2. PROJECT PROFILE & BACKGROUND INFORMATION

Project Profile

The Government of Rajasthan, as part of its on-going Information Technology (IT) reforms, envisions moving towards an e-enablement. It aims to utilize the benefits of Information Technology to bring about radical changes in the way various processes are carried out presently to improve the Accountability, Transparency & Effectiveness in Government administration. The ultimate objective is to arm the Government with IT enabled systems to assist them in carrying out their day-to-day functions to help deliver G2G, G2B and G2E services.

Department is leading various key projects of the State viz. Janaadhar, RajSampark, Development cell, Website cell, GIS cell. To meet server infrastructure requirements, the Department has procured Blade and Rack servers. Endpoint Detection and Response (EDR) software is required to be installed on these servers as well as on other hardware.

Accordingly, RajComp Info Services Ltd. (RISL), on behalf of the Department of Information Technology & Communication (DoIT&C), intends to enlist and enter into a rate contract with a competent and professional System Integrator (SI) for the supply and installation of EDR software for Blade & Rack servers and other hardware through this tender.

The rate contract shall be valid for a period of one (1) year, during which the Department will issue work orders to the selected SI for supply and installation of the EDR software. The software shall be delivered at RSDC, Jaipur. The rate contract may be further extended for an additional period of one year with the mutual consent of both parties.

4. SCOPE OF WORK, DELIVERABLES AND TIMELINES

1) Introduction

RajComp Info Services Limited (RISL), on behalf of the Department of Information Technology & Communication (DoIT&C), Government of Rajasthan, invites proposals for the supply and installation of Endpoint Detection and Response (EDR) licences (details as per annexure-1 i.e. Bill of Material) at the Rajasthan State Data Centre (RSDC), along with premium OEM support including upgrades, updates, and patches, for a period of three (3) years from the date of Go-Live of the ordered items.

The objective of procuring Endpoint Detection and Response (EDR) licences is to establish a proactive, centralized, and automated endpoint security framework across the IT infrastructure.

The selected bidder shall be responsible for the supply, installation, configuration, integration, customization, documentation and support of the EDR licences in line with the defined requirements, timelines, and Service Level Agreements (SLAs) specified in this RFP. The scope of work shall also include the provision of all requisite software licences and associated services necessary for the successful deployment and operationalization of the EDR licences.

2) Broad Scope of Work

A. EDR for Blade / Rack Servers/ VM with premium OEM support and update, upgrade & patches for 3 years from the date of Go-Live.

The scope of work includes end-to-end activities covering supply, installation, configuration, integration, testing, operationalization, go-live, and support of the Endpoint Detection and Response (EDR) solution. The implementation shall strictly adhere to the agreed architecture and component specifications defined by RISL and shall follow OEM-recommended deployment standards and industry best practices.

The successful bidder, hereinafter referred to as the System Integrator (SI), shall be responsible for providing all items and services as per the technical specifications detailed in Annexure-2.

The successful bidder, hereinafter referred to as System Integrator (SI), shall arrange supply and of below items as per technical specification mentioned in the Annexure-2: -

S. No.	Item	Tentative Qty.
1.	EDR for Blade / Rack Servers/ VM with premium OEM support and update, upgrade & patches for 3 years from the date of Go-Live.	1000 Nodes

Bidder shall be responsible for: -

- Supply items as per the details provided in Annexure-1 (Bill of Material).
- The EDR should be supplied with all the required installation material/ accessories (wherever required) for proper installation.
- Install the supplied items at the RSDC Site and obtain successful installation report from the designated officer.
- Bidder has to quote for highest/ premium support available from the OEM along with the documentation/ datasheet specifying the details of all the deliverables like service part code, features, etc. for all the OEMs.

e) Delivery timeline will be as per chapter-7.

S. No.	Milestone/ Phase	Scope of Work	Deliverables
1.	Supply & Installation	*Supply & Installation of BoM mentioned in Annexure -1 (as per 4.2. of SoW)	As per Chapter 7.1 - Payment Terms and Schedule

* RISL shall place Work Orders (WO) to the selected SI on an as-required basis. The date of issuance of the WO shall be treated as “T” for all timeline calculations.

2.1. Installation, Configuration, and Integration

- I. Bidder shall install and configure EDR on Identified End Points at RSDC/DR.
- II. Signature/ remediation for all new malware or IT-Threats must be deployed across all endpoints within 24 hours from their availability on central EPSS management server’s setup.
- III. The bidder and their proposed Endpoint security solution should comply all the regulatory / compliance requirements as per policy. Must support CERT-IN security guidelines /standards, with custom policy/ rule tweaking ability.
- IV. Proposed Solution should enable RISL to identify End Points based upon UID/UUID of Agents deployed/installed in Various End Points at Rajasthan State Data Centre (RSDC)/Disaster Recovery (DR) site.
- V. The proposed solution would be integrated with SIEM and other security solution like SIEM/ APT/ SOAR, etc.
- VI. Compliance reporting customizable per RISL requirements, aligned with GoI, MeitY, UIDAI, CERT-In, ISO 27001, and other relevant guidelines.
- VII. Solution should be modular, scalable horizontally and vertically, and ready for IPv6 and TLS 1.3.
- VIII. The specifications given are minimum. Bidders can quote equivalent or higher technical specifications to meet the requirements of RISL. The RFP scope of work and annexures together constitute the overall requirements of the solution.
- IX. Bidder has to quote for highest/ premium support available from the OEM along with the documentation/ datasheet specifying the details of all the deliverables like service part code, features, etc. for OEMs.
- X. All the licenses provided as part of BoM should strictly adhere to requirements of the RFP. If during the Contract period, it is observed by the RISL that provided licenses are not adhering to the RFP requirements then all the additional software/licenses should be provided and configured without any additional cost to the RISL.
- XI. The solution must be entirely on-premises. All the features requested in the RFP, shall operate within the on-premises environment without the need for any external internet or cloud connectivity. Internet access will be permitted for the following purposes, adhering to the state data center policy:
 - Signature updates
 - Hotfix application
 - System upgrades
 - Accessing native threat intelligence feeds, etc.

A detailed document specifying these requirements, along with proper justification and reasonability, must be submitted to RISL.

- XII. The supplied software's (wherever applicable) should include appropriate number of genuine OEM perpetual/ subscription licenses (as applicable as per OEM licensing policy).
- XIII. The bidder is mandated to engage OEM Professional Services to design the EDR (Endpoint Detection and Response) solution for server security.
 - The OEM must incorporate industry best practices to deliver High-Level Design (HLD), Low-Level Design (LLD), and As-Built configuration documents. The design must ensure the EDR solution integrates seamlessly with the existing security infrastructure (e.g., SIEM, APT, SOAR, etc.) and covers all server environments specified in this RFP.
 - Design Blueprints: OEM-certified HLD and LLD for server protection.
 - As-Built Docs: Finalized "as-installed" configuration details.
 - Integration: Seamless telemetry and workflow synchronization with SIEM.
 - Optimization: A mandatory Post-Deployment Health Check and Policy Tuning session by the OEM to ensure zero-day protection and minimize false positives.

B. EDR for Servers with Advanced Capabilities along with premium OEM support and update, upgrade & patches for 3 years from the date of Go-Live.

The scope of work includes end-to-end activities covering supply, installation, configuration, integration, testing, operationalization, go-live, and support of the Endpoint Detection and Response (EDR) solution. The implementation shall strictly adhere to the agreed architecture and component specifications defined by RISL and shall follow OEM-recommended deployment standards and industry best practices.

The successful bidder, hereinafter referred to as the System Integrator (SI), shall be responsible for providing all items and services as per the technical specifications detailed in Annexure-2.

The successful bidder, hereinafter referred to as System Integrator (SI), shall arrange supply and of below items as per technical specification mentioned in the Annexure-2: -

S. No.	Item	Tentative Qty.
1.	EDR for Servers with Advanced Capabilities along with premium OEM support and update, upgrade & patches for 3 years from the date of Go-Live.	1500 Nodes

Bidder shall be responsible for: -

- f) Supply items as per the details provided in Annexure-1 (Bill of Material).
- g) The EDR should be supplied with all the required installation material/ accessories (wherever required) for proper installation.
- h) Install the supplied items at the RSDC Site and obtain successful installation report from the designated officer.
- i) Bidder has to quote for highest/ premium support available from the OEM along with the documentation/ datasheet specifying the details of all the deliverables like service part code, features, etc. for all the OEMs.
- j) Delivery timeline will be as per chapter-7.

2.2. Installation, Configuration, and Integration

- I. Bidder shall install and configure EDR on Identified End Points at RSDC/DR.
- II. The selected bidder shall ensure that OEM has to release the models of machine learning for preventing the intrusion of the file and file-less malware for which the signatures are not available. The bidder will be responsible for deploying these models/signature on the endpoints in a timely and proactive manner.
- III. The OEM should be a pioneer in releasing the signatures and updates of AI&ML models proactively as and when new IT threats are identified, locally or globally. In case, new threats are declared and any other OEM has the remediation for these new threats, then the OEM is responsible for releasing the signatures / pattern/AI&ML models within 24 Hours, to protect against these new threats.
- IV. Signature/ remediation for all new malware or IT-Threats must be deployed across all endpoints within 24 hours from their availability on central EPSS management server’s setup.
- V. The bidder and their proposed Endpoint security solution should comply all the regulatory / compliance requirements as per policy. Must support CERT-IN security guidelines /standards, with custom policy/ rule tweaking ability.

If during the Contract period, it is observed by the RISL that provided licenses are not adhering to the RFP requirements then all the additional software/licenses should be provided and configured without any additional cost to the RISL.

- XIII. The EDR agent should be available for Engineered systems with customized operating environments (Oracle Exadata), Appliance-based platforms (IBM pure app/ Cloud pack system & Oracle exalogic / Private Cloud Appliance), and On-premises micro-services servers (Red Hat Open Shift).
- XIV. Advanced Server Investigation & Threat Analysis
- Attack timeline reconstruction for server incidents, to correlate events and
 - understand the complete sequence of compromise in complex server environments.
 - Detection of memory-resident and fileless attack techniques.
 - Monitoring of anomalous privileged activity and potential credential misuse in server environments.
 - Server Integrity and Forensics
 - Dedicated registry integrity monitoring to detect unauthorized or stealthy configuration changes.
 - Implementation of comprehensive, policy-driven File Integrity Monitoring (FIM) to enable continuous monitoring of critical system and application files.
 - Remote forensic artifact collection to support investigations without impacting production servers.
- XV. The solution must be entirely on-premises. All the features requested in the RFP, shall operate within the on-premises environment without the need for any external internet or cloud connectivity. Internet access will be permitted for the following purposes, adhering to the state data center policy:
- Signature updates
 - Hotfix application
 - System upgrades
 - Accessing native threat intelligence feeds, etc.
- A detailed document specifying these requirements, along with proper justification and reasonability, must be submitted to RISL.
- XVI. The supplied software's (wherever applicable) should include appropriate number of genuine OEM perpetual/ subscription (as applicable as per OEM licensing policy).
- XVII. The bidder is mandated to engage OEM Professional Services to design the EDR (Endpoint Detection and Response) solution for server security.
- The OEM must incorporate industry best practices to deliver High-Level Design (HLD), Low-Level Design (LLD), and As-Built configuration documents. The design must ensure the EDR solution integrates seamlessly with the existing security infrastructure (e.g., SIEM, APT, SOAR, etc.) and covers all server environments specified in this RFP.
 - Design Blueprints: OEM-certified HLD and LLD for server protection.
 - As-Built Docs: Finalized "as-installed" configuration details.
 - Integration: Seamless telemetry and workflow synchronization with SIEM.
 - Optimization: A mandatory Post-Deployment Health Check and Policy Tuning session by the OEM to ensure zero-day protection and minimize false positives.

3) Cybersecurity and Data Protection

1. The successful bidder shall ensure that the proposed solution and associated services comply with the cybersecurity requirements of RISL/DoIT&C, Government of Rajasthan, in order to safeguard the confidentiality, integrity, and availability (CIA) of information systems.

2. The successful bidder shall not copy, transfer, or extract any data obtained while performing services under this RFP onto any media (including hard drives, flash drives, cloud storage, or other electronic devices), except where express written approval has been provided by RISL.
3. The successful bidder acknowledges that the Government of India has declared certain critical computer resources as “Protected Systems” under the Information Technology Act, 2000. Accordingly, the bidder agrees and undertakes to report to RISL/DoIT&C and its designated advisory bodies the occurrence of all Cyber Incidents. For the purpose of this RFP, “Cyber Incidents” shall mean any attempted or successful breach of RISL’s information systems, unauthorized access, malware infection, denial of service, or compromise of IT-based resources.

4) Knowledge Transfer (KT) and Training

- A Knowledge Transfer (KT) plan shall be defined, covering solution architecture, software components, integration, customization, deployment, troubleshooting, policy creation, reporting, and administration.
- The successful bidder shall provide structured training programs for RISL personnel to ensure independent operation, administration, and management of the solution.
- The bidder shall also provide end-user manuals, administrator manuals, and FAQs for reference and self-learning.
- The KT sessions must comprehensively cover architecture, integration, customization, deployment guidelines, troubleshooting, reporting, and other relevant aspects.
- Post-implementation, the successful bidder shall train RISL & SOC FMS team on:
 - Independent operation of the solution
 - Policy/rule creation and configuration
 - Report generation and analysis
 - Troubleshooting and issue resolution
 - Familiarization with all major features and administrative functions

5) Go-Live and Post-Implementation Support

- Completion of customization as per RISL technical specifications.
- End-to-end responsibility of successful bidder for planning, execution, and handholding during Go-Live.
- Fixing all implementation issues without additional cost post Go-Live.
- Operation support for 4 to 12 weeks post-Go-Live for stabilization.
- OEM premium support for a minimum of three years.
- The bidder shall ensure the EDR OEM conducts an annual health check and submits a detailed report to RISL.
 - Efficiency: The OEM must certify that the system operates optimally without impacting processing, correlation, or alerting performance.
 - Remediation: Any gaps or recommendations must be rectified jointly by the SI and OEM.
 - Optimization: The check must include policy tuning to ensure detection accuracy aligns with RFP requirements.

6) Governance and Compliance

- Adherence to guidelines and standards by Government of India, MeitY, UIDAI, CERT-In, DoIT&C, and other regulatory bodies.
- Audit-ready system with session logs, access reports, and evidence artefacts maintained.

- No deviation allowed from BoM or agreed specifications; unauthorized substitutions may lead to bid rejection.
- Periodic governance reports including SLA compliance, incident management, and usage analytics.
- Hardware/Software Bill of Materials (HBOM/SBOM) in SPDX or CycloneDX format.

7) Point of Contact

- The bidder shall appoint a Technical Account Manager for all correspondence and coordination with RISL for project and support phases.

8) Documentation

a) General Documentation Requirements:

- All documentation must be provided in properly bound volumes using A4-size sheets.
- Three sets of hard copies and one soft copy (on USB) of the final documentation must be submitted.

b) Documentation Content:

- The documentation must include high-level design, detailed design, and configuration details for individual features set on various appliances. It should also cover general testing, scenario-based failover testing, Standard Operating Procedures (SOPs), best practices, and any other relevant materials to fulfill the documentation criteria.
- The bidder is responsible for creating SOPs for all in-scope solutions and processes. These documents should be reviewed and updated semi-annually or whenever there are changes in laws or regulatory requirements.

c) Delivery and Installation Reports:

- The vendor must submit Delivery and Installation Reports, including part numbers for all components supplied.
- Warranty certificates and license copies for all items supplied must also be provided.

d) Ongoing Documentation Updates:

- All documentation created as part of this RFP must be updated annually or whenever there are changes to regulatory requirements or any other legal requirements.

5. INSTRUCTION TO BIDDERS (ITB)

1) Sale of Bidding/ Tender Documents

- a) The sale of bidding documents shall be commenced from the date of publication of Notice Inviting Bids (NIB) and shall be stopped one day prior to the date of opening of Bid. The complete bidding document shall also be placed on the State Public Procurement Portal and e-Procurement portal. The prospective bidders shall be permitted to download the bidding document from the websites and pay its price while submitting the Bid to the procuring entity.
- b) The bidding documents shall be made available to any prospective bidder who pays the price for it in cash or by bank demand draft, banker's cheque.
- c) Bidding documents purchased by Principal of any concern may be used by its authorised sole selling agents/ marketing agents/ distributors/ sub-distributors and authorised dealers or vice versa.

2) Pre-bid Meeting/ Clarifications

- a) Pre-requisite: Submission of tender fees as mentioned in NIB, query
- b) Any prospective bidder may, in writing, seek clarifications from the procuring entity in respect of the bidding documents.
- c) A pre-bid conference can also be scheduled by the procuring entity to clarify doubts of potential bidders in respect of the procurement and the records of such conference shall be intimated to all bidders and where applicable, shall be published on the respective websites.
- d) The period within which the bidders may seek clarifications and the period within which the procuring entity shall respond to such requests for clarifications shall be as under: -
 - a. Last date of submitting clarifications requests by the bidder: as per NIB
 - b. Response to clarifications by procuring entity: as per NIB
- e) The minutes and response, if any, shall be provided promptly to all bidders to which the procuring entity provided the bidding documents, so as to enable those bidders to take minutes into account in preparing their bids and shall be published on the respective websites.

3) Changes in the Bidding Document

- a) At any time, prior to the deadline for submission of Bids, the procuring entity can for any reason, whether on its own initiative or as a result of a request for clarification by a bidder, modify the bidding documents by issuing an addendum in accordance with the provisions below.
- b) In case, any modification is made to the bidding document or any clarification is issued which materially affects the terms contained in the bidding document, the procuring entity shall publish such modification or clarification in the same manner as the publication of the initial bidding document.
- c) In case, a clarification or modification is issued to the bidding document, the procuring entity may, prior to the last date for submission of Bids, extend such time limit in order to allow the bidders sufficient time to take into account the clarification or modification, as the case may be, while submitting their Bids.

- d) Any bidder, who has submitted his Bid in response to the original invitation, shall have the opportunity to modify or re-submit it, as the case may be, within the period of time originally allotted or in such extended time. Provided that the Bid last submitted or the Bid as modified by the bidder shall be considered for evaluation.

4) Period of Validity of Bids

- a) Bids submitted by the bidders shall remain valid during the period specified in the bidding documents.
- b) Prior to the expiry of the period of validity of bids, the procuring entity, in exceptional circumstances, may request the bidders to extend the bid validity period for an additional specified period of time. A bidder may refuse the request and such refusal shall be treated as withdrawal of bid but in such circumstances bid security shall not be forfeited.
- c) Bidders that agree to an extension of the period of validity of their bids shall extend or get extended the period of validity of bid securities submitted by them or submit new bid securities to cover the extended period of validity of their bids. A bidder whose bid security is not extended, or that has not submitted a new bid security, is considered to have refused the request to extend the period of validity of its bid.

5) Format and Signing of Bids

- a) Bidders must submit their bids online at e-Procurement portal i.e. <http://eproc.rajasthan.gov.in>.
- b) **All the documents uploaded should be digitally signed with the DSC of authorized signatory.**
- c) A Single stage-Twopart/ cover system shall be followed for the Bid: -
- Technical Bid, including fee details, eligibility & technical documents
 - Financial Bid
- d) The technical bid shall consist of the following documents: -

S. No.	Documents Type	Document Format
Fee Details		
1.	Bidding document Fee (Tender Fee)	Proof of submission (PDF)
2.	RISL Processing Fee (e-Procurement)	Instrument/ Proof of submission (PDF)
3.	Bid Security	Instrument/ Proof of submission (PDF)
Eligibility Documents		
4.	Bidder's Authorisation Certificate along with copy of PoA/ Board resolution stating that Auth. Signatory can sign the bid/ contract on behalf of the firm.	As per Annexure-4 (PDF)

7) Alternative/ Multiple Bids

Alternative/ Multiple Bids shall not be considered at all. Also, the bidder shall not quote for multiple brands/ make/ models but only one in the technical Bid and should also mention the details of the quoted make/ model in the "Annexure-9: Components Offered".

8) Bid Security

- In open competitive bidding, two-stage bidding, rate contract, electronic reverse auction, bid security shall be 2% or as specified by the State Government of the estimated value of subject matter of procurement put to bid. In case of Small Scale Industries of Rajasthan it shall be 0.5% of the quantity offered for supply and in case of sick industries, other than Small Scale Industries, whose cases are pending with Board of Industrial and

Financial Reconstruction, it shall be 1% of the value of bid. Concessional bid security may be taken from registered bidders as specified by the State Government. Every bidder, if not exempted, participating in the procurement process shall be required to furnish the bid security as specified in the notice inviting bids.

- b) In lieu of bid security, a bid securing declaration shall be taken from the-
 - a. Departments/Boards of the State Government or Central Government;
 - b. Government Companies as defined in clause (45) of section 2 of the Companies Act, 2013;
 - c. Company owned or controlled, directly or indirectly, by the Central Government, or by any State Government or Governments, or partly by the Central Government and partly by one or more State Governments which is subject to audit by the Auditor appointed by the Comptroller and Auditor-General of India under sub-section (5) or (7) of section 139 of the Companies Act, 2013;
 - d. Autonomous bodies, Registered Societies, Cooperative Societies which are owned or controlled or managed by the State Government or Central Government;
 - e. Bidder in procurement related to Panchayat Samiti Nandishala Jan Sahbhagita Yojana or Gram Panchayat Goshala/Pashu Asharya Sthal Jan Sahbhagita Yojana issued by the State Government.
- c) Bid security instrument or cash receipt of bid security or a bid securing declaration shall necessarily accompany the sealed bid.
- d) Bid security of a bidder lying with the procuring entity in respect of other bids awaiting decision shall not be adjusted towards bid security for the fresh bids. The bid security originally deposited may, however, be taken into consideration in case bids are re-invited.
- e) The bid security may be given in the form of cash, a banker's cheque or demand draft or bank guarantee or electronic bank guarantee (e-BG), in specified format, of a scheduled bank or Insurance Surety Bonds issued by Insurer registered with the Insurance Regulatory and Development Authority of India (IRDA) for transact the business of issuing Insurance Surety Bonds, deposit through eGras or Fixed Deposit Receipt (FDR) of a scheduled bank. FDR shall be in the name of procuring entity on account of bidder and discharged by the bidder in advance. The procuring entity shall ensure before accepting the FDR that the bidder furnished an undertaking from the bank to make payment/premature payment of the FDR on demand to the procuring entity without requirement of consent of the bidder concerned. The bid security must remain valid thirty days beyond the original or extended validity period of the bid.
- f) The bidding documents may stipulate that the issuer of the bid security and the confirmer, if any, of the bid security, as well as the form and terms of the bid security, must be acceptable to the procuring entity. In cases of International Competitive Bidding, the bidding documents may in addition stipulate that the bid security shall be issued by an issuer in India.
- g) Prior to presenting a submission, a bidder may request the procuring entity to confirm the acceptability of proposed issuer of a bid security or of a proposed confirmer, if required. The procuring entity shall respond promptly to such a request.
- h) The bank guarantee or electronic bank guarantee (e-BG) presented as bid security shall be got confirmed from the concerned issuing bank. However, the confirmation of the acceptability of a proposed issuer or of any proposed confirmer does not preclude the

- procuring entity from rejecting the bid security on the ground that the issuer or the confirmer, as the case may be, has become insolvent or has otherwise ceased to be creditworthy.
- i) The bid security of unsuccessful bidders shall be refunded soon after final acceptance of successful bid and signing of Agreement and submitting performance security.
 - j) The Bid security taken from a bidder shall be forfeited in the following cases, namely:-
 - a. When the bidder withdraws or modifies its bid after opening of bids;
 - b. When the bidder does not execute the agreement, if any, after placement of supply / work order within the specified period;
 - c. When the bidder fails to commence the supply of the goods or service or execute work as per supply / work order within the time specified;
 - d. When the bidder does not deposit the performance security within specified period after the supply / work order is placed; and
 - e. If the bidder breaches any provision of code of integrity prescribed for bidders specified in the Act and Chapter VI of these rules.
 - k) In case of the successful bidder, the amount of bid security may be adjusted in arriving at the amount of the Performance Security, or refunded if the successful bidder furnishes the full amount of performance security.
 - l) The Bid Security shall promptly be returned after the earliest of the following events, namely:-
 - a. The expiry of validity of bid security;
 - b. The execution of agreement for procurement and performance security is furnished by the successful bidder;
 - c. The cancellation of the procurement process; or
 - d. The withdrawal of bid prior to the deadline for presenting bids, unless the bidding documents stipulate that no such withdrawal is permitted.

9) Deadline for the submission of Bids

- a) Bids shall be received online at e-Procurement portal and up to the time and date specified in the NIB.
- b) Normally, the date of submission and opening of Bids would not be extended. In exceptional circumstances or when the bidding document are required to be substantially modified as a result of discussions in pre-bid meeting/ conference or otherwise and the time with the prospective bidders for preparation of Bids appears insufficient, the date may be extended by the procuring entity. In such case the publicity of extended time and date shall be given in the manner, as was given at the time of issuing the original NIB and shall also be placed on the State Public Procurement Portal, if applicable. It would be ensured that after issue of corrigendum, reasonable time is available to the bidders for preparation and submission of their Bids. The procuring entity shall also publish such modifications in the bidding document in the same manner as the publication of initial bidding document. If, in the office of the Bids receiving and opening authority, the last date of submission or opening of Bids is a non-working day, the Bids shall be received or opened on the next working day.

10) Withdrawal, Substitution, and Modification of Bids

- a) If permitted on e-Procurement portal, a Bidder may withdraw its Bid or re-submit its Bid (technical and/ or financial cover) as per the instructions/ procedure mentioned at e-Procurement website under the section "Bidder's Manual Kit".
- b) Bids withdrawn shall not be opened and processes further.

11) Opening of Bids

- a) The Bids shall be opened by the bid opening & evaluation committee on the date and time mentioned in the NIB in the presence of the bidders or their authorised representatives who choose to be present.
- b) The committee may co-opt experienced persons in the committee to conduct the process of Bid opening.
- c) The committee shall prepare a list of the bidders or their representatives attending the opening of Bids and obtain their signatures on the same. The list shall also contain the representative's name and telephone number and corresponding bidders' names and addresses. The authority letters, if any, brought by the representatives shall be attached to the list. The list shall be signed by all the members of Bid opening committee with date and time of opening of the Bids.
- d) All the documents comprising of technical Bid/ cover shall be opened & downloaded from the e-Procurement website (only for the bidders who have submitted the prescribed fee(s) to RISL).
- e) The committee shall conduct a preliminary scrutiny of the opened technical Bids to assess the prima-facie responsiveness and ensure that the: -
 - a. bid is accompanied by bidding document fee, bid security or bid securing declaration, and processing fee (if applicable);
 - b. bid is valid for the period, specified in the bidding document;
 - c. bid is unconditional and the bidder has agreed to give the required performance security; and
 - d. other conditions, as specified in the bidding document are fulfilled.

- f) No Bid shall be rejected at the time of Bid opening except the Bids not accompanied with the proof of payment or instrument of the required price of bidding document, processing fee and bid security.
- g) The Financial Bid cover shall be kept unopened and shall be opened later on the date and time intimated to the bidders who qualify in the evaluation of technical Bids.

12) Selection Method:

- a) The selection method is Least Cost Based Selection (LCBS or L1).

13) Clarification of Bids

- a) To assist in the examination, evaluation, comparison and qualification of the bids, the bid evaluation committee may at its discretion, ask any bidder for a clarification regarding its bid. The committee's request for clarification and the response of the bidder shall be in writing. If committee is not satisfied with the submitted clarification may ask for further clarification from bidder.

- b) Any clarification submitted by a bidder with regard to its bid that is not in response to a request by the committee shall not be considered.
- c) No change in the prices or substance of the bid shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the committee in the evaluation of the financial bids.
- d) No substantive change to qualification information or to a submission, including changes aimed at making an unqualified bidder, qualified or an unresponsive submission, responsive shall be sought, offered or permitted.
- e) All communications generated under this rule shall be included in the record of the procurement proceedings.

14) Evaluation & Tabulation of Technical Bids

a) Determination of Responsiveness

- a. The bid evaluation committee shall determine the responsiveness of a bid on the basis of bidding documents and the provisions of sub-section (2) of section 7.
- b. A responsive bid is one that meets the requirements of the bidding documents without material deviation, reservation, or omission where: -
 - (a) “deviation” is a departure from the requirements specified in the bidding documents;
 - (b) “reservation” is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the bidding documents; and
 - (c) “Omission” is the failure to submit part or all of the information or documentation required in the bidding documents.
- c. A material deviation, reservation, or omission is one that,
 - (a) if accepted, shall:- (i) affect in any substantial way the scope, quality, or performance of the subject matter of procurement specified in the bidding documents; or (ii) limits in any substantial way, inconsistent with the bidding documents, the procuring entity’s rights or the bidder’s obligations under the proposed contract; or
 - (b) if rectified, shall unfairly affect the competitive position of other bidders presenting responsive bids.
- d. The bid evaluation committee shall examine the technical aspects of the bid in particular, to confirm that all requirements of bidding document have been met without any material deviation, reservation or omission.
- e. The procuring entity shall regard a bid as responsive if it conforms to all requirements set out in the bidding documents, or it contains minor deviations that do not materially alter or depart from the characteristics, terms, conditions and other requirements set out in the bidding documents, or if it contains errors or oversights that can be corrected without touching on the substance of the bid.

b) Non-material Non-conformities in Bids

- a. The bid evaluation committee may waive any non-conformities in the Bid that do not constitute a material deviation, reservation or omission, the Bid shall be deemed to be substantially responsive.
- b. The bid evaluation committee may request the bidder to submit the necessary information or document like audited statement of accounts/ CA Certificate,

Registration Certificate, VAT/ CST clearance certificate, ISO/ CMMi Certificates, etc. within a reasonable period of time. Failure of the bidder to comply with the request may result in the rejection of its Bid.

- c. The bid evaluation committee may rectify non-material nonconformities or omissions on the basis of the information or documentation received from the bidder under (b) above.

c) Technical Evaluation Criteria

- a. Bids shall be evaluated based on the documents submitted as part of technical bid. Technical bid shall contain all the documents as asked in the clause “Format and signing of Bids”.
- b. The Bid Evaluation Committee will carry out a detailed evaluation of the bids in order to determine whether the technical aspects are in accordance with the requirements set forth in the RFP documents.

d) Tabulation of Technical Bids

- a. If Technical Bids have been invited, they shall be tabulated by the bid evaluation committee in the form of a comparative statement to evaluate the qualification of the bidders against the criteria for qualification set out in the bidding document.
 - b. The members of bid evaluation committee shall give their recommendations below the table as to which of the bidders have been found to be qualified in evaluation of Technical Bids and sign it.
- e) The number of firms qualified in technical evaluation, if less than three and it is considered necessary by the procuring entity to continue with the procurement process, reasons shall be recorded in writing and included in the record of the procurement proceedings.
- f) The bidders who qualified in the technical evaluation shall be informed in writing about the date, time and place of opening of their financial Bids.

15) Evaluation & Tabulation of Financial Bids

Subject to the provisions of “Acceptance of Successful Bid and Award of Contract” below, the procuring entity shall take following actions for evaluation of financial Bids: -

- a) For two part/ coverBid system, the financial Bids of the bidders who qualified in technical evaluation shall be opened online at the notified time, date and place by the bid evaluation committee in the presence of the bidders or their representatives who choose to be present>;
- b) the process of opening of the financial Bids shall be similar to that of technical Bids.
- c) the names of the bidders, the rates given by them and conditions put, if any, shall be read out and recorded;
- d) conditional Bids are liable to be rejected;
- e) the evaluation shall include all costs and all taxes and duties applicable to the bidder as per law of the Central/ State Government/ Local Authorities, and the evaluation criteria specified in the bidding documents shall only be applied;
- f) the offers shall be evaluated and marked L1, L2, L3 etc. L1 being the lowest offer and then others in ascending order in case price is the only criteria, or evaluated and marked

- H1, H2, H3 etc. in descending order. <In case quality is also a criteria and the combined score of technical and financial evaluation is considered>;
- g) In case of multiple bidders quoting the same L1 value, the bidder with experience in successfully implementing a Endpoint Detection and Response (EDR) solution for a higher number of licenses shall be accorded preference for final L1 determination.
 - h) the bid evaluation committee shall prepare a comparative statement in tabular form in accordance with rules along with its report on evaluation of financial Bids and recommend the lowest offer for acceptance to the procuring entity, if price is the only criterion, or most advantageous Bid in other case;
 - i) The members of bids evaluation committee shall give their recommendations below the table regarding lowest Bid or most advantageous Bid and sign it.
 - j) it shall be ensured that the offer recommended for sanction is justifiable looking to the prevailing market rates of the goods, works or service required to be procured.

16) Correction of Arithmetic Errors in Financial Bids

The bid evaluation committee shall correct arithmetical errors in substantially responsive bids, on the following basis, namely: -

- a) if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the bid evaluation committee there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;
- b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the sub totals shall prevail and the total shall be corrected; and
- c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to clause (a) and (b) above.

17) Price / Purchase Preference In Evaluation

Price and/ or purchase preference notified by the State Government (GoR) and as mentioned in the bidding document shall be considered in the evaluation of Bids and award of contract.

In case of MSMEs, purchase preference notified by the State Government shall be considered in the evaluation of bids and award of contract.

18) Negotiations

- a) Except in case of procurement by method of single source procurement or procurement by competitive negotiations, to the extent possible, no negotiations shall be conducted after the pre-bid stage. All clarifications needed to be sought shall be sought in the pre-bid stage itself.
- b) Negotiations may, however, be undertaken only with the lowest or most advantageous bidder when the rates are considered to be much higher than the prevailing market rates.
- c) The bid evaluation committee shall have full powers to undertake negotiations. Detailed reasons and results of negotiations shall be recorded in the proceedings.

- d) The lowest or most advantageous bidder shall be informed in writing either through messenger or by registered letter and e-mail (if available). A minimum time of seven days shall be given for calling negotiations. In case of urgency the bid evaluation committee, after recording reasons, may reduce the time, provided the lowest or most advantageous bidder has received the intimation and consented to regarding holding of negotiations.
- e) Negotiations shall not make the original offer made by the bidder inoperative. The bid evaluation committee shall have option to consider the original offer in case the bidder decides to increase rates originally quoted or imposes any new terms or conditions.
- f) In case of non-satisfactory achievement of rates from lowest or most advantageous bidder, the bid evaluation committee may choose to make a written counter offer to the lowest or most advantageous bidder and if this is not accepted by him, the committee may decide to reject and re-invite Bids or to make the same counter-offer first to the second lowest or most advantageous bidder, then to the third lowest or most advantageous bidder and so on in the order of their initial standing and work/ supply order be awarded to the bidder who accepts the counter-offer. This procedure would be used in exceptional cases only.
- g) In case the rates even after the negotiations are considered very high, fresh Bids shall be invited.

19) Exclusion of Bids/ Disqualification

- a) A procuring entity shall exclude/ disqualify a Bid, if: -
 - a. the information submitted, concerning the qualifications of the bidder, was false or constituted a misrepresentation; or
 - b. the information submitted, concerning the qualifications of the bidder, was materially inaccurate or incomplete; and
 - c. the bidder is not qualified as per pre-qualification/ eligibility criteria mentioned in the bidding document;
 - d. the Bid materially departs from the requirements specified in the bidding document or it contains false information;
 - e. the bidder, submitting the Bid, his agent or any one acting on his behalf, gave or agreed to give, to any officer or employee of the procuring entity or other governmental authority a gratification in any form, or any other thing of value, so as to unduly influence the procurement process;
 - f. a bidder, in the opinion of the procuring entity, has a conflict of interest materially affecting fair competition.
- b) A Bid shall be excluded/ disqualified as soon as the cause for its exclusion/ disqualification is discovered.
- c) Every decision of a procuring entity to exclude a Bid shall be for reasons to be recorded in writing and shall be: -
 - a. communicated to the concerned bidder in writing;
 - b. published on the State Public Procurement Portal, if applicable.

20) Lack of competition

- a) A situation may arise where, if after evaluation of Bids, the bid evaluation committee may end-up with one responsive Bid only. In such situation, the bid evaluation committee

would check as to whether while floating the NIB all necessary requirements to encourage competition like standard bid conditions, industry friendly specifications, wide publicity, sufficient time for formulation of Bids, etc were fulfilled. If not, the NIB would be re-floated after rectifying deficiencies. The bid process shall be considered valid even if there is one responsive Bid, provided that: -

- a. the Bid is technically qualified;
 - b. the price quoted by the bidder is assessed to be reasonable;
 - c. the Bid is unconditional and complete in all respects;
 - d. there are no obvious indicators of cartelization amongst bidders; and
 - e. the bidder is qualified as per the provisions of pre-qualification/ eligibility criteria in the bidding document
- b) The bid evaluation committee shall prepare a justification note for approval by the next higher authority of the procuring entity, with the concurrence of the accounts member.
 - c) In case of dissent by any member of bid evaluation committee, the next higher authority in delegation of financial powers shall decide as to whether to sanction the single Bid or re-invite Bids after recording reasons.
 - d) If a decision to re-invite the Bids is taken, market assessment shall be carried out for estimation of market depth, eligibility criteria and cost estimate.

21) Acceptance of the successful Bid and award of contract

- a) The procuring entity after considering the recommendations of the bid evaluation committee and the conditions of Bid, if any, financial implications, trials, sample testing and test reports, etc., shall accept or reject the successful Bid. If any member of the bid evaluation committee, has disagreed or given its note of dissent, the matter shall be referred to the next higher authority, as per delegation of financial powers, for decision.
- b) Decision on Bids shall be taken within original validity period of Bids and time period allowed to procuring entity for taking decision. If the decision is not taken within the original validity period or time limit allowed for taking decision, the matter shall be referred to the next higher authority in delegation of financial powers for decision.
- c) Before award of the contract, the procuring entity shall ensure that the price of successful Bid is reasonable and consistent with the required quality.
- d) A Bid shall be treated as successful only after the competent authority has approved the procurement in terms of that Bid.
- e) The procuring entity shall award the contract to the bidder whose offer has been determined to be the lowest or most advantageous in accordance with the evaluation criteria set out in the bidding document and if the bidder has been determined to be qualified to perform the contract satisfactorily on the basis of qualification criteria fixed for the bidders in the bidding document for the subject matter of procurement.
- f) Prior to the expiration of the period of bid validity, the procuring entity shall inform the successful bidder, in writing, that its Bid has been accepted.
- g) As soon as a Bid is accepted by the competent authority, its written intimation shall be sent to the concerned bidder by registered post or email and asked to execute an agreement in the format given in the bidding documents on a non-judicial stamp of requisite value and deposit the amount of performance security or a performance security declaration, if applicable, within a period specified in the bidding documents or where

- the period is not specified in the bidding documents then within fifteen days from the date on which the letter of acceptance or letter of intent is dispatched to the bidder.
- h) If the issuance of formal letter of acceptance is likely to take time, in the meanwhile a Letter of Intent (LOI) may be sent to the bidder. The acceptance of an offer is complete as soon as the letter of acceptance or letter of intent is posted and/ or sent by email (if available) to the address of the bidder given in the bidding document. Until a formal contract is executed, the letter of acceptance or LOI shall constitute a binding contract.
 - i) The bid security of the bidders who's Bids could not be accepted shall be refunded soon after the contract with the successful bidder is signed and its performance security is obtained.

22) Information and publication of award

Information of award of contract shall be communicated to all participating bidders and published on the respective website(s) as specified in NIB.

23) Procuring entity's right to accept or reject any or all Bids

The Procuring entity reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to award of contract, without thereby incurring any liability to the bidders.

24) Right to vary quantity

- a) If the procuring entity does not procure any subject matter of procurement or procures less than the quantity specified in the bidding documents due to change in circumstances, the bidder shall not be entitled for any claim or compensation except otherwise provided in the bidding documents.
- b) Orders for extra items may be placed by the procuring entity in accordance with the Schedule of Powers as prescribed by the Finance Department, upto 5% of the value of the original contract.
- c) Orders for additional quantities may be placed on the rates and conditions given in the contract and the original order was given after inviting open competitive bids. Delivery or completion period may also be proportionately increased. The limits of orders for additional quantities shall be as under :-
 - a. 50% of the quantity of the individual items and 50% of the value of original contract in case of works; and
 - b. 50% of the value of goods or services of the original contract.
- d) If the bidder quotes/ reduces its price to render similar goods, works or services at a price lower than the work order / rate contract price to anyone in the State at any time during the project, any additional order [repeat orders for extra items or additional quantities] shall be automatically reduced with effect from the date of reducing or quoting lower price, for all delivery of the subject matter of procurement under the project and the work order/ rate contract shall be amended accordingly. The bidder shall be responsible to intimate RISL about the price fall.

25) Price Fall

If the bidder i.e. rate contract holder quotes/ reduces its price to render similar goods, works or services at a price lower than the rate contract price to anyone in the State at any time during the

currency of the rate contract, the rate contract price shall be automatically reduced with effect from the date of reducing or quoting lower price, for all delivery of the subject matter of procurement under the rate contract and the rate contract shall be amended accordingly.

26) Bid Prices/ Comparison Of Rates

- a) Bid prices should be FOR / FOB.
- b) Bid prices should be inclusive of all other taxes, levies, octroi , insurance etc. but excluding of GST/CST.
- c) The prices under a rate contract shall be subject to price fall clause as per as per Rule 29 (2)(h) of RTTP Rules 2013. Price fall clause is a price safety mechanism in rate contracts and it provides that if the rate contract holder quotes / reduces its price to render similar goods, works or services at a price lower than the rate contract price to anyone in the State at any time during the currency of the rate contract, the rate contract price shall be automatically reduced with effect from the date of reducing or quoting lower price, for all delivery of the subject matter of procurement under that rate contract and the rate contract shall be amended accordingly. The firms holding parallel rate contracts shall also be given opportunity to reduce their price by notifying them the reduced price giving them fifteen days' time to intimate their acceptance to the revised price. Similarly, if a parallel rate contract holding firm reduces its price during currency of the rate contract, its reduced price shall be conveyed to other parallel rate contract holding firms and the original rate contract holding firm for corresponding reduction in their prices. If any rate contract holding firm does not agree to the reduced price, further transaction with it, shall not be conducted.
- d) For bids invited for Fixed Quantity as one package the evaluation would be done for all the items of the package put together. The item(s) for which no rates has/have been quoted or left blank would be treated as zero i.e. the bidder will supply these item(s) free of cost and the total amount would be computed accordingly. There is no option with Bidder to submit quote for partial quantity of any items. Procuring Entity will award contract to the lowest priced responsive bidder for this whole package together. Discounts of any kind shall not be considered.
- e) For bids invited as item-wise, the bid evaluation would be done for each item separately. There is no option with Bidder to submit quote for particle quantity for any items. If the Bidder does not want to Bid for a particular item, then it should be left blank or filled Zero. Procuring Entity will award the contract for each item separately to the lowest priced responsive bidder for that item. Discounts of any kind shall not be considered.

27) Work Order issued to Selected Bidder(s) under Rate Contract (RC)

As per the requirements, from time to time, the Purchaser shall issue a work order to the successful bidder(s) for supply of items. However, the rate contract does not guarantee the bidder to receive any minimum/ committed number of work order(s) from RISL. The work order shall specify the quantity of various items to be supplied along with delivery schedule for supply and installation (if any).

28) Risk and Cost

If the bidder, breaches the contract by failing to deliver goods, services, or works according to the terms of the agreement, the procuring authority may be entitled to terminate the contract and procure the remaining unfinished goods, services, or works through a fresh contractor or by other means, at the risk and cost of the CONTRACTOR. In such cases, the defaulting contractor bears the risk associated with their failure to fulfil their contractual obligations. If the cost of procuring the goods, services, or works from another source is higher than the original contract, the defaulting contractor is liable for the additional cost incurred by the procuring authority. The Risk & Cost amount payable by the contractor or recoveries in lieu of Risk Purchase may be recovered from supplier by encashing/invoking Bank Guarantee, Security Deposits available with PE against the same or any other contract or may be adjusted against dues payable to supplier by PE against other purchase orders/contracts/work orders etc. by any unit/region etc. of PE.

29) Change In Law

Unless otherwise specified in the Contract, if after the date of Bid submission, any law, regulation, ordinance, order or bylaw having the force of law is enacted, promulgated, abrogated, or changed in India, where the Site is located (which shall be deemed to include any change in interpretation or application by the competent authorities) that subsequently affects the Delivery Date and/or the Contract Price, then such Delivery Date and/or Contract Price shall be correspondingly increased or decreased, to the extent that the Supplier has thereby been affected in the performance of any of its obligations under the Contract. Notwithstanding the foregoing, such additional or reduced cost shall not be separately paid or credited if the same has already been accounted for in the price adjustment provisions.

1.	Within 12 hours of lodging the complaint	No penalty
2.	After 12 hours of lodging the complaint.	1% of item cost, per item per next 12 hours

In case the supplier fails to rectify the defect(s) within 15 calendar days, it may be considered as breach of contract. Further, in case the fault is not resolved within 24 hours or lodging the complaint three times in a year, it may be considered as breach of contract.

Maximum applicable penalty shall be 50% of agreed value of item.

3) Change Requests/ Management

- a) An institutional mechanism will be set up for taking decisions regarding requests for changes. The Purchase Committee will set up a Change Control Committee with members from the procurement agency and the selected bidder/authorised partner. If it is unable to reach an agreement, the decision of the Purchase Committee will be final.
- b) RISL may at any time, by a written order given to the bidder/authorised partner, make changes within the general scope of the Agreement in any one or more of the following:
 - o Designs, specifications, requirements which software or service to be provided under the Agreement are to be specifically developed and rendered for RISL.

- The method of deployment, shipping or packing.
 - Schedule for Installation Acceptance.
 - The place of delivery and/or the services to be provided by the bidder/authorised partner.
- c) The change request/ management procedure will follow the following steps: -
- Identification and documentation of the need for the change - The information related to initiator, initiation date and details of change required and priority of the change will be documented by RISL.
 - Analysis and evaluation of the Change Request - Impact of the change in terms of the estimated effort, changed schedule, cost and the items impacted will be analysed and documented by the bidder/authorised partner.
 - Approval or disapproval of the change request – RISL will approve or disapprove the change requested including the additional payments for software development, quoted man-month rate shall be used for cost estimation, efforts of all technical resources- project manager, analyst, software developer, testing engineer, database architecture etc. shall be taken into account for total man-month estimation to carry out the s/w development resulting from the change request. For all technical resources irrespective of their experience and specialisation, the quoted man-month rate shall be used. Efforts of support staff shall not be taken into consideration for this purpose.
 - Implementation of the change – The change will be implemented in accordance to the agreed cost, effort, and schedule by the selected bidder.
 - Verification of the change - The change will be verified by RISL on implementation of the change request.
- d) All changes outside the scope of supplies agreed to herein which may have likely financial implications in terms of the overall cost/ time of the project shall be undertaken by bidder only after securing the express consent of RISL. In the event that the consent of RISL is not received then the change will not be carried out.
- e) While approving any change request, if required, RISL may ask Bidder to deploy the required resources on-site.
- f) If any such change outside the scope of supplies agreed to herein causes an increase or decrease in cost of, or the time required for, firm's performance of any provisions under the Agreement, equitable adjustments shall be made in the Agreement Price or Delivery Schedule, or both, and the Agreement shall accordingly be amended. Any claims by firm for adjustment under this must be asserted within 30 (thirty) days from the date of SI receiving the RISL change order which shall not be unreasonably withheld or delayed.

ANNEXURE-1: BILL OF MATERIAL (BoM)

A. Description of Items Required:

S. No.	Item	Tentative Qty.	MAF required (Y/N)	Compliance (Yes/No)
1.	EDR for Blade / Rack Servers/ VM with premium OEM support and update, upgrade & patches for 3 years from the date of Go-Live.	1000 Nodes	Y	
2.	EDR for Servers with Advanced Capabilities along with premium OEM support and update, upgrade & patches for 3 years from the date of Go-Live.	1500 Nodes	Y	

Note: -

- For all items mentioned in annexure-1 shall be provided with Onsite Comprehensive OEM warrenty and premium support (24*7) form the date of commissioning / Go-live for 3 years
- All software shall be deployed strictly in an on-premises environment. The licenses may be perpetual or subscription-based, in accordance with the licensing policy of the respective OEM.
- Licenses shall be in the name of '*Department of Information Technology and Communications, Government of Rajasthan*'.
- All the quoted S/w components must be IPv6 ready from day one and should be supplied with 3 Years comprehensive OEM on-site warranty and services from the Go-Live Date. This means that in case calls are lodged to OEM (through SI or purchaser) for support-services-guidance, OEM shall ensure comprehensive onsite/remote OEM support and services.
- Detailed technical specification of the equiment in Annexure-1 are the minimum requirments and bidders may quote/supply equipment with higher specifications although purchaser shall not pay for any higher specification

ANNEXURE-2: TECHNICAL SPECIFICATION

Item 1: Endpoint Detection and Response (EDR) for Blade / Rack Servers/ VM

Make Model offered..... (Need to be filled by the bidder)

S No	Functional Specifications	Compliance (Yes/ No)	Reference
1.	Proposed solution should be completely On-Premise.		
2.	Solution should support stateful Inspection Firewall, Anti-Malware, Integrity Monitoring/Threat Prevention, Application Control, log inspection and recommended scan/ device control, MITRE ATTACK framework, sandbox capability, machine learning in single module and agent capabilities		
3.	Detect and block unauthorized software execution with multi-platform application control		
4.	Proposed solution should have the ability to lock down a computer (prevent all communication) in case of an attack, except with management server.		
5.	Firewall rules should filter traffic based on source and destination IP address, port/MAC address, etc. and should detect reconnaissance activities such as port scans and Solution should be capable of blocking and detecting IPv6 attacks.		
6.	It should provide automatic rectification for known and unknown vulnerabilities and dynamically tune or customize EDR/ HIPS engine.		
7.	Solution should support any pre-defined lists of critical system files for various operating systems and/or applications (web servers, DNS, etc.) and support custom rules as well.		
8.	Solution should have feature to take backup of infected files and restoring the same.		
9.	The Solution must detect and block access to suspicious, dangerous phishing sites by scanning all form fields.		
10.	Shield known and unknown vulnerabilities in web, enterprise applications, and operating systems through a HIPS / Threat Inspection.		
11.	Solution should have Security Profiles which allows Integrity Monitoring/ threat prevention rules to be configured for groups of systems, or individual systems. For example, all Linux and Windows servers use the same base security profile allowing further fine tuning if required. Rules should be Auto-Provisioned based on Server Posture. Monitors files, libraries, services and more for any malicious changes. When changes from this desired state are detected, details are logged, and alerts can be issued to stakeholders.		

S No	Functional Specifications	Compliance (Yes/ No)	Reference
12.	Variant Protection should look for obscure, polymorphic, or variants of malware by using fragments of previously seen malware and detection algorithms.		
13.	Should provide automatic recommendations/ remediation's against existing vulnerabilities, dynamic or customized tuning EDR/ HIPS engine and provide automatic recommendation/ remediation's.		
14.	Should have pre and post execution machine Learning and should have Ransom ware Protection in Behaviour Monitoring		
15.	Should support agents for a broader range of Server Operating Systems i.e., MS Windows Server 2016,2019,2022 and higher, RHEL 7.x, 8.x, 9.x and higher, CentOS Linux, Oracle Linux, SUSE Linux, Ubuntu Linux and should support latest kernel variant of respective OS and should support auto updated agents in client server environment		
16.	Machine Learning: Analyses unknown files and zero-day threats using machine learning algorithms to determine if the file is malicious.		
17.	Proposed OEM should be positioned in any quadrant from latest published Gartner Magic quadrant report for Endpoint Protection.		
18.	Management of proposed solution should support Windows/Linux platform.		
19.	It should be capable of recommending rules / remediation's based on vulnerabilities with the help of virtual patching or prevent exploit attempt etc. and should have capabilities to schedule recommendation scan.		
20.	Should automatically submit unknown files and suspicious object samples on real time basis as per analysis and revert back to server security. Should support sandbox environment for Windows / Linux Servers. It should not leverage existing network security layer of RSDC and must be a dedicated HIPS/EDR engine.		
21.	OEM of proposed solution should have local 24x7 TAC support in India		
22.	Agent should be light-weight and tamper-proof and should not downgrade the performance of the system. It should not allow the end-user, any application to uninstall it or change the effective policy.		
23.	The solution should have a dedicated centralised management server/console for managing the endpoints. All the dependent S/w required for		

S No	Functional Specifications	Compliance (Yes/ No)	Reference
	deploying the management server should be bundled with the proposed solution. Management server should be able to pull the definition and other application updates from the internet and distribute them in real-time to all deployed agents. It should log (automated/ scheduled) the operations, security and policy related events in the central database and should be displayed on a time axis. It should allow the deployment of multiple instances of mgmt server, each for a specific site/ location/ group of endpoints. Also, there should not be any license implications for the deployment of multiple instances of management server/ console. The management and analytic components of the solution shall scale (using multiple instances) to support an endpoint client load of at least 5,000 endpoints.		
24.	The EDR solution should provide remote installation and updation of agents on endpoints. Also, the EDR solution should provide integration with MS-Active Directory for mandating the deployment of agents using the organisation's Group Policy.		
25.	The EDR solution should allow grouping of endpoints as per requirement.		
26.	The EDR solution should offer the facility of searching events based on Source IP, Destination IP, Port, Hostname, Domain Name, Process name, File name, Folder name, Hash values.		
27.	Communication between the agents and management server(s) should be encrypted.		
28.	The EDR solution should provide configurable alerting.		
29.	The EDR solution should preferably not have any restrictions on data retention and should be limited to the local available storage.		
30.	The EDR solution should have granular reporting (both on-demand and scheduled) on threats identified & blocked including potential unwanted programs and known/ unknown malware.		
31.	Reports should be supported in at least PDF and XLS/ CSV formats.		
32.	The solution should have integrated capability for event analysis.		
33.	Should integrate with leading OEM's SIEM and SOAR platforms.		
34.	The solution should provide capabilities including Exploit protection, Automated Detection,		

S No	Functional Specifications	Compliance (Yes/ No)	Reference
	Containment (Automated/Manual Isolation/ Quarantine), Investigation/analysis and Elimination.		
35.	The solution should be able to detect fileless attacks, parent-child process relationships, loading/ unloading of DLLs, files download from internet, modifications to the system files and system registry/ configuration, start-up programs and record/log their activities.		
36.	The solution should provide granular definition of prevention rules, instead of on/off switch for legitimate command interpreters like powershell, wmi, etc., advanced anti-ransomware protection based technology.		
37.	The EDR solution should have ability to approve & blacklist apps via SHA256 hash, certificate or path.		
38.	The EDR solution should have the ability to trace any malicious/ suspicious activity and record/log all user activity like files downloaded, programs executed etc. across all OS platforms. It should not be limited to record/log the malicious activities/ actions only.		
39.	The EDR solution should provide detailed information of inbound/ outbound network connections at endpoints associated with the process and able to identify malicious/ suspicious activities.		
40.	The EDR solution should provide visibility into lateral movement from endpoints.		
41.	The EDR solution should be able to detect and alert for any Data Exfiltration / breach activity.		
42.	The EDR solution should have guided Threat Hunting/Investigation critical security events and IR/log Inspection capabilities.		
43.	The solution should provide Root Cause/Historic Event Analysis of any malicious/suspicious activity based on and visualization/event report of an Attack		
44.	The EDR solution should have the ability to ingest and consume the Threat Intel from the respective OEM and other alliances (if any) in a non-proprietary format (CSV, STIX/ TAXII)		
45.	The EDR solution should allow blocking the execution of admin-defined files and applications on endpoints including the RDP/ SSH access.		
46.	Should be able to protect the endpoint from virus, backdoors, adware, spyware, malware (known/ unknown), BoT, ransomware, CnC Servers, malicious websites, zero-day attacks, crypto lockers, and other malicious content, if any, on local endpoint and network.		

S No	Functional Specifications	Compliance (Yes/ No)	Reference
47.	The EDR solution should have the capability to add exclusions of local files, folder and installed applications.		

Item -2: Endpoint Detection and Response (EDR) for Servers with Advanced Capabilities
Make Model offered..... (Need to be filled by the bidder)

S.N.	Requirement Summary	Compliance (Yes/No)	Reference
1. General			
1.1	Proposed solution should be completely On-Premise.		
1.2	Solution should have ability to forward events to an SIEM system or centralized logging server for eventual correlation, reporting and archiving.		
1.3	Customized rule creation should support pattern matching like Regular Expressions or simpler String Patterns. The rule will be triggered on a match.		
1.4	Should support agents for a broader range of Server Operating Systems i.e., MS Windows Server 2016,2019,2022 and higher, RHEL 7.x, 8.x, 9.x and higher, CentOS Linux, Oracle Linux, SUSE Linux, Ubuntu Linux along with customized operating environments (Oracle Exadata), Appliance-based platforms (IBM pure app/ Cloud pack system & Oracle exalogic / Private Cloud Appliance), and On-premises micro-services servers (Red Hat Open Shift) and should support latest kernel variant of respective OS and should support auto updated agents in client server environment		
2. Antivirus			
2.1	Antivirus should support both Real Time and Schedule scan		
2.2	Solution should have flexibility to configure different real time and schedule scan times for diff guest VMs		
2.3	Solution should support excluding certain file, directories, file extensions from scan (real time/schedule)		
2.4	Solution should support various Actions like, Clean, Delete, Quarantine, Pass		
2.5	Solution Should have Machine Learning Capabilities.		
2.6	Solution shall be able to scan Object Linking and Embedding (OLE) File.		
2.7	Should support logging reporting and correlation of suspicious events.		
2.8	Solution should support True File Type Detection, File extension checking.		

2.9	Solution should support heuristic technology blocking files containing real-time compressed executable code.		
2.10	The proposed solution should be able to detect and prevent the advanced threats which come through executable files, PDF files, Flash files, RTF files and and/or other objects using Machine learning		
2.11	The proposed solution should be able to perform behaviour analysis for advanced threat prevention.		
2.12	Solution should have Ransomware Protection in Behaviour Monitoring.		
3. Intrusion Prevention Systems			
3.1	Must be able to provide HIPS/HIDS feature that immediately protects against vulnerabilities like Shellshock, Heartbleed, or WannaCry.		
3.2	Proposed Solution should provide a feature to apply virtual patching/Vulnerability Protection.		
3.3	The proposed solution should support Deep Packet Inspection (HIPS/IDS).		
3.4	Solution should support virtual patching/Vulnerability Protection capabilities for both known and Zero Day vulnerabilities until the next scheduled maintenance window.		
3.5	Solution should protect operating systems, commercial off-the-shelf applications, and custom web applications against attacks such as SQL injections and cross-site scripting.		
3.6	Solution should provide ability to Automate/manual rule recommendations against existing vulnerabilities, exploits, suspicious network traffic and dynamically tuning IDS/IPS sensor (eg. Selecting rules, configuring policies, updating policies, etc.)		
3.7	Detailed events data to provide valuable information, including the source of the attack, the time and what the potential intruder was attempting to exploit, shall be logged.		
3.8	Solution should be capable of blocking and detecting of IPv6 attacks.		
3.9	Solution should offer protection for virtual, physical, cloud environments.		
3.10	The Solution should have Exploit rules which are used to protect against specific attack variants providing customers with the benefit of not only blocking the attack but letting security personnel know exactly which variant the attacker used (useful for measuring time to exploit of new vulnerabilities).		
3.11	The Solution should have pre-built rules to provide broad protection and low-level insight, for servers. For operating systems and applications, limiting the ability of attackers to exploit possible attack vectors. Generic rules are also used to protect web applications (commercial and custom) from attack by shielding web		

	application vulnerabilities such as SQL Injection and Cross-Site Scripting.		
3.12	The solution shall protect against fragmented attacks.		
3.13	Solution should have signatures to control based on application traffic. These rules provide increased visibility into & control over the applications that are accessing the network. These rules will be used to identify malicious software accessing the network.		
3.14	Solution should have Security Profiles/rule sets which allows rules to be configured for groups of systems, or individual systems. For example, all Linux/Windows servers use the same base security profile/rule sets allowing further fine tuning if required. Rules should be Auto-Provisioned based on Server Posture. Monitors files, libraries, services and more for changes. When changes from this desired state are detected, details are logged, and alerts can be issued to stakeholders.		
3.15	Should automatically submit unknown files and suspicious object samples on real time basis as per analysis and revert back to server security. Should support sandbox environment for Windows and Linux. It should not leverage existing network security layer of RSDC and must be a dedicated HIPS/EDR engine.		
4. Host Firewall			
4.1	The firewall shall be bidirectional for controlling both inbound and outbound traffic.		
4.2	Firewall shall have the capability to define different rules to different network interfaces.		
4.3	Firewall rules should filter traffic based on source and destination IP address, port, MAC address, direction etc. and should detect reconnaissance activities such as port scans.		
4.4	The solution should support stateful inspection firewalling functionality.		
4.5	Solution should provide policy inheritance exception capabilities.		
4.6	Solution should have the ability to lock computer (prevent all communication) except with management server.		
4.7	The firewall should be able to detect protocol violations of standard protocols.		
4.8	Solution should have security profiles/rule sets that allows firewall rules to be configured for groups of systems, or individual systems. For example, all Linux/Windows servers use the same base security profile/rule sets allowing further fine tuning if required		
5. Integrity Monitoring			
5.1	Integrity Monitoring module should be capable of monitoring critical operating system and application		

	elements files, directories, registry keys to detect and block suspicious behaviour, such as modifications, or changes in ownership or permissions.		
5.2	The solution should be able to monitor System Services, Installed Programs and Running Processes for any changes.		
5.3	Solution should have extensive file property checking whereby files and directories are monitored for changes to contents or attributes (ownership, permissions, size, etc.).		
5.4	Solution should be able to track addition, modification, or deletion of Windows registry keys and values, access control lists, or web site files are further examples of what can be monitored.		
5.5	Solution should support any pre-defined lists of critical system files for various operating systems and/or applications (web servers, DNS, etc.) and support custom rules as well.		
5.6	Solution should provide either automated recommendation of integrity rules or some suggested rules/template to be applied as per Server OS and can be scheduled for assignment/assignment when not required.		
5.7	Solution should have by default rules acting at Indicators of Attacks detecting suspicious/malicious activities.		
5.8	In the Event of unauthorized file change, the proposed solution shall report reason, who made the change, how they made it and precisely when they did so.		
5.9	Solution should have Security Profiles/rule sets which allows Integrity Monitoring rules to be configured for groups of systems, or individual systems.		
5.10	Solution should have an intuitive rule creation and modification interface includes the ability to include or exclude files using wildcards filenames, control over inspection of sub-directories, and other features.		
6. Application Control			
6.1	Solution should allow administrators to control what has changed on the server compared to initial state.		
6.2	Solution should have option to allow to install new software or update by setting up maintenance mode.		
6.3	Solution should have ability to scan for an inventory of installed software & create an initial local ruleset.		
6.4	Change or new software should be identified based on File name, file type, file hash etc.		
6.5	Solution must have ability to enable maintenance mode during updates or upgrades for predefined time period.		
6.6	Should have the ability to enforce either Block or Allow unrecognized software.		

6.7	Solution must support Lock Down mode: No Software is allowed to be installed except what is detected during agent installation.		
7. Device Controls			
7.1	Solution should have ability to whitelist and blacklist the external devices like USB. Solution should allow admin to create policies for group of servers to ensure secure access to external devices.		

Note:

1. All the items of above mentioned should be supplied with OEM Warranty, Support, Subscription/ Software Assurance. (License and asset ownership is required on the date of installation for all OS & related software products).
2. All the supplied Hardware/ Software should be Interoperable, IPv6 ready and in compliance with the policies/ guidelines issued by DIT, GoI in this regard. Also, the bidder is to quote/ propose only one make/ model against item.
3. *All the specifications below are minimum specifications and higher specifications shall be used wherever necessary/ required. Deviation on higher side shall only be considered and no extra weightage shall be awarded for such deviations. **The bidder is required to submit the technical compliance statement for each item only on the respective OEM's letter-head.***

- b. The RISL is willing to disclose such information to successful bidder only on the terms and conditions contained in this Agreement. The successful bidder agrees to hold the Covered Data and Information in strict confidence. Successful bidder shall not use or disclose Covered Data and Information received from or on behalf of Government of Rajasthan/RISL except as permitted or required by the Agreement, or as otherwise authorized in writing by RISL.

NOW, THEREFORE, THE PARTIES HERETO AGREE AS FOLLOWS:

1. Definition: In this agreement unless the context otherwise requires:

1.1. "Confidential Information" shall mean

- a) any and all information concerning Rajasthan State Data Centre (RSDC) or any other successor,
- b) any and all trade secrets or other confidential or proprietary information related and hosted in Rajasthan State Data Centre (RSDC)
- c) Passwords of IT/Non IT equipments of RSDC, user identifications, or other information that may be used to access information systems, networking diagrams, technical specifications of IT/Non IT equipments, policies of firewall/IDS/IPS /routers /switches and information hosted on IT equipments in Rajasthan State Data Centre (RSDC)

- 1.2. Proprietary Information shall mean as technical data and other information (including but not limited to digital data, products, substances, organisms, technology, research results or plans, system processes, workflows, know-how, reports, descriptions, drawings, design, compositions, strategies, trade secrets, business and financial information, and computer software) in whatever form, which is related or hosted with Rajasthan State Data Centre (RSDC) and is disclosed or delivered by the First Party to the Second Party, whether by means of written or oral disclosure or otherwise.

2. **Limitations on Use and Disclosure of Confidential and Proprietary Information**

- 2.1. Confidential and Proprietary Information disclosed by the RISL and/or other departments/PSU whose data are hosted in Rajasthan State Data Centre (RSDC) shall be used by the successful bidder solely for the purpose of fulfillment of the obligation and work assigned to it as per order no. _____ and shall not otherwise be used for his benefit or otherwise. All information encountered in the performance of duties shall be treated as confidential unless and until advised otherwise by RISL or its representative. Successful bidder shall not share, record, transmit, alter, or delete information residing/hosted in the information systems except as required in performance of the job duties.
- 2.2. Confidential and Proprietary Information shall not be copied or reproduced by the successful BIDDER without the express written permission of the RISL, except for such copies as may be reasonably required for accomplishment of the purpose stated in the tender no. _____.
- 2.3. Confidential and Proprietary Information shall be disclosed only to the Director or employees of the successful bidder who have a 'need to know' in connection with the purpose stated above, and who additionally agree to the nondisclosure requirements of this Agreement. Any further disclosure of confidential and Proprietary Information by the successful bidder shall be treated as a breach of this Agreement by the successful bidder.
- 2.4. Confidential and Proprietary Information shall not be disclosed by the successful bidder to any third party without the prior written consent of the First Party.
- 2.5. This Agreement shall not restrict disclosure or use of Confidential and Proprietary Information which:
 - a. was in the public domain at the time of disclosure or thereafter enters the public domain through no breach of this Agreement by the successful bidder; or
 - b. was, at the time of receipt, otherwise known to the successful bidder without restriction as to use or disclosure; or
 - c. becomes known to the successful bidder from a source other than the RISL and/or other departments/PSU without a breach of this Agreement by the successful bidder; or
 - d. is developed independently by the successful bidder without the use of Proprietary

- Information disclosed to it hereunder; or
- e. is otherwise required to be disclosed by law.

3. Business Obligation:

- 3.1. During the complete contract period and even after 3 years of the expiry of the agreement, the successful bidder shall not
- Disclose Confidential Information in any manner or form to any person other than its own employees for the limited purpose stated herein, or
 - Use Confidential Information for its own benefit or for the benefit of any person or entity other than the RISL, without the prior written consent of the RISL.
- 3.2. Whereas, the RISL as a matter of policy and with a view to operate and maintain RSDC has given order to the successful bidder Work Order No for _____ at Yojana Bhawan, Jaipur for a period of ___ year as specified in the service level agreement (SLA).
- 3.3. Whereas, the RISL under the circumstances referred, herein before, wants to protect itself from any misuse of the confidential and proprietary information by the third party i.e. person or persons (employees of successful bidder), had entered into an agreement with the successful BIDDER that the second party shall not divulge such information either during the course of the life of this agreement or even after the expiry of the agreement.
- 3.4. Whereas, the successful bidder has agreed to fully abide by the terms of this non-disclosure agreement and it has also been agreed by the parties that Except in cases of gross negligence or wilful misconduct:
- Neither party shall be liable to the other party for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier/selected bidder to pay liquidated damages to the Purchaser; and
 - The aggregate liability of the supplier/selected bidder to the Purchaser, whether under the Contract, in tort, or otherwise, shall not exceed the diminishing value of the remaining contract, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment, or to any obligation of the supplier/selected bidder to indemnify the Purchaser with respect to patent infringement.
- In addition to that, it has also been agreed by the parties that in cases of gross negligence or wilful misconduct successful bidder will also be liable for criminal prosecution in accordance with the prevailing laws, if applicable.
- 3.5. Whereas, the successful bidder having in his possession or control any secret official code or password or digital data or any sketch, plan, model, article, note, document or information which falls within the purview of confidential or proprietary information, the successful bidder shall not part with any part of such information to anyone under any circumstances, whatsoever, without the prior approval of the RISL and if this is violated, the RISL shall have the legal right to initiate civil and criminal proceeding

against it under the provisions of the relevant law.

3.6. Whereas, the RISL shall have the entire control over the functioning of the Successful bidder and the successful bidder shall work according to the instruction of the RISL and in case if this is violated by the successful bidder in any mode or manner, the RISL shall have the legal right to initiate civil and criminal proceeding against it under the provisions of the relevant law.
