government premises located anywhere in the State of Rajasthan on Rate Contract basis for a period of two (2) years, which may be further extended as per RTPP Act & Rules.

The orders may be placed in a phased manner i.e. RRC mode. During the period of rate contract, RISL may place multiple work orders to the selected bidder(s) for any no. of units up to the validity of the rate contract. However, this Rate Contract doesn't ensure necessarily placing of a work order by RISL to the selected bidder(s).

1) Service Level Standards/ Requirements/ Agreement:

- a) Service Levels play an important role in defining the Quality of Services (QoS). The prime objective of service levels is to ensure quality video conference services available, in a efficient mannner to the identified users.
- b) It is acknowledged that service levels may change. The present SLAs have been worked out on the basis of current expectation. Service levels between the Purchaser and Bidder can be revised after the start of operations in view of the experience gained. The experience gained during this period will be used to fine tune the SLAs, including parameters, targets and penalties, if required. Any changes to the levels of service provided during the project period will be requested, documented and negotiated in good faith by both parties. Either party can request a change. The request will be considered & finalized by RISL in consultation with successful bidder. Changes will be documented as an addendum to the contract. The request of change in Service Level parameter by either of the party (ie Purchaser or Bidder) shall not be binding to other party and shall be applicable on mutual agreement of both the parties.
- c) Though that bidder is expected to maintain the solution to the highest possible efficiency, the first month after commissioning (Go-Live) of each site shall be treated for prove-in period and no penalty shall be imposed for any SLA defaults in order to facilitate stabilization of operations.
- d) In case penalty reaches maximum for three consecutive quarters, the purchaser may invoke termination clause as per RFP.
- e) No penalty shall be levied, due to reasons not attributable to the SP/Bidder.

SLA for MPLS Connectivity:

1. SLA Duration (Timing for Service Window):

Timings	24x7
Prime Hours	8:00 AM to 8:00 PM
Non-Prime Hours:	8:00 PM to 8:00 AM

- 2. **SLA Matrix:** Initial Response Time (IRT) to rectify and restore the services will be calculated from the time of detection of non-availability of services either through HDMS/ NMS/ or registration of complaints at Help Desk/Service Window or any other mechanism adopted under the project (by DoITC/RISL), whichever is earlier. IRT as below shall be permitted and excluded from SLA breach:

Location	Prime Hours	Non-Prime Hours
HO Sites at SHQ	15 Minutes	30 Minutes
End Office at SHQ/DHQ level	30 Minutes	60 Minutes

End Office at BHQ/GP level	60 Minutes	90 Minutes
----------------------------	------------	------------

The duration beyond IRT shall be counted into SLA breach and penalty shall be imposed accordingly.

3. **Service Level Requirement for each link:** The BIDDER/SP has to maintain the network uptime at each of the locations as per the table given below:

Location	Desired Network Uptime (MPLS)		Desired Network Uptime (P2P & ILL)	
	Prime Hours	Non-Prime Hours	Prime Hours	Non-Prime Hours
HUB Sites at SHQ	99%	98%	99.5%	99%
End Office at SHQ/DHQ level	98%	95%	99%	98%
End Office at BHQ/GP level	95%	92%	98%	97%

4. Uptime and SLA exclusion time calculation shall be done as below:

- a. Uptime calculation for each Link: 'Uptime' refers to the availability of bandwidth for each link and shall be calculated separately for Prime Hours and Non-Prime Hours, based on the formula given below:

$$\text{Uptime (in percentage)} = \frac{100 \times [\{\text{Total Available time per Quarter}\} - \text{Downtime of a Link}]}{[\text{Total Available time per Quarter}]}$$

Note:

1. Total Available time per month = (12 hrs * N days) – SLA Exclusion Time
 2. N = Number of calendar days in a Quarter
 3. SLA Exclusion Time = IRT + scheduled downtime as permitted in RFP
- b. In addition to IRT, following shall be excluded from fault duration (SLA Exclusion time):
- i. Unavailability of circuit due to power failure at purchaser end.
 - ii. Unavailability of circuit due to force majeure.
 - iii. Scheduled Downtime: Scheduled downtime for preventive maintenance or up-gradation shall be considered with prior permission. Preventive maintenance window of 3 hours per quarter per link shall be permitted between 9:00 PM to 6: 00 AM.

5. **Measurement of Service Level Parameter:**

- i. The measurement of SLA shall be performed, calculated & audited by DoITC/RISL/third party auditor nominated by the purchaser. The logs/ data generated by NMS and HDMS shall be open for reference to the SP/Bidder.
- ii. The uptime shall be calculated on quarterly basis during the entire project period by DoIT&C/RISL/ designated agency using EMS/ NMS tool and penalty if any would be charged per Quarter. Downtime of any one of the services (Voice, Video and Data) would result in deduction of that downtime from the total time in the Quarter.
- iii. In case of any difference in downtime calculations based on the data of purchaser EMS/NMS, the SP/Bidder may supply their own EMS/NMS data for reference.
- iv. Committed Interface Rate (CIR): The Committed Interface Rate (CIR) is a QoS type arrangement. It is basically an agreement that the Bandwidth Service Provider/Bidder

ensures that the purchaser has a guaranteed minimum data rate across the network. Failure to provide this rate could result in a breach of contract. The bandwidth to be provided shall be non-shared bandwidth. CIR shall be measured at all times. The link shall be treated as down if the CIR for that particular link is below 95% of ordered bandwidth. Penalties would be calculated accordingly.

6. Penalty for non-achievement of Service Level Requirements:

Penalty which shall be deducted from Quarterly Equated Instalment payable against the links shall be as below:

For MPLS and MPLS over 4G and MPLS over 5G connectivity:

Network Level	Parameter	Penalty
End Office	% Drop from defined Uptime	Equal % of deduction from payable amount for each link for uptime upto 80% (20% would be capping). With following exceptions: 1. In case of user complaints to department 2. If a link found bandwidth below than CIR the link will be treated down. (For MPLS only) For both above cases, No payment shall be made for links having uptime less than 80%.
Throughput at SHQ	% drop from sum total of bandwidth of all links	Equal % of deduction from payable amount for all links.

For P2P and ILL connectivity:

Network Level	Availability During Prime Hours	Penalty	Availability During Non-Prime Hours	Penalty
SHQ to respective Div.HQ/DHQ Link	>= 99.5%	Nil	>= 99%	Nil
	>=96% and <99.5%	(10% of quarterly equated instalments for that link)	>=95% and < 99%	(5% of quarterly equated instalments for that link)
	>=93% and <96%	(15% of quarterly equated instalments for that link)	>=90% and <95%	(10% of quarterly equated instalments for that link)
	>=90% and <93%	(25% of quarterly equated instalments for that link)	>=88% and <90%	(15% of quarterly equated instalments for that link)
	<90%	(100% of quarterly equated instalments for that link)	<88%	(100% of quarterly equated instalments for that link)
Each Div.HQ to respective DHQ Link	>= 99%	Nil	>=98%	Nil
	>=95% and <99%	(10% of quarterly equated instalments for that link)	>=94% and <98%	(5% of quarterly equated instalments for that link)
	>=93% and <95%	(15% of quarterly equated instalments for that link)	>=90% and <94%	(10% of quarterly equated instalments for that link)

	>=88% and <93%	(25% of quarterly equated instalments for that link)	>=85% and <90%	(15% of quarterly equated instalments for that link)
	<88%	(100% of quarterly equated instalments for that link)	<85%	(100% of quarterly equated instalments for that link)

Penalty for non-achievement of Latency for P2P connectivity shall be deducted as below:

Latency	Penalty per Quarter Per circuit
<=40ms	NIL
>40ms and <=50ms	5% of quarterly payment
>50ms and <=75ms	10% of quarterly payment
>75ms	25% of quarterly payment

Note: The penalty shall be calculated separately for Prime Hours and Non-Prime Hours and for each parameter defined above, on quarterly basis. Penalty imposed shall be sum of both (i.e. Prime Hours and Non-Prime Hours). However, for any given link, penalty shall not exceed 100% of Quarterly equated instalments (i.e. rental) for that link.

7. Penalty for non-commissioning of links:

If a SP/Bidder fails to commission the link after declaring the site feasible within the stipulated time period provided in the work-order issued by RISL, a penalty of 100% of the link rental of quarter of the link, shall be deducted from the payable amount to SP/bidder for commissioned links for the particular quarter. Such links may be offered to other SP/Bidder for commissioning. This is over and above the capping.

8. Penalty on non-availability of manpower resources

- a) The penalty for non-availability of resource shall be Rs 2500/- per day for Project Manager and Rs 1500/- per day for Support Engineer.
- b) Non-deployment of manpower and leaves availed beyond permitted leave shall attract penalty and these days shall not be taken into account for payment.
- c) Penalty for non-deployment/non-availability of manpower shall be in addition to the other penalties define in the RFP and shall be excluded from the overall limit.
