2. PROJECT PROFILE & BACKGROUND INFORMATION

1) Executive Summary

With ever growing size of cities, ensuring high levels of physical security without significantly increasing the number of security personnel or budget seems to be a daunting task. A heightened sense of security and ever-increasing challenges require new tactics with more access to integrated system and centralized information. This necessitates the need of designing and implementing Command and Control Centres for critical infrastructure/edge equipment's across different cities.

A command and control centre (CCC) in ACCC refers to a secure building in a government that operates as the surveillance monitoring centre, coordination office and alarm monitoring centre all in one. The CCC includes Video Surveillance room, Dial 100 Control room, Forensic Investigation Room, Power Room, ITMS room, Data centre, FMS/NOC Room and related Non-IT Infrastructure. The CCC is the "nerve centre" - a central administrative location from where overall assets and activities are monitored and managed. The command and control centres operated by State Police department.

City Surveillance system have high definition fixed and PTZ IP cameras, capable of providing optical zoom, to obtain quality video stream day in and day out for the Command & Control Centre. A diversified IP based network infrastructure backbone deployed involving high speed fibre optics/ wireless technologies to carry video from cameras to the command and control centre. The CCC equipped with huge video walls, workstations, video management servers and video data storage clusters of several hundred terabytes. The network surveillance and technical support staff shall remain available round the clock to ensure high functionality of the system.

The CCC integrated with emergency services like 100, 101, 112, etc. Services. Coordination with these agencies is critical. The Dial 100 control room established along with video surveillance room under the project.

The integrated city surveillance and Incident response system involves various types of CCTV cameras located at different locations in city, Video Management Software, CCC Software, ITMS Software Dial 100, Radio Gateway and Video Analytics. The video surveillance data from various cameras deployed stored in data centre and monitored at the Video Surveillance room.

Project Objective

The objective of this project intends to increase the call taker/ dispatcher so that more resources could align to attend distress personal call who need assistance. This will more strengthen the reachability of public to emergency support system and will also give more confidence to citizen when need during distress in seven Divisional Headquarters of the state of Rajasthan.

The increase in licenses could deploy majorly in following scenarios :

- PCR van MDT based licenses
- To fulfill demand to provide MDT with required license in Ambulance, Fire brigade vehicles
- To fulfill demand to provide license so that call taker could dispatch required event to other law and order based department.

This deployment would help:

- To provide assistance to more citizen at the time of emergency using 112/100/101/102/1090 etc integrated numbers.
- To facilitate Ambulance, Police Van and Fire Brigade at place of incident
- Support police to maintain Law and Order
- Better Management of Security breaches based on alerts received from system

- Improved turnaround time in responding to any investigation case, faster access to evidence in case of security breach, law violation in the prescribed areas.

2) Project Overview

For the strengthening and success/maintenance of ongoing command and control project, GoR need to increase Call taker/dispatcher agents licenses which going to deploy as per requirement in projects and priority in Dial 100 rooms/PCR based MDT/ other law order department.

License Name	Use
Call taker/dispatcher	To enable more emergency department (dial 100/101/1090 etc.) aligned representative could provide more distress persons who need to use emergency services via 112/100.
CAD license for MDT (Mobile data terminal) for PCR VAN	To strength response time for any distress personal who need assistance and need in-person assistance PCR VAN would be more equipped with MDT where any event raised by call taker could dispatch to available PCR so that response time and real time update could take place.
