Arithmetic Errors in Financial Bids

The bid evaluation committee shall correct arithmetical errors in substantially responsive Bids, on the following basis, namely: -

- a) If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall

be corrected, unless in the opinion of the bid evaluation committee there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;

- b) If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- c) If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to clause (a) and (b) above.

17) Price/ purchase preference in evaluation

Price and/ or purchase preference notified by the State Government (GoR) and as mentioned in the bidding document shall be considered in the evaluation of Bids and award of contract.

18) Negotiations

- a) Except in case of procurement by method of single source procurement or procurement by competitive negotiations, to the extent possible, no negotiations shall be conducted after the pre-bid stage. All clarifications needed to be sought, shall be sought in the pre-bid stage itself.
- b) Negotiations may, however, be undertaken only with the lowest bidder when the rates are considered to be much higher than the prevailing market rates.
- c) The bid evaluation committee shall have full powers to undertake negotiations. Detailed reasons and results of negotiations shall be recorded in the proceedings.
- d) The lowest or most advantageous bidder shall be informed in writing either through messenger or by registered letter and e-mail (if available). A minimum time of seven days shall be given for calling negotiations. In case of urgency the bid evaluation committee, after recording reasons, may reduce the time, provided the lowest or most advantageous bidder has received the intimation and consented to regarding holding of negotiations.
- e) Negotiations shall not make the original offer made by the bidder inoperative. The bid evaluation committee shall have option to consider the original offer in case the bidder decides to increase rates originally quoted or imposes any new terms or conditions.
- f) In case of non-satisfactory achievement of rates from lowest or most advantageous bidder, the bid evaluation committee may choose to make a written counter offer to the lowest or most advantageous bidder and if this is not accepted by him/her, the committee may decide to reject and re-invite Bids or to make the same counter-offer first to the second lowest or most advantageous bidder, then to the third lowest or most advantageous bidder and so on in the order of their initial standing and work/ supply order be awarded to the bidder who accepts the counter-offer. This procedure shall be used in exceptional cases only.
- g) In case the rates even after the negotiations are considered very high, fresh Bids shall be invited.

19) Exclusion of Bids / Disqualification

- a) A procuring entity shall exclude/ disqualify a Bid, if: -
 - i. the information submitted, concerning the qualifications of the bidder, was false or constituted a misrepresentation; or
 - ii. the information submitted, concerning the qualifications of the bidder, was materially inaccurate or incomplete; and
 - iii. the bidder is not qualified as per pre-qualification/ eligibility criteria mentioned in the bidding document;

- iv. the Bid materially departs from the requirements specified in the bidding document or it contains false information;
 - v. the bidder, submitting the Bid, his agent or any one acting on his behalf, gave or agreed to give, to any officer or employee of the procuring entity or other governmental authority a gratification in any form, or any other thing of value, so as to unduly influence the procurement process;
 - vi. a bidder, in the opinion of the procuring entity, has a conflict of interest materially affecting fair competition.
- b) A Bid shall be excluded/ disqualified as soon as the cause for its exclusion/ disqualification is discovered.
- c) Every decision of a procuring entity to exclude a Bid shall be for reasons to be recorded in writing and shall be: -
- i. communicated to the concerned bidder in writing;
 - ii. published on the State Public Procurement Portal, if applicable.

20) Lack of Competition

- a) A situation may arise where, if after evaluation of Bids, the bid evaluation committee may end-up with one responsive Bid only. In such situation, the bid evaluation committee would check as to whether while floating the NIB all necessary requirements to encourage competition like standard bid conditions, industry friendly specifications, wide publicity, sufficient time for formulation of Bids, etc. were fulfilled. If not, the NIB would be re-floated after rectifying deficiencies. The bid process shall be considered valid even if there is one responsive Bid, provided that:-
- i. the Bid is technically qualified;
 - ii. the price quoted by the bidder is assessed to be reasonable;
 - iii. the Bid is unconditional and complete in all respects;
 - iv. there are no obvious indicators of cartelization amongst bidders; and
 - v. the bidder is qualified as per the provisions of pre-qualification/ eligibility criteria in the bidding document
- b) The bid evaluation committee shall prepare a justification note for approval by the next higher authority of the procuring entity, with the concurrence of the accounts member.
- c) In case of dissent by any member of bid evaluation committee, the next higher authority in delegation of financial powers shall decide as to whether to sanction the single Bid or re-invite Bids after recording reasons.
- d) If a decision to re-invite the Bids is taken, market assessment shall be carried out for estimation of market depth, eligibility criteria and cost estimate.

21) Acceptance of the successful Bid and award of contract

- a) The procuring entity after considering the recommendations of the bid evaluation committee and the conditions of Bid, if any, financial implications, trials, sample testing and test reports, etc., shall accept or reject the successful Bid. If any member of the bid evaluation committee, has disagreed or given its note of dissent, the matter shall be referred to the next higher authority, as per delegation of financial powers, for decision.
- b) Decision on Bids shall be taken within original validity period of Bids and time period allowed to procuring entity for taking decision. If the decision is not taken within the original validity period or time limit allowed for taking decision, the matter shall be referred to the next higher authority in delegation of financial powers for decision.

- c) Before award of the contract, the procuring entity shall ensure that the price of successful Bid is reasonable and consistent with the required quality.
- d) A Bid shall be treated as successful only after the competent authority has approved the procurement in terms of that Bid.
- e) The procuring entity shall award the contract to the bidder whose offer has been determined to be the lowest or most advantageous in accordance with the evaluation criteria set out in the bidding document and if the bidder has been determined to be qualified to perform the contract satisfactorily on the basis of qualification criteria fixed for the bidders in the bidding document for the subject matter of procurement.
- f) Prior to the expiration of the period of bid validity, the procuring entity shall inform the successful bidder, in writing, that its Bid has been accepted.
- g) As soon as a Bid is accepted by the competent authority, its written intimation shall be sent to the concerned bidder by registered post or email and asked to execute an agreement in the format given in the bidding documents on a non-judicial stamp of requisite value and deposit the amount of performance security or a performance security declaration, if applicable, within a period specified in the bidding documents or where the period is not specified in the bidding documents then within fifteen days from the date on which the letter of acceptance or letter of intent is dispatched to the bidder.
- h) If the issuance of formal letter of acceptance is likely to take time, in the meanwhile a Letter of Intent (LOI) may be sent to the bidder. The acceptance of an offer is complete as soon as the letter of acceptance or letter of intent is posted and/ or sent by email (if available) to the address of the bidder given in the bidding document. Until a formal contract is executed, the letter of acceptance or LOI shall constitute a binding contract.
- i) The bid security of the bidders who's Bids could not be accepted shall be refunded soon after the contract with the successful bidder is signed and its performance security is obtained.

22) Information and publication of award

Information of award of contract shall be communicated to all participating bidders and/or published on the respective website(s) as specified in NIB.

23) Procuring entity's right to accept or reject any or all Bids

The Procuring entity reserves the right to accept or reject any Bid, and to annul (cancel) the bidding process and reject all Bids at any time prior to award of contract, without thereby incurring any liability to the bidders.

- iii. RISL during the project implementation phase and the operation and management phase shall be entitled to serve notice in writing to the selected bidder at any time during the exit management period requiring the selected bidder to provide DoIT&C/RISL or its nominated agencies with a complete and up-to-date list of the assets within 30 days of such notice.
- iv. Upon service of a notice, as mentioned above, the following provisions shall apply:
 -
 - a. In the event, if the assets which to be transferred to RISL mortgaged to any financial institutions by the selected bidder, the selected bidder shall ensure that all such liens and liabilities have been cleared beyond any doubt, prior to such transfer. All documents regarding the discharge of such lien and liabilities shall be furnished to RISL or its nominated agencies.
 - b. All title of the assets to be transferred to RISL or its nominated agencies pursuant to clause(s) above shall be transferred on the last day of the exit management period. All expenses occurred during transfer of assets shall be borne by the selected bidder.
 - c. That on the expiry of this clause, the selected bidder and any individual assigned for the performance of the services under this clause shall handover or cause to be handed over all confidential information and all other related material in its possession, including the entire established infrastructure supplied by selected bidder to RISL.
 - d. That the products and technology delivered to RISL during the contract term or on expiry of the contract duration should not be sold or re-used or copied or transferred by selected bidder to other locations apart from the locations mentioned in the this bidding document without prior written notice and approval of RISL. Supplied hardware, software & documents etc., used by selected bidder for RISL shall be the legal properties of RISL.
- c) Cooperation and Provision of Information during the exit management period
 - i. The selected bidder will allow RISL or its nominated agencies access to the information reasonably required to define the current mode of operation associated with the provision of the services to enable RISL or its nominated agencies to assess the existing services being delivered.
 - ii. The selected bidder shall provide access to copies of all information held or controlled by them which they have prepared or maintained in accordance with the Project Implementation, the Operation and Management SLA and SOWs relating to any material aspect of the services provided by the selected bidder. RISL or its nominated agencies shall be entitled to copy all such information comprising of details pertaining to the services rendered and other performance data. The selected bidder shall permit RISL or its nominated agencies and/ or any replacement operator to have reasonable access to its employees and facilities as reasonably required by RISL or its nominated agencies to understand the methods of delivery of the services employed by the selected bidder and to assist appropriate knowledge transfer.
- d) Confidential Information, Security and Data
The selected bidder will promptly on the commencement of the exit management period supply to RISL or its nominated agencies the following:
 - i. Documentation relating to Intellectual Property Rights;

- ii. Project related data and confidential information;
 - iii. All current and updated data as is reasonably required for purposes of RISL or its nominated agencies transitioning the services to its replacement selected bidder in a readily available format nominated by RISL or its nominated agencies; and
 - iv. All other information (including but not limited to documents, records and agreements) relating to the services reasonably necessary to enable RISL or its nominated agencies, or its replacement operator to carry out due diligence in order to transition the provision of the services to RISL or its nominated agencies, or its replacement operator (as the case may be).
 - v. Before the expiry of the exit management period, the selected bidder shall deliver to RISL or its nominated agencies all new or up-dated materials from the categories set out above and shall not retain any copies thereof, except that the selected bidder shall be permitted to retain one copy of such materials for archival purposes only.
- e) Transfer of certain agreements
- i. On request by Procuring entity or its nominated agencies, the selected bidder shall effect such assignments, transfers, innovations, licenses and sub-licenses as Procuring entity or its nominated agencies may require in favour of procuring entity or its nominated agencies, or its replacement operator in relation to any equipment lease, maintenance or service provision agreement between selected bidder and third party leasers, operators, or operator, and which are related to the services and reasonably necessary for carrying out of the replacement services by RISL or its nominated agencies, or its replacement operator.
 - ii. Right of Access to Premises: At any time during the exit management period and for such period of time following termination or expiry of the SLA, where assets are located at the selected bidder's premises, the selected bidder will be obliged to give reasonable rights of access to (or, in the case of assets located on a third party's premises, procure reasonable rights of access to RISL or its nominated agencies, and/ or any replacement operator in order to inventory the assets.
- f) General Obligations of the selected bidder
- i. The selected bidder shall provide all such information as may reasonably be necessary to effect as seamless during handover as practicable in the circumstances to RISL or its nominated agencies or its replacement operator and which the operator has in its possession or control at any time during the exit management period.
 - ii. The selected bidder shall commit adequate resources to comply with its obligations under this Exit Management Clause.
- g) Exit Management Plan
- i. The selected bidder shall provide RISL or its nominated agencies with a recommended exit management plan ("Exit Management Plan") which shall deal with at least the following aspects of exit management in relation to the SLA as a whole and in relation to the Project Implementation, the Operation and Management SLA and SOWs.
 - ii. A detailed program of the transfer process that could be used in conjunction with a replacement operator including details of the means to be used to ensure continuing provision of the services throughout the transfer process or until the

- cessation of the services and of the management structure to be used during the transfer; and
- iii. Plans for the communication with such of the selected bidder's, staff, suppliers, customers and any related third party as are necessary to avoid any material detrimental impact on RISL operations as a result of undertaking the transfer; and
 - iv. If applicable, proposed arrangements and Plans for provision of contingent support in terms of business continuance and hand holding during the transition period, to RISL or its nominated agencies, and Replacement Operator for a reasonable period, so that the services provided continue and do not come to a halt.
 - v. The Bidder shall re-draft the Exit Management Plan annually after signing of contract to ensure that it is kept relevant and up to date.
 - vi. Each Exit Management Plan shall be presented by the selected bidder to and approved by RISL or its nominated agencies.
 - vii. In the event of termination or expiry of SLA, Project Implementation, Operation and Management SLA or SOWs each party shall comply with the Exit Management Plan.
 - viii. During the exit management period, the selected bidder shall use its best efforts to deliver the services.
 - ix. Payments during the Exit Management period shall be made in accordance with the Terms of Payment Clause.
 - x. It would be the responsibility of the selected bidder to support new operator during the transition period.

8. SPECIAL TERMS AND CONDITIONS OF TENDER & CONTRACT

1. Price Fall Clause:

The prices charged for the material supplied under the Rate contract by the bidder shall in no event exceed the lowest price at which the bidder sells the material or offer to sell material of identical description to any person(s)/organization(s) including the Purchaser or any Department of the Central Government or any Department of a State Government or any statutory undertaking of the Central or a State Government, as the case may be, during the period till performance of all Supply Orders placed during the currency of Rate Contract is completed. If at any time during the said period, the Bidder reduces the Sale price, sells or offers to sell such material to any person(s)/ organization(s) including the Purchaser or any Statutory undertaking of the Central or a State Government, as the case may be, at a price lower than the price chargeable under this Contract, he shall forthwith notify such reduction or Sale or offer of Sale to RISL/Indenting Dept. and the price payable under the Contract for the material supplied after the date of coming into force of such reduction or sale or offer of sale stand correspondingly reduced. The above stipulation will, however, not apply to:

- a) Export/deemed Export by the bidder
- b) Sale of Goods as Original Equipment prices lower than the price charged for normal replacement.

Sale of goods at lower price on or after the date of completion of sale/placement of order of goods by the authority concerned, under the existing or previous Rate Contracts as also under any previous contracts entered into with the Central or the State Government Departments including new undertakings (excluding joint sector companies and or private parties) and bodies.

2. Service Level Standards/ Requirements/ Agreement:

The BIDDER/SP has to maintain the controllers/servers/solution uptime. Bidder will take prior approval from the RISL/GoR for the network maintenance i.e. planned downtime. Bidder's SLA and Penalty would be applicable only after final acceptance testing indicating that the solution/server/controller is completely functional.

The selected bidder should monitor proactively NMS tools measure the same. Currently Everest Infraon tool is being used for the monitoring. All the SLA will be monitored through it. Bidder should ensure to send and provide details report and information and historical information about the same.

S. No	Location	Target SLA Uptime in %	Penalty
1	All Controller /Servers	99.0%	2% of quarterly payment of CAPEX charges, on drop of each 0.5% OR part thereof. The maximum penalty shall not be more than quarterly payable amount for the component.
2	Tickets for Access Points	Within 96 hours of ticket generation	1.5% for each 24 hour or part thereof for each ticket. The maximum penalty shall not be

			more than quarterly payable amount for the respective component
--	--	--	---

Note:

1. For SLA details mentioned in Sr No. 2 of aforementioned table, The SLA is applicable on the “component”. The “component” means access point and its deployed passive network items by SI.
2. For all the network equipment, the SLA will be applied as per the location of installation of that equipment.
3. If penalty amount reaches to capping in two consecutive quarters, the capping will be removed for next two quarter SLA calculations for payment. If bidder fails to avoid capping for four consecutive quarters, RISL may invoke contract termination clause. The bidder has to abide with the decision. This clause is not applicable in any force majeure event OR reason not attributed to the bidder.

ANNEXURE-2: TECHNICAL SPECIFICATIONS

Any additional components, sub-components, assemblies, sub-assemblies that may be required to meet the desired performance requirements will have to be provisioned by the SI at no additional cost.

Item No 1: (Access Point)

Item	Description of requirement	Compliance (Yes/No)	Pg No of specification attached
Make Offered			
Model Offered			
Hardware Type	Access Points proposed must include radios for 2.4 GHz and 5 GHz.		
Ports	Should have 1x 10/100/1000 Mbps interface 1 x dedicated console port and 1 x USB port.		
WLAN Standard	Must support 2x2 multi user -multiple-input multiple-output (MU-MIMO) with two spatial streams. Must support 8 or more 802.11ax OFDMA Resource Units.		
	Must support 802.11b/g/n/ac & 802.11ax on 2.4 and 5 GHz radios simultaneously.		
	Must support data rates up to 570 Mbps on 2.4Ghz and upto 1200 Mbps on 5Ghz radio.		
	Must support 40 & 80 MHz wide channels in 5 GHz.		
RF Management	Must support EIRP as per WPC norm Must incorporate radio resource management for power, channel, coverage hole detection and performance optimization		
	Access Point must have intelligence to analyse and detect different wifi interference and take corrective action for self-healing and self-optimized network.		
	Access point should support technology to increase the downlink performance to 802.11n clients, providing improved coverage and throughput to existing clients		
Power and Environmental	Access Point must be having integrated internal or external antenna.		
	Geographic orientation/Mounting flexibility – tilt angle for pole, wall, and roof mounting units.		
	The Access point shall be rated for operation over an ambient temperature range of 0° to 50°C		
	Access point should be power with POE or POE+. Power Chord should be provided.		

Functionality & Security	Access point should be unified and able to work as Standalone, With Controller/Inbuilt controller and sensor for WIDS/WIPS functionality.		
	Real Time packet capture on the AP's without disconnecting the client.		
	Access Point should support Real-time spectrum intelligence capabilities through additional licences if required in future.		
	The AP should come with standard OEM warranty (at least lifetime warranty for 5 years).		

Item No 2: (Load Balancer / Master Controller (with support for at least 10000 APs) in High Availability for WLAN Controllers)

Sr. No	Specifications	Compliance (Yes/No)	Pg No of specification attached
Make Offered			
Model Offered			
1	Master controller should be Hardware Appliance architecture 1 RU 19" rack mountable and able to manage up to 10,000 access points for large campus requirements from day-1		
2	Master controller should support up to 100,000 number of Clients		
3	Master controller should have minimum of 2x10 Gig SFP+ Port populated with 2 x10G Multimode transceivers, 1 x USB port and 1 x RJ 45 console port.		
4	Master controller should support 802.11ax (Wi-Fi 6E), WPA3, and Enhanced Open - and existing standards		
5	Master controller should have Built-in AI-powered Wireless/RF optimization		
6	Master controller should support automate deployment with Zero-touch Provisioning and Hierarchical Configuration		
7	Master controller should able to manage and deploy up to 10 controllers in a cluster to maximize performance and availability		
8	Master controller should support controllers clustering to enable seamless experience across Wi-Fi zone in the event of failure or significant crowd density.		

9	Master controller should support full set of northbound APIs to enable deep visibility into the network. The northbound APIs should provide RF health metrics, app utilization, device type and user data in an easy to integrate format.		
10	Wireless solution should have the ability to dynamically update individual service modules without requiring an entire system reboot.		
11	The solution should Live Upgrades and multiple version support to upgraded alongside active user sessions and eliminate the need for planned maintenance windows or downtime. Each Controller Cluster or individual service modules can also be selectively upgraded without impacting the rest of the network.		
12	The controller should support Hitless Failover and automated load balancing		
13	Master controller should have the capability to use an AP infrastructure and terminate two different SSIDs on two different controllers while maintaining complete separation and security for all networks, policies, management and visibility.		
14	Wireless solution should support the technology to eliminate sticky clients and boosts Wi-Fi performance by ensuring that clients associate with the best access point. It also groups the MU-MIMO clients together for simultaneous transmission to multiple devices, improving the overall WLAN capacity.		
15	The wireless solution should support Active/Active (1:1) or N+1 High Availability Deployment Modes		
16	For smooth, seamless and easy manageability, operation, interoperability and maintenance, the bidder should offer/quote WLC, Master controller & WAPs of the same make (OEM).		
17	Controller should support deep packet inspection for all user traffic across Layer 4-7 network to analyses information about applications usage, peak network usage times for all access points from day one		
18	The controller shall be offered with five years OEM warranty (minimum NBD support) and software updates/upgrades from OEM directly		
19	The proposed solution shall be seamless integration with RISL existing WLAN solution and migrate with existing setup.		

Item No 3: (WLAN Controller)

Item	Compliance (Yes/No)	Compliance (Yes/No)	Pg No of specification attached
Make Offered			
Model Offered			
General Specifications	The WLAN Controller should be Hardware Appliance architecture supporting the existing APs to download OS and configuration from controller.		
	The controller should be capable of supporting 2000 or more APs in thin AP deployment mode integration without any addition of Hardware components.		
	WLAN solution should support Centralized controller-based architecture support WiFi-6E or latest wireless LAN technology.		
	Controller must have clustering capability with no single point of failure. If primary appliance goes down, APs should able to load balance and fallback to available appliance in cluster.		
	The controller should have minimum of 4 nos. of 10/25G SFP28 Port populated with 4 x10G Multimode transceivers for connecting to LAN and minimum 40Gbps of Wired and Firewall Throughput.		
	Controller should have console port, USB port and REST API		
	Controller should have dual firmware storage		
	Controller should have internal hot swapable redundant power supply.		
	Controller should have capacity to handle minimum 30K or more concurrent user/endpoint.		
	Redundancy Features: Active: Standby; Active: Active and 1: Many redundancies. Licenses of each Wireless switch/Controller should be aggregated so that all the licenses are usable.		
Appliance should support operating temperature of 0-to-40-degree C.			
WLAN System Authentication & Encryption	WLAN system shall provide captive portal page from existing AAA for seamless authentication and user experience.		
	Support universal authentication, MAC based authentication., 802.1X based authentication with supplicants, Integrated Web-Based Authentication		

	The controller should provide latest network authentication (WEP, WPA, WPA2, WPA3) and encryption types like DES/3DES, TKIP and AES.		
	RADIUS support, Ability to utilize RADIUS attributes to assign users or devices to specific roles/vlans.		
	Ability to push pre-defined web pages as a part of pre-authentication network access rights beyond DHCP response. (e.g. to allow PCs and MACs to finish network scripts and network boot ups).		
	The proposed WLC should support third party Captive portal redirection along with the integration with 3rd party AAA servers.		
WLAN Standard Support	Wi-Fi alliance 802.11a/b/g/n/ac and 802.11ax and WiFi-6E		
	Technology must be optimized specifically for 802.11ax, WiFi-6E or latest wireless LAN technology		
RF Management	The Controller shall support an ability to dynamically adjust channel and power settings based on the RF environment. Quoted Access point must support necessary spectrum analysis functionality to achieve this.		
	The Controller shall support RF management algorithm must allow adjacent APs to operate on different channels, in order to maximize available bandwidth and avoid interference. Quoted Access point must support necessary spectrum analysis functionality to achieve this.		
	The Controller must support interference detection and avoidance for both Wi-Fi and non-Wi-Fi interferes. Quoted Access point must support necessary spectrum analysis functionality to achieve this.		
	Must support coverage hole detection and correction that can be adjusted on a per WLAN basis.		
	Controller should support management frame protection.		
	Solution must support per user Rate limiting control, like employee should get 4 MBPS and guest should get 2 mbps on same SSID.		
	Load balancing across bands and steering of dual-band capable clients from 2.4GHz to 5GHz in order to improve network performance.		

	Traffic shaping capabilities to offer air-time fairness across different type of clients running different operating systems in order to prevent starvation of client throughput in particular in a dense wireless user population without the use of client specific configurations or software.		
	Capability to provide preferred access for “fast” clients over “slow” clients in order to improve overall network performance.		
	The proposed WLC should proactively identifies and mitigates RF interference, System should support RF management in real time for better network performance		
	The controller should provide differentiated access for Guests and staff group on same SSID, Guests should have restricted access like not able to telnet & SSH to servers while connecting on same SSID. Role based Access policy support should be available for differentiated access.		
	RF Redundancy		
	User and bandwidth capacity		
WLAN System Access Control for enhance security.	Security enforcement for wireless users through the use of role-based functionalities that can be directly integrated with the roles/ACL’s defined within existing authentication servers.		
	The solution must have VPN capability for remote Work from Home user secure network connectivity.		
	Dynamic access rights into the network once authenticated based on source, destination, and/or ports		
	Capability to ensure privacy protection by preventing ACLs and IP spoofing attacks		
	System should capture the events & alarms data in syslog for audit and analysis.		
	Rules for access rights based on any combination of time, location, user identity, device identity, and extended attributes from the authentication database or equivalent ACL based functionality.		
WIPS/WIDS	Ability for the system to provide visibility into all 802.11 Wi-Fi channels		
	WIPS solution shall support Automatically blacklist clients when it attempts any attack.		

	WIPS solution shall support be capable of wireless intrusion detection & prevention. The WLAN should be able to detect Rogue AP and take corrective action to prevent the rogue AP. The system should detect and prevent an organization's wireless client connecting to rogue AP and also prevent an outside client trying to connect to organizational WLAN.		
	WIPS solution shall support detect, classify & prevent an Ad-hoc connection as well as windows bridge		
	The system shall support to detect an invalid AP broadcasting valid SSID and should prevent valid clients getting connected from these AP's.		
	WIPS Solution shall support track the location of interferer objects.		
	For advance forensic WIPS solution shall support spectrum analysis to detect and classify sources of interferences. System should provide chart displays and spectrograms for real-time troubleshooting and visualization.		
	The WIPS solution shall support to detect and locate the rogue access point on floor maps once detected.		
	The WIPS solution shall support to detect and protect if a client probe-request frame will be answered by a probe response containing a null SSID to crash or lock up the firmware of any 802.11 NIC.		
	The WIPS solution shall support to detect and protect if a client/tool try to flood an AP with 802.11 management frames like authenticate/associate frames which are designed to fill up the association table of an AP.		
	The WIPS solution shall support to detect and protect if a client/tool keep on sending disassociation frames to the broadcast address		
	The WIPS solution shall support to detect and protect if somebody try to spoof mac address of client or AP for unauthorized authentication.		
	The WIPS solution shall support to detect and protect if a client/tool try deauthentication broadcast attempts to disconnect all clients in range rather than sending a spoofed deauth to a specific MAC address.		

	The WIPS solution shall support to detect and protect if an attacker attempts to protect a client to a malicious AP using SSID on fake AP in close proximity of the premises.		
	The existing AP should be integrated with proposed controller. All the features, configuration and functionality of existing AP should be synchronized with the proposed controller.		
Mobility & Notifications	Controller should support reliable fast roaming standards 802.11k/r		
	The WLAN solution must support seamless Layer 2 and Layer 3 Roaming for Users to roam between buildings, building floors or across the entire network without requirement of re-authentication, IP address or firewall security state change		
	The Proposed Solution should able to push notification at any given time to the end user device.		
	The system shall offer open API to integrate mobile App, to integrate proximity-based service, like push notification service		
	The system must support L3 roaming capabilities across APs		
	The system must support Opportunistic Key Caching (OKC).		
	The system must support Pairwise Master Key (PMK) caching.		
Quality of Service	Provide application, user, and policy based QoS.		
	The solution must be able to take action including allowing the traffic, denying the traffic, rejecting the traffic, modify the QoS level of the traffic, and blacklist (remove from the network) the client for policy matches.		
	The Controller must support L7 DPI based Application, Custom Application based visibility, QoS and controlling capability.		
	The controller should support advance QOS to implement role-based access for data, voice and video applications. It should support session prioritization as well like Voica, Video, Data of MS Lync should get different QOS.		
	Prevent mis-use of QoS rules with deep packet inspection and WMM queue enforcement for user data		
	Support real time voice and video applications.		

	Automatic call recognition of voice protocols such as Session Initiation Protocol (SIP) and other VoWLAN protocols		
	Traffic prioritization		
Network Services and Certification	Safety certifications: EN/UL/CAN/CSA 62368-1 OR equivalent BIS certificate		
	Electromagnetic emissions certifications: 1. FCC Part 15 Class B/CISPR32 Class B/EN 55032 Class B/ICES-003 Class B/KN32 Class B/ CNS13438, 2. EN 61000-3-2/61000-3-3, 3. EN 55035/KN35 OR any equivalent BIS certificate for all (1, 2 & 3) aforementioned certificates		
	The controllers shall be offered with five years OEM warranty (minimum NBD support) and software updates/upgrades from OEM directly

Sir,

We {name and address of the OEM} who are established and reputed original equipment manufacturers (OEMs) having factories at {addresses of manufacturing location} do hereby authorize {M/s _____} who is our {Distributor/ Channel Partner/ Retailer/ Others <please specify>} (hereafter referred as bidder) to bid, negotiate and conclude the contract with you against the aforementioned reference for the following Hardware/ Software manufactured by us: -

{OEM will mention the details of all the proposed product(s) with their make/ model.}

We undertake to provide OEM Warranty for the offered Hardware/ Software, as mentioned above, for 5 Years.

We hereby confirm that the offered Hardware/ Software is not likely to be End-of-Sale within next 12 months from the date of bid submission.

We hereby confirm that the offered Hardware/ Software is not likely to be declared as End-of-Service/ Support within next 5 years from the date of bid submission.

We hereby confirm that we have direct back-to-back service support agreement with the bidder for the duration as per RFP. DoIT&C/RISL/Bidder/ GoR will be able to log a support ticket directly to our helpdesk to get telephonic/remote support directly from us, as required.

Yours faithfully,
