

S.No	RFP Page No.	RFP Rule No.	Rule Details	Query/ Suggestion/ Clarification	Remarks
1	14	3. QUALIFICATION/ ELIGIBILITY CRITERIA	<p>The OEM should have supplied an integrated solution in Data Centre of any Government (Department/ Organization)/ PSU/ BFSI/Telecom Sector in India having any four or more functionalities out of ITAM, ITOM, ITSM, NMS, Data Center Discovery and Patch Management in last five years as on due date of submission of bid.</p> <p>All above implemented products should not be declared end of sale/ end of support by the OEM till the date of bid submission.</p> <p>Documents Required Copies of Work Order + Successful implementation report form Client</p>	<p>In the current market, functionalities such as ITOM (IT Operations Management) and Data Center Discovery are not always offered as standalone modules. These capabilities are typically delivered as part of the NMS/Monitoring and IT Asset Management platforms</p> <p>We request the department to: Allow OEMs to demonstrate ITOM and Data Center Discovery functionalities through integrated NMS/ITAM/ITSM capabilities, even if these are not named as standalone modules.</p> <p>Allow submission of POs with earlier product names/codes, with a mapping document & OEM certification confirming functional equivalence.</p> <p>Modify the eligibility clause to:</p> <p>“OEM should have supplied an integrated IT Infrastructure Management solution covering any four or more functionalities such as ITAM, ITOM (as part of NMS/ITSM), ITSM, NMS, Data Center Discovery (as part of NMS/Asset Discovery), and Patch Management.”</p>	As per RFP.
2	73	ANNEXURE-2: TECHNICAL SPECIFICATIONS	<p>C.ITOM</p> <p>Sr.No-13 > The proposed solution should be implemented across two Public/Telecom/PSU sector units, operating with more than 5,000 branches, ensuring scalability, high availability, and uniform adoption across a large.</p>	<p>Branch-based deployment criteria are relevant only to Banking & BFSI sectors. SDC implementation experience should be the relevant criteria, Hence for fair and wider participation with relevant experienced OEMs.</p> <p>Suggested Clause:</p> <p>“The proposed solution should be implemented across 5 State Data Centers in India for any of the states.”</p>	<p>As per revised RFP.</p> <p>(Deleted)</p>

S.No	RFP Page No.	RFP Rule No.	Rule Details	Query/ Suggestion/ Clarification	Remarks
3	73	ANNEXURE-2: TECHNICAL SPECIFICATION S	C.ITOM Sr.No-15 >The OEM must have more than 500 Support and R&D staff based in India to ensure robust technical expertise, continuous innovation, and local compliance.	<p>The requirement for a high number of R&D and Support staff specific to Data Centre operations appears disproportionately high and may unintentionally favour a single foreign OEM operating in India. We therefore request the Authority to either relax or remove this criterion to ensure wider participation and fair competition.</p> <p>Suggested Revision:</p> <p>“The OEM must have more than 200 Support and R&D staff based in India to ensure robust technical expertise, continuous innovation, and adherence to local compliance requirements.”</p>	<p>As per revised RFP</p> <p>(Sr.No-15 >The OEM must have more than 200 Support and R&D staff based in India to ensure robust technical expertise, continuous innovation, and local compliance.)</p>
4	76	ANNEXURE-2: TECHNICAL SPECIFICATION S	C.ITOM 55. The solution should provide dashboard as a single framework for streaming metrics across systems, applications, networks, topology & event data, the operations manager must be FIPS 140-2 compliant, which ensures that cryptographic-based security systems are to be used to provide protection for sensitive or valuable data.	<p>Requesting Authority to remove this clause as this is restrictive for Many reputed OEMs and only allowing foreign OEMs</p> <p>Justification: “FIPS-140-2 is a U.S. federal cryptographic module validation program; mandating it as the sole acceptable certificate effectively discriminates against Indian/local OEMs. DPIIT’s Public Procurement (Preference to Make in India) Order requires procuring entities to avoid technical specifications that unnecessarily exclude domestic suppliers; a single-standard (FIPS-only) requirement may contravene this principle.</p>	As per RFP.
5	77	ANNEXURE-2: TECHNICAL SPECIFICATION S	C.ITOM 74. The Proposed EMS solution should be FIPS 140-2 certified to ensure security compliances.	<p>Requesting Authority to remove this clause as this is restrictive for Many reputed OEMs and only allowing foreign OEMs</p> <p>Justification: “FIPS-140-2 is a U.S. federal cryptographic module validation program; mandating it as the sole acceptable certificate effectively discriminates against Indian/local OEMs. DPIIT’s Public Procurement (Preference to Make in India) Order requires procuring entities to avoid technical specifications that unnecessarily exclude domestic suppliers; a single-standard (FIPS-only) requirement may contravene this principle.</p>	As per RFP.

S.No	RFP Page No.	RFP Rule No.	Rule Details	Query/ Suggestion/ Clarification	Remarks
6	83	ANNEXURE-2: TECHNICAL SPECIFICATION S	D.ITSMS 11. The Proposed EMS OEM must be ISO 27701:2019, ISO 27018:2019, ISO 14001 & ISO 50001, NIST SP 800-171, FIPS 140-2 certified to ensure security compliances. The same must should be substantiated by submitting supporting documents.	We request the tendering authority to kindly review the requirement mandating NIST SP 800-171 and FIPS 140-2, and modify the clause to align with Indian government procurement norms and ensure fair competition. Other Government tenders (NIC, MeitY, BSNL, PowerGrid, State DCs) do not mandate NIST SP 800-171 ISO 27001 and 27034 privacy and data protection that exceed U.S. NIST SP 800-171 in several sections Therefore, NIST/FIPS provide no additional security advantage in the Indian Data Centre context. Suggested Clause: "The Proposed EMS OEM must be ISO 27001:2019, ISO 27034-1, ISO 14001 & ISO 55000certified to ensure security compliances. The same must should be substantiated by submitting supporting documents.	As per RFP.
7	83	ANNEXURE-2: TECHNICAL SPECIFICATION S	12. Solution includes integrated Configuration Management (Configuration Management Database) for managing key ITIL functions and processes including and not limited to: IT Service Desk, Incident, Request, Knowledge, Problem, Change, Configuration, Service Level & Asset Management functions. Solution's service management tool should be certified in at least 13 or above ITSM processes of ITIL v4 by providing copy of certificates.	We respectfully request the authority to kindly revise the mentioned clause as follows: <i>"The proposed ITSM solution must be certified in at least 12 ITIL v4 processes. A valid copy of the relevant certification(s) should be submitted along with the bid submission."</i> This modification will ensure fair participation while maintaining compliance with ITIL v4 best practices.	As per RFP.
8	87 & 91	ANNEXURE-2: TECHNICAL SPECIFICATION S	E.NMS; Sr no3 and Sr.No.33 Contradictory -Solution should support multitenancy by segregating data storage, data processing and network communication. - Solution should use same and single application instance for network performance, traffic analysis, configuration deployment and compliance management of network devices and solution should be deployed in VMs.	Please clarify if there is a requirement for multitenancy or not, looking at current requirement and centralised monitoring for data centre there is no multienancy requirement. Also, it is clear from Sr.33 everthing must be monitor from single Instance. Hence we request authority to remove Point 3 from NMS Requirements	As per RFP.

12	98	ANNEXURE-2: TECHNICAL SPECIFICATION S	G. Patch & Vulnerability Mgmt: Sr.No:28 > All software components/modules of EMS solution & its support should be provided by same OEM for seamless integration of solution for entire duration of contract	Since not all EMS OEMs provide a built-in Vulnerability Management module as part of their standard product portfolio, we request the Authority to allow the inclusion of an integrated Vulnerability Management solution from a reputable third-party OEM. This will enable the Authority to select a specialized and proven vulnerability management tool, ensuring comprehensive coverage of the overall data centre security requirements rather than relying solely on a single OEM's capabilities.	As per revised RFP. (Deleted)
13	17	10	Bidder must engage OEM and OEM professional team/services onsite for installation and implementation of the solution.	Request to kindly reword the clause as follows: Bidder must engage OEM and OEM professional team/services / OEM authorized partner team onsite for installation and implementation of the solution.	As per RFP.
14	18	25	Training Requirements - The bidder shall arrange OEM training within three months of Go-Live of solution without any extra cost to tendering authority regarding installation, configuration, operation, basic troubleshooting, management and daily operations etc. as per DoIT&C/RISL's requirement	Request to kindly reword the clause as follows: The bidder shall arrange OEM/OEM authorized partner training within three months of Go-Live of solution without any extra cost to tendering authority regarding installation, configuration, operation, basic troubleshooting, management and daily operations etc. as per DoIT&C/RISL's requirement	As per revised RFP. (The bidder shall arrange onsite OEM authorized partner training within three months of Go-Live of solution without any extra cost to tendering authority regarding installation, configuration, operation, basic troubleshooting, management and daily operations etc. as per DoIT&C/RISL's requirement for batch of 20+ persons . Also, bidder needs to coordinate with DoIT&C/RISL for training schedule for four additional training sessions in entire duration of contract period..)
15	21	56	Manpower a) Onsite (Jaipur) deployment of one OEM resource for 03 years	Request to kindly reword the clause as follows: Manpower a) Onsite (Jaipur) deployment of one OEM resource/OEM authorized partner resource for 03 years	As per revised RFP. (Onsite (Jaipur) deployment of one OEM authorized partner resource for 03 years and three SI resources for 05 years from the date of Go-Live.)
16	16	26	All the licenses proposed by the vendor should either be OEM Perpetual or Subscription based licenses. (i.e., Perpetual licenses & support OR Subscription licenses & support). In case of Subscription based licenses being offered, OEM has to give undertaking that that perpetual license model is not available/supported for the proposed solution / component.	Request to kindly delete the line: In case of Subscription based licenses being offered, OEM has to give undertaking that that perpetual license model is not available/supported for the proposed solution / component as we will not be able to provide this undertaking. The entire IT industry is moving towards subscription licensing making the Perpetual licensing model commercially unviable hence request to kindly delete above line from clause	As per revised RFP. (All the licenses proposed by the vendor should either be OEM Perpetual or Subscription based licenses. (i.e., Perpetual licenses & support OR Subscription licenses & support.)
