2. PROJECT PROFILE & BACKGROUND INFORMATION

2.1 Project Background

A simple, strong and effective independent administrative unit is needed by various departments in the state to make the existing administrative and technical infrastructure more responsive, transparent and comprehensive for the delivery of benefits of various public welfare schemes to the citizens.

In fulfilment of the objective and in compliance of the budget speech of the modified budget 2019-20, "Rajasthan Jan Aadhaar Scheme, 2019" is being introduced. The Rajasthan Jan Aadhaar Yojana has been brought to actualize the concept of "One Number, One Card, One Identity" for providing benefits of various schemes to citizen with Simplicity, Ease and Transparency.

This scheme envisages transferring cash benefits directly to the bank account of the beneficiaries of the state using electronic benefit transfer mechanism. The cash benefit transfer would be done using Integrated Financial Management System and other departmental /organisational application software already operational in the State Government. The scheme also envisages that eMitra will act as Point of Services.

2.2 Project Objectives

To provide "one number, one card and one identity" to the family, a Jan Aadhaar Resident Data Repository will be established using the data compiled under the State Resident Data Hub and new enrolment of citizens under Rajasthan Jan Aadhaar Yojana. This will also be integrated with Pehchan portal. Therefore, each family will be provided a Jan Aadhaar card with a 10 digit unique family identification number. The card will also be a document of the identity and the address of the family and its members.

Key objectives of this project are listed as follows.

1. To create a unique family data base by providing "one number, one card and one identity" to the family.
2. Expansion and strengthening of existing technical and electronic infrastructure in the state.
3. Promoting women empowerment.
4. Implementation of Aadhaar data Vault for Jan Aadhaar resident data repository.
5. Integration of Jan Aadhaar Application with core components of DoIT&C like Single-Sign-on, e-Vault, Raj Sewa Dwar, etc.
6. Integration with platforms such as RPP, IFMS, NPCI, etc. for direct benefit transfer.
7. On boarding of various Government schemes as notified by Rajasthan Jan Aadhaar Authority.
8. Implementing the Jan Aadhaar database security measures as per Rajasthan Jan-Aadhaar Authority act-2020.

3. PRE-QUALIFICATION/ ELIGIBILITY CRITERIA

4. SCOPE OF WORK

The Jan Aadhaar number aims to be the unique identifier of a family. This will be used for delivery of cash as well as non-cash benefits near the door-step of the residents through an intertwined network of e-Mitra kiosks making life of residents comfortable through one card and one identity.

Under the scheme, the family and an individual are identified by Unique Jan Aadhaar Id and individual (Jan Aadhaar Member Id). It is one of its kind scheme where benefits—cash and non-cash, e.g. Public Distribution System (PDS), Scholarships, Social Security Pensions & benefits of other Schemes like Distribution of Scooties to Students, Janani Suraksha Yojana are being routed through Jan Aadhaar Yojana as per Rajasthan Jan-Aadhaar Authority act-2020.

Benefits of the Scheme are as follows:

- Expansion and strengthening of existing technical and electronic infrastructure in the state.
- End-to-end service delivery platform for cash and non-cash benefits with complete transparency.
- Includes both family and individual beneficiary schemes.
- To create a unique family data base by providing "one number, one card and one identity" to the family.
- Integration with platforms such as RPP, IFMS, NPCI, etc. for direct benefit transfer.
- On boarding of various Government schemes as notified by Rajasthan Jan Aadhaar Authority.
- Implementing the Jan Aadhaar database security measures as per Rajasthan Jan-Aadhaar Authority act-2020.

4.1 Broad Scope of Work

The broad scope of work for the Technology Partner during the period of contract/ engagement would include:

- Development of Rajasthan Jan Aadhaar Yojana Application software including Enrolment, Jan Aadhaar Resident Data Repository, analytical Reports, dashboards and Integration with other Departments schemes and applications, etc.
- Migration of existing Jan Aadhaar Application data.
- Training & Capacity Building to Manpower and preparation & distribution of training material.
- Handholding support after Go-Live.
- Operation and Maintenance (Technical support/assistance for all activities, enhancement in existing modules & development of new modules in the project as per the requirement of RISL) for 5 years. MIS reports creation/updation as per requirement.

4.2 The Rajasthan Jan Aadhaar Yojana Application Development

Rajasthan Jan Aadhaar Yojana application is conceptualized as a centralized web based application to be accessed by all the users (State level, District level, Block level officials, RISL, eMitra & other designated agencies by GoR, citizens) with their respective access rights and views. Jan Aadhaar application would primarily consist of multi core modules i.e. Rajasthan Jan Aadhaar Yojana Enrolment, Seeding, Direct Benefit Transfer, DBT Mapper, MIS Reports, Jan Aadhaar Resident Data Repository, Kisan Seva portal, DBT Bharat, etc. It will have an N-Tier architecture comprising of presentation layer delivery through web portal, SMS gateway, Email etc. Middleware will facilitate communication between user interfaces and application layer through pre-defined business rules of application modules. All applications will be secured through role based user access. The chosen architecture should be able to meet the desired levels of security, scalability, performance and availability.

4.3 Rajasthan Jan Aadhaar Yojana Application Architecture

4.3.1 Web Based Architecture

Technology Partner will provide web-based applications based on following principles:

- **Interoperability:** The ability to have applications and computers from different sources and platforms work seamlessly together on and across networks can be a key to sharing resources and reduction in long-term development costs. Technology Partner will ensure interoperability of the solution proposed.
- **N-Tier model:** N-Tier model is the framework in which application user interface, logic, data, and their associated processing and repair are separated from each other in logical manner, and is more flexible in response to changes in internal logic, platforms, and structures. This isolates/ minimizes the impact of change. Considering requirements of ease of support, scalability and interoperability, N-tier model is proposed.

4.3.2 Architectural Principles

The Technology Partner will adhere to the following architectural principles while designing the Jan Aadhaar application:

- **Service Oriented Architecture (SOA):** Service-oriented architecture is an approach to define integration architectures based on the concept of a service. It applies successful concepts proved by Object Oriented Development, Component Based Design, and Enterprise Application technology. The goal of SOA can be described as bringing the benefits of loose coupling and encapsulation to integration at an enterprise level. SOA becomes relevant especially when there are multiple applications in an enterprise and point-to-point integration between them involves complexity. Enterprise service bus (ESB) already available with RISL named RajSewaDwaar would be used by technology partner.
- **Ease of Use:** The underlying technology needs will be user friendly. By having ease of use principle, training can be kept to a minimum thereby aiding IT change management and the risk of using a system improperly can be minimized.

4.3.3 Proposed Security Architecture

Envisaged Security architecture for the Jan Aadhaar Application is provisioned as below:

4.3.3.1 User Level Security

Restricted areas of the application are only accessible through pre-defined user access rights. Users at different locations would have single factor authentication i.e. logging into Jan Aadhaar application using username and password and if required dual factor authentication is incorporated i.e. logging into system using biometric authentication/OTP along with username & password.

User authentication will be done using RajSSO.

4.3.3.2 Application Level Security:

Application has Role based access, Application level security controls is provisioned in the application for following:

- Prevent SQL Injection Vulnerabilities for attack on database
- Prevent XSS Vulnerabilities to extract user name password
- Secure Authentication and Session Management control functionality is provided
- Prevent Security incorrect configuration vulnerabilities
- Prevent Failure to Restrict URL Access Vulnerabilities (By providing authorization for each sensitive page, use role-based authorization and make authorization policies configurable)
- Prevent Insufficient Transport Layer Protection Vulnerabilities
- Prevent invalidated Redirects and Forwards Vulnerabilities

4.3.3.3 Network Level Security:

The application supports both HTTP & HTTPS (128 / 256-bit SSL certificates to be deployed by successful bidder for entire project duration). The Bidder will bear all expenses pertaining to SSL Certifications.

4.3.3.4 Audit Trail & Log Management:

An audit trail (also called audit log) is a security-relevant chronological record, set of records, and/or destination and source of records that provide documentary evidence of the sequence of activities that have affected at any time a specific operation, procedure, or event.

The system should generate audit trails of all transactions/activities including logging and logout and IP address and device (web/mobile/etc.).

4.3.3.5 Role Based Redaction Implementation

Since Rajasthan Jan Aadhaar Database is having sensitive information of individuals like Bank Account details, Mobile Number etc. To protect this information, security feature needs to be implemented through which application and database users will get the masked values at database layer. The SI will implement role based redaction for the Jan Aadhaar Application.

4.4 Rajasthan Jan Aadhaar Yojana Application Functionalities

Key functionalities of Rajasthan Jan Aadhaar Yojana Application shall be as follows:

1. Rajasthan Jan Aadhaar Enrolment
2. Card Management
3. Direct Benefit Transfer
4. Rajasthan Jan Aadhaar Yojana Integration with Core Components of DoIT&C
5. Rajasthan Jan Aadhaar Yojana Services integration with Third Party application
6. Transaction Mapper
7. MIS Reports
8. Aadhaar Data vault

4.4.1 Rajasthan Jan Aadhaar Yojana Enrolment

The Technology partner will develop software for enrolment that will capture the demographic and social economic details of state residents. These details are to be captured and provided as per GoR instruction. The interface of enrolment will be provided for eMitra/Citizens. The Technology Partner has to provide services for mobile interface of Jan Aadhaar Application. This module will also facilitate the editing in the profile of the citizen. The application should have Jan Aadhaar e-card download facility for the citizen. Technology Partner has to submit reports for new registration/updation to RISL as and when required.

4.4.1.1 Validation Checks on Enrolment detail

Technology partner would implement the checks to validate the beneficiary data at the time of new registration and editing to ensure quality of data, after enrolment multi-level verification is required for the provided information along with the supported documents.

Text reading and blocking

Technology partner should responsible to filter and block the inappropriate words, Photo at the time of enrolment and the editing of the citizen profile. It should be able to analyse the meaning of the word while user is trying to save the information.

Inappropriate words initial dictionary would be prepared by Technology partner by taking input from RISL and it would be continuously auto-updated based on the inappropriate/abusive words found in data entry at later stage.

Technology partner can propose a solution for the same but the solution must be hosted under RSDC only.

4.4.1.2 Image Capturing and Validation

Application should be capable to capture the citizen image through the web camera that supports the image format to meet the image quality. It should also capable to upload the digital photograph and apply validation checks on quality & accuracy of image (stop image upload for blank images, blurred images, face is not detected etc). Technology partner would also develop a compression engine so that images wherever required in the system can be compressed.

4.4.1.3 Data Verification and De-duplication

Technology partner will also develop a method to verify the records after new enrolment and editing in Jan Aadhaar Yojana for duplicate records with records already available in Jan Aadhaar

Resident Data Repository (JRDR). It should validate the de-duplication on the resident detail like Name, Father Name, and Address, DOB, etc. and proceed further accordingly.

4.4.1.4 Data De-duplication (IBM MDM)

The de-duplication process should be designed in the way that it completes within 24-48 hours and it would be improved further. This process should be automated and does not rely on manual intervention. After successful verification the enrolment data will be moved in JRDR.

The de-duplication batches are to be maintained in the system and each new record moved into JRDR should be linked to de-duplication batch number.

Technology partner would also be responsible for Installation, Administration and configuration along with development of required processes on IBM MDM for de-duplication in Jan-Aadhaar scheme.

A dashboard would also be published for MDM processed showing detail of batches completed, in-process, etc. and time-taken by batch (steps under a batch and time taken at each step), number of families/members processed etc.

A provision would also be provided in application for showing rejected, successful, duplicate suspected to the field users so that action may be performed by field users.

Technology partner will also validate the architecture of Configured IBM MDM from the OEM.

The version of IBM MDM being used is 11.4.3 and the volume of MDM – 3.5 TB

4.4.2 Seeding

Seeding is process of inserting Jan Aadhaar ID, Bank account, mobile, etc. details of resident against a scheme id. The Application Framework would provide seeding utilities that would allow user to seed data manually & in semi-automated mode (batch seeding).

It is also possible that Departmental software applications can leverage the web services exposed by Jan Aadhaar Resident Data Repository to seed their databases. Departments may also provide data of schemes beneficiaries which may be compared with Jan Aadhaar enrolment data using IBM MDM/SAS dataflux/etc.

4.4.3 Direct Benefit Transfer (DBT Engine)

Direct Benefit Transfer (DBT) envisages transfer of benefits directly to core bank enabled bank account of the beneficiaries for the identified schemes.

Technology partner will develop solution for direct benefit transfer and Linkage with RPP, IFMS, NPCI, etc. and tracking of deposits. Delivery of non-cash benefits to intended beneficiaries using Jan Aadhaar database in a biometrically/other secured manner.

DBT Engine may be used where schemes do not have their own software or do not have benefit transfer facility, such schemes may be on-boarded on DBT engine for providing benefit transfer including enrolment, validation/verification, benefit transfer, etc.

Selection of the bank is not in the scope of Technology partner only required to develop solution for integrating related software's.

4.4.3.1 Sharing of DBT Information with Gol

Integration with different applications of Govt. of India for sharing information of Beneficiaries/ DBT. Currently information is being shared with PM-KISAN, DBT Bharat Portal of Govt of India, etc. In future as per the requirement of Govt of India information may also be shared with other applications. Information will be exchanged as per Industry standard like xml, json, csv, text etc.

4.4.4 Jan Aadhaar Application Integration with core Components of DoIT&C

Integration of the following core components of DoIT&C with the Jan Aadhaar application is required to run the Jan Aadhaar application seamlessly.

If any new integration requires or existing integration needs to be change in future technology partner will accordingly integrate or change the integration.

4.4.4.1 SMS Gateway (e-Sanchar)

To inform the citizen with enrolment status and transaction events, SMS will be sent to citizen in real-time/ batch mode. Citizen would get the information through SMS on DBT, Enrolment, etc. The Jan Aadhaar framework should also support an SMS Gateway, which may be configured to send periodic alert to designated users. Technology partner would be responsible for integration with e-Sanchar.

4.4.4.2 Integration with Email Solution

Technology Partner integrate the application with email solution of DoIT&C to send email regarding systems events, auto generated reports to various stakeholders, etc.

4.4.4.3 Document management system (DMS)

DMS in simple words, is a document management system. All types of documents of the citizens require for the enrolment i.e. Aadhaar, ration card etc. can be uploaded in DMS. Moreover, users/ citizens can access their documents anytime anywhere.

Technology partner would also be responsible for Installation, configuration, upgradation along with development of required services on DMS/FileNet for storing documents in Jan-Aadhaar scheme. IBM FileNet is already available with RISL.

Technology partner will also validate the architecture of Configured IBM FileNet from the OEM.

No. of Documents available: Approx. 8 Cr.

A dashboard would also be published for FileNet showing detail of families whom document uploaded along with version history, type of document, etc.

4.4.4.4 Single Sign On

Rajasthan SSO (or commonly known as Single Sign On) is a platform created by the Government of Rajasthan to provide Government-to-Government & Government-to-Public services to its citizens. RajSSO (Rajasthan Single Sign On) provides the facility of one person, one identity. It would be used to log in to the Jan Aadhaar. Thus, Technology partner needs to integrate this with the Jan Aadhaar application for the user authentication for the Jan Aadhaar application and the mobile application and provide facility of authentication using Aadhaar.

4.4.4.5 Integration with State Master Data

Government of Rajasthan has created a platform to standardize demographic and other master data is being used by all applications. This step enables government to increase integration possibilities of different applications. For this, Jan Aadhaar Applications location master needs to be mapped with the State Master locations that include District, Block, City, Gram Panchayat, Ward, Village, Bank, Branch, Caste, etc.

4.4.4.6 e-Mitra

Government of Rajasthan has created a platform to access all Government services through e-Mitra. Jan Aadhaar application will be integrated with e-Mitra application and only authorized user can access the Jan Aadhaar application through e-Mitra application.

4.4.4.7 Raj e-Sign

Raj eSign is a service for electronic signatures without using physical cryptographic token. Technology partner will integrate this service in Jan Aadhaar application to offer Aadhaar holders a way to sign electronic forms and documents. Based on the requirement signing using digital signature facility may also be developed.

Raj e-Sign services will be provided by RISL. Solution for Digital Signature will be developed by Technology partner.

4.4.4.8 Raj Sewa Dwar (RSD)

Raj Sewa Dwar acts as the centralized Middleware Enterprise Service Bus (ESB) for inter application connectivity.

IBM Integration Bus (Version-10.0.5)

4.4.5 Jan Aadhaar Services integration with Other Departmental Portal and application

Technology Partner will develop Jan Aadhaar services to integrate various Departmental applications and schemes. Govt has notified various citizens' welfare schemes for direct benefit transfer. Government may include other schemes subsequently for direct benefit transfer through Jan Aadhaar Yojana.

Currently, More than 100+ Schemes/Services are integrated which may increase with time.

4.4.5.1 Jan Aadhaar Social Audit (Gram Sabha)

Government has decided to present Prashasanik Prativedan Document twice in a financial year for each Gram Panchayat/Ward having family's data with the benefits disbursed by Government under different welfare schemes. These files will be generated and made available to the officers on Jan Aadhaar Application. This would also be integrated with Jan-Soochna portal.

4.4.5.2 Jan Soochna Portal

The objective of the Jan Soochna portal is social audit in addition to provide information of government departments, authorities and corporations with ease.

In addition to the above applications integration, Technical Partner will also develop the Jan Aadhaar services to integrate other application and schemes as required.

4.4.5.3 Jan Aadhaar Authentication

Services pertaining to OTP based Jan Aadhaar authentication will be developed by selected bidder and shared with respective departments which desire to avail to the authentication through Jan Aadhaar.

Volume of Current System:

- Average OTP SMS authentication from 01st July to till date count : 107574
- Total OTP SMS authentication till date since beginning : 112291752

4.4.6 Transaction Mapper

The Jan Aadhaar application capture information/transaction of direct benefit transfer of schemes/services of various departments and will develop a DBT reporting tool where transactions both cash and non-cash, pertaining to a family will consolidated at one place by way of 'Transaction Mapper'.

All the transactional events will be linked with notifications to concerned stakeholders through SMS/e-mail. Multiple MIS reports will be available to the decision-maker and beneficiaries alike.

4.4.7 MIS Reports

Interface to fetch routine and customise reports as required. This interface will be designed by Technology Partner in such a manner that all required MIS reports can be viewed through mobile devices so that designated officer can monitor various aspects of Jan Aadhaar scheme from remote location. For customise reports and Interface to fetch routine, technology partner may propose the reporting engine.

Currently, more than 200+ reports are available in present application.

4.4.8 Mobile Application

SI will be responsible for the development of Mobile Application (Android/iOS) as well as web services required for mobile application in timely manner.

Interactive Mobile application will be developed for users (Citizens/eMitra/Departmental Official's) with their role based authentication. Users have to access their profile/reports based on their role.

4.4.9 Interactive dashboard & Analytics Reports

The technology partner will be responsible to develop the interactive dashboard and various analytics report as per the requirement of the departments. The dashboard and analytics report will be developed SAP Crystal Report/Jasper/etc. based on the availability of tools. Users for the dashboard and analytics reports will be eMitra/Department's official's.

Currently more than 200+ reports has been available in present system.

4.4.10 Incident Management System

An Incident management module would be developed and integrated with Rajasthan Jan-Aadhaar Yojana to track the incident reported by users. This will allow the users of the application to log incidents/bugs in the system. Further it should allowed internal user to mark the incident closure.

Reports will be made available in the system so that status of the incidents can be checked by the stakeholders.

4.4.11 Card Printing & distribution Management System

Interface to provide tracking of number of Jan Aadhaar card sent for printing, printed & distributed. An option is to be provided to mark the card rejected and apply for replacement of the rejected card. This interface also provides option to citizens to request for Jan-Aadhaar card using SMS/ webpage link.

Various MIS Reports shall be generated as part of this module i.e. Card Status Report, Current Date Card Status Report, Kiosk wise Card Status Report, Card Pendency Report, Card Status Report card wise etc.

4.4.12 SLA Reporting Module

This module is to be developed to maintain SLA applicable in the project. As there are multiple SLA's applicable in the project, this it should be able to generate reports on all applicable SLA's in the project.

4.4.13 Project Budget and Utilization Management

This module is to be developed to maintain the budget allocated and expenditure made from the allocated budget under the project for the Rajasthan Jan Aadhaar Yojana. It will be the complete ledger for all allocation/expenditure of the project. Since expenditure towards multiple activities are made under the Rajasthan Jan Aadhaar Yojana. This module will help the stakeholders to analyse the financial aspects of the project in a summarized manner.

4.4.14 Financial Module

This module is to be developed to generate the various reports/sanctions based on which payment will be made to eMitra/Firms for enrolment/card distribution etc.

4.4.15 Admin Dashboard

Various kind of dashboards will be developed into the application to give summarized view of DBT, schemes, services, schedulers (DB, application), data centre resources allocated in the project and other activities in the system.

4.4.16 Jan Aadhaar e-Card

Jan aadhaar e-card will be generated for the families after the successful enrolment as per Rajasthan Jan Aadhaar Authority Act, 2020. Design of Jan Aadhaar e-Card will be provided by RISL. QR will be printed on each e-Card. QR Code will be generated for the families and residents of Rajasthan state & continuous update in family unit may lead to generate new QR Code every time.

The Secure QR Codes generated should contain: Static & variable demographic Details of applicant (Name, Surname, Unique ID, Father/Mother's Name, Date of Birth, Address, Photo etc.). Technology partner will be responsible for mobile application for QR Code verification.

4.5 Jan Aadhaar Resident Data Repository

The overall context and scope of the Jan Aadhaar Resident Data Repository initiative is as below:

- The Jan Aadhaar Application Framework is expected to enable the state to build a clean Master database of state-specific residents. This would provide the platform to allow to:

- (1) Build a master database of clean, authentic and up-to-date resident details using the Jan Aadhaar data as gathered during the Jan Aadhaar enrolment process,

- (2) To regularly update the Jan Aadhaar Resident Data Repository.

- The Jan Aadhaar Resident Data Repository will be deployed in the State Data Centre and would be used to manage resident data. The various departments in the State are expected to access this data store via well-defined data API/s and then perform resident-data enrichment.

- It will also allow for security services for accessing the resident information via clearly defined role based access control. The service will also enable search of resident records by exact / partial match.

- An audit trail would be maintained for applications accessing Jan Aadhaar Resident Data Repository through services and ensure data transfer should be legitimate and secure. Jan-Aadhaar data sharing API should be designed in such manner so that only the relevant or the required data is shared.

Jan Aadhaar Resident Data Repository is the final outcome of all level verification as well as de-duplication.

4.6 Migration of existing Jan Aadhaar data

Technology partner will migrate the existing SRDH into Jan Aadhaar Resident Data Repository data. Technology Partner will ensure that there should not be any dependency on previous application and database after migration.

Migration of existing schemes/services (along with transactional/audit/etc. data) which are integrated to SRDH would be migrated to new Application.

The existing application is developed in Java/J2EE and deployed in IBM Websphere application server. The database of the application is in Oracle 12c.

The brief of database in current system is as per following:

Total Tables in DB – 2000, Size – 60 TB.

No. of Records in State Resident Data Repository – 13 Cr, Size – 3.5 TB

4.7 Training & Capacity Building of the various stakeholders

The objective of this Training & Capacity Building is to familiarize the users (eMitra/Department's Official's) with the new system. Technology Partner will provide documentation which would cover various aspects of the project. This documentation should be submitted as the project undergoes various stages of implementation. Indicative list of documents includes:

- **Training Material:** Training Material will include the presentations used for trainings and the required relevant documents for the topics being covered.
- **User Manuals:** User manual will include various details of the work done by the Technology partner like relevant regulations, major enhancements, key precautions & attention points etc.

4.8 Setup in DR Mode

Jan Aadhaar application would be n-tier Enterprise application that integrates with multiple departments' portals and critical applications. It would also have huge request load. Therefore Technology Partner should consider the system High Availability while designing and developing the application.

DR Site is the line of defence to preventing service failure in the face of catastrophic events such as natural disasters that cause system outages. Technology partner should develop, implement, configure and deploy the application at the proposed DR site after go-live once requisite resources are made available to technology partner.

Since all the Infrastructure and Servers comes under the RSDC (Rajasthan State Data Centre), Technology Partner should coordinate with the RSDC to setup the Disaster recovery site according to their policy.

Currently, RSDC (Rajasthan State Data Centre)-DR site is located at Jodhpur, Rajasthan. Infrastructure required for DR Site will be provided by RISL.

4.9 Implementation of Aadhaar Data Vault

Aadhaar data vault under Jan-Aadhaar project would be implemented as per the guidelines issued by UIDAI on Aadhaar data vault.

4.10 Setup on Multiple domain

As per the requirement of RISL, the Technology partner will require to host part of the application on separate domains (URL). The Technology partner will be responsible for Safe to host certificate and SSL certificates for the entire contract period for all the domains. The technology partner will bear expenses of Safe to Host and SSL Certificates, if any.

4.11 Operation and Maintenance - Facility Management Services ("FMS")

The selected bidder shall provide Operations and Maintenance (O&M) services for all components installed / deployed as part of Jan Aadhaar Application and Jan Aadhaar Resident Data Repository, starting from the Go-live date of Jan Aadhaar Application.

4.11.1 Deployment of Manpower

- a. The selected Bidder shall deploy sufficient manpower in development phase at onsite (RISL).
- b. The O&M Team would be deployed onsite from the start of O&M period till the end of contract period as per Annexure-1 of this RFP document.
- c. The minimum required technical qualifications and experience details for the onsite resources are provided in Annexure-1 of this RFP document.
- d. The proposed services shall be normally manned for a period of 9 hours each day (except Sunday) as per the requirement throughout the year or as decided by the Office of the Tendering Authority. But in exception condition or in urgency of work, the support might be required on holidays. The selected bidder shall maintain an attendance register for the resources deployed.

- e. Also, it would be the responsibility of the Selected Bidder to retain the deployed manpower for the entire Contract/ Project duration or in the event of a resource leaving the employment with the selected bidder, the same shall be immediately replaced with another resource of equivalent minimum qualifications and experience. All such events should be notified prior to RISL in writing and should be in accordance with the SLAs mentioned in this RFP.
- f. The staff provided by the Selected Bidder will perform their duties in accordance with the instructions given by the designated officers of RISL from time to time. The Selected Bidder has to take approval from RISL for the proposed staff before their deployment. RISL has every right to reject the personnel, if the same is not acceptable, before or after commencement of the awarded work/ project.
- g. The Selected Bidder shall appoint personnel having proficiency with Hindi language.
- h. It is responsibility of the selected bidder to scale up the Operations & Maintenance (O&M) team as and when required to confirm smooth project execution throughout the duration.
Average Current Load (Per Hour): 6 Lakh
Concurrent Users: 6000

4.11.2 New Development and Enhancement:

The selected bidder shall be responsible for doing new development as per the requirement of RISL including but not limited to below:

- a. Addition of new services/schemes
- b. Third-party Application integration
- c. Modification/ up-gradation/ enhancement in the Process or functionality to fix some complex problem requests or defect fixing to upgrade the application performance.
- d. Update Web-portal & Application: design & content, layout, colour schema, input forms, etc.
- e. Development of new module/functionalities.
- f. MIS Reports (Jasper/Crystal Report etc.)
- g. Analytical Dashboards

The selected bidder shall setup & maintain version control to track all the project artefacts (means artefacts developed / maintained as part of Jan-Aadhaar project) would be responsibility under State data centre including source code and DB objects.

The enhancements, development of new modules, up-gradation & integrations, etc. in the software during O&M period shall have to be incorporated by the successful bidder in timely manner as desired by RISL with no extra cost to purchaser.

Maintenance of Application servers, Database servers is responsibility of Data centre, however relevant changes in application are to be done by technology partner and patch/security/upgradation of IBM FileNet and IBM MDM would also be responsibility of technology partner.

4.11.3 Managed Services during Operations and Maintenance Period:

The selected bidder shall be responsible for the overall administration, operations, monitoring & maintenance of the deployed Jan Aadhaar Application and the Database to ensure the desired uptime and performance.

- a. Performance Monitoring & Enhancement: RISL shall carry out the performance testing activity (load/ stress/ volume testing) as per the requirements to ensure that the application meets

the required speed, scalability and stability requirements under the expected workloads and provide its recommendations. The selected bidder, based on the recommendations of RISL, shall incorporate changes in the software solution at NO extra cost, to ensure smooth functioning of the application under varying load requirements & ensure proper management of:

- Concurrent users
- CPU utilization
- Memory utilization
- Network utilization

Technology partner may use tool's subject to availability with RISL.

- b. RISL may arrange for the audits of the application through a third party agency on timely basis. Based on the findings of audits, the selected bidder will have to bring in the necessary changes in the application to ensure the compliance in timely manner. These changes would have to be conducted by the selected bidder at no extra cost to RISL.

4.11.4 Training & Helpdesk Support (Incident/ Problem Management)

The successful bidder would be required to provide hands-on training to officers of the user department/ organisation/kiosks. Training could have multiple sessions as per the need and requirement of end user. Training to a batch of persons would be organized (including training kit/folder/digital content (pen drive), etc.) by successful bidder as per requirement on his cost. The selected bidder shall submit all the operational guidelines and user manual. The training plan and schedule shall be decided by RISL.

The selected bidder shall be responsible for preparation of all training material (in English & Hindi) and provide training to the stakeholders on the developed solution. The training material would include hard copy and soft copies of the training material along with multi-media for audio-visual training. The selected bidder shall be responsible for day-to day training, coordination between various stakeholders (departments/ kiosks) on various new features/ functionalities/enhancement added to the Jan Aadhaar Application, etc. during the entire O&M Period.

The successful bidder shall have to setup help desk support for users. Successful bidder shall provide two dedicated mobile telephone connections and connectivity at the Helpdesk for telephonic support during business hours i.e. from 9:00 AM to 7:00 PM. from Monday to Saturday. The Helpdesk shall include but not limited to the following:

- Handle teething issues of the departmental users and citizens.
- Reply to the queries/ feedback/ suggestions/ complaints received from all the stakeholders.
- The Help desk manpower shall ensure continuous availability. In case problem is communicated by any user, the same shall be got rectified as per SLA terms.
- Coordination for resolution of reported issues within the stipulated timeframe as per the SLA.
- Help desk should provide handholding support through online/telephone line

4.11.5 Operations & Maintenance Reports

The Selected Bidder shall have to submit key deliverables during Operations and Maintenance Period which are mentioned hereunder. However, in addition to the reports/ deliverables as indicated below, the selected bidder shall prepare and submit all other required information in the desirable format as notified by the purchaser related to project.

The formats for all the reports shall be prepared by the selected bidder and submitted to the purchaser for approval. The reports submitted by the selected bidder should strictly be in the approved format only which, if required, may be revised from time to time.

Operation and Maintenance Report				
S.No.	Activity	Deliverable	Frequency	Time Frame
1	Deployment of Manpower	Attendance Report of onsite team deployed duly approved by designated authority.	Quarterly	Within 1 week of end of each quarter
2	New Development and enhancement	Summary of the activities taken up in the quarter	Quarterly	Within 1 week of end of each quarter
3	Managed Services during Operations and Maintenance Period	Consolidated Report on Calls Logged, Resolved.	Quarterly	Within 1 week of end of each quarter
4	Man power replaced in the project	Report on the man power replaced in the project stating the reason of replacement	Quarterly	Within 1 week of end of each quarter

4.11.6 Backup of Data:

Though backup of the data is responsibility of the data centre operator in state data centre. But, the successful bidder would provide information of the data locations need to be back-up along with frequency.

4.11.7 Miscellaneous Works:

The successful bidder will perform all such works which are required for successful working of the application.

Note: The scope of development/enhancement is not limited to above activities. RISL may introduce new processes/ modules as per their requirements and may change the existing processes as per their requirement. All these would be in scope of FMS services.

5. Project Deliverables

Certain key deliverables are identified for each of the parts/ stages, which are mentioned below. The selected bidder, shall submit below mentioned deliverables timely to the user department to ensure the timely and smooth execution of project

S.No.	Particulars
Phase I:	
	Detailed Project Plan
	SRS, User Manual, Technical design document and training material on the application software
	User Acceptance Test Reports
	Safe to Host Certificate for the application softwares from empaneled agency GOR / GOI
	SSL certificates required for Web cum Application Servers for the entire contract period
	Training to users as per directions of RISL along with training material
	Any other third party software used by the firm in the application software
	Complete Source Code of Application Software's including DB objects (as per scope of tender)
Phase II:	
	SRS, Technical design document
	UAT Test cases and Test Results
	Complete Source Code of Application Software's including DB objects (as per scope of tender)
Phase III:

- g. The Financial Bid cover shall be kept unopened and shall be opened later on the date and time intimated to the bidders who qualify in the evaluation of technical Bids.

8.12 Selection Method

The selection method is Least Cost Based Selection (LCBS or L1) based on NPV specified in RFP clause titled "Evaluation & Tabulation of Financial Bids".

8.13 Clarification of Bids:

- a. To assist in the examination, evaluation, comparison, and qualification of the Bids, the bid evaluation committee may, at its discretion, ask any bidder for clarification regarding its Bid. The committee's request for clarification and the response of the bidder shall be through the e-Procurement portal.
- b. Any clarification submitted by a bidder with regard to its Bid that is not in response to a request by the committee shall not be considered.
- c. No change in the prices or substance of the Bid shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the committee in the evaluation of the financial Bids.
- d. No substantive change to qualification information or to a submission, including changes aimed at making an unqualified bidder, qualified or an unresponsive submission, responsive shall be sought, offered or permitted.

8.14 Evaluation & Tabulation of Technical Bids

- a) Determination of Responsiveness
 - a. The bid evaluation committee shall determine the responsiveness of a Bid on the basis of bidding document and the provisions of pre-qualification/ eligibility criteria of the bidding document.

- b. A responsive Bid is one that meets the requirements of the bidding document without any material deviation, reservation, or omission where: -
 - i. “deviation” is a departure from the requirements specified in the bidding document;
 - ii. “reservation” is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the bidding document; and
 - iii. “Omission” is the failure to submit part or all of the information or documentation required in the bidding document.
 - c. A material deviation, reservation, or omission is one that,
 - i. if accepted, shall:-
 1. affect in any substantial way the scope, quality, or performance of the subject matter of procurement specified in the bidding documents; or
 2. limits in any substantial way, inconsistent with the bidding documents, the procuring entity’s rights or the bidder’s obligations under the proposed contract; or
 - ii. if rectified, shall unfairly affect the competitive position of other bidders presenting responsive Bids, if applicable.
 - d. The bid evaluation committee shall examine the technical aspects of the Bid in particular, to confirm that all requirements of bidding document have been met without any material deviation, reservation or omission.
 - e. The procuring entity shall regard a Bid as responsive if it conforms to all requirements set out in the bidding document, or it contains minor deviations that do not materially alter or depart from the characteristics, terms, conditions and other requirements set out in the bidding document, or if it contains errors or oversights that can be corrected without touching on the substance of the Bid.
- b) Non-material Non-conformities in Bids
- a. The bid evaluation committee may waive any non-conformities in the Bid that do not constitute a material deviation, reservation or omission, the Bid shall be deemed to be substantially responsive.
 - b. The bid evaluation committee may request the bidder to submit the necessary information or document like audited statement of accounts/ CA Certificate, Registration Certificate, VAT/ CST clearance certificate, ISO/ CMMi Certificates, etc. within a reasonable period of time. Failure of the bidder to comply with the request may result in the rejection of its Bid.
 - c. The bid evaluation committee may rectify non-material nonconformities or omissions on the basis of the information or documentation received from the bidder under (b) above.
- c) Technical Evaluation Criteria
- Bids shall be evaluation based on the documents submitted as a part of technical bid. Technical bid shall contain all the documents as asked in the clause “**Format and Signing of Bids**”. Any critical noncompliance/ deviations may lead to disqualification of the Bidder.
 - Only those bidders who qualify through the Technical Qualification stage will be short listed for opening of financial bids/ evaluation.
- d) Tabulation of Technical Bids
- a. If Technical Bids have been invited, they shall be tabulated by the bid evaluation committee in the form of a comparative statement to evaluate the qualification of the bidders against the criteria for qualification set out in the bidding document.
 - b. The members of bid evaluation committee shall give their recommendations below the table as to which of the bidders have been found to be qualified in evaluation of Technical Bids and sign it.
- e) The number of firms qualified in technical evaluation, if less than three and it is considered necessary by the procuring entity to continue with the procurement process, reasons shall be recorded in writing and included in the record of the procurement proceedings.

- f) The bidders who qualified in the technical evaluation shall be informed in writing about the date, time and place of opening of their financial Bids.

8.15 Evaluation & Tabulation of Financial Bids

Subject to the provisions of “Acceptance of Successful Bid and Award of Contract” below, the procuring entity shall take following actions for evaluation of financial Bids:-

1. For single part/ cover Bid system, where Bid is received in single cover along with requisite bid security, processing fee or user charges and price of bidding documents within specified time, it shall be considered for financial evaluation by the Bids evaluation committee;

OR

For two part/ cover Bid system, the financial Bids of the bidders who qualified in technical evaluation shall be opened online at the notified time, date and place by the bid evaluation committee in the presence of the bidders or their representatives who choose to be present;

2. the process of opening of the financial Bids shall be similar to that of technical Bids.
3. the names of the bidders, the rates given by them and conditions put, if any, shall be read out and recorded;
4. conditional Bids are liable to be rejected;
5. In order to decide the L1 bidder, NPV (Net Present Value) of the payable amount shall be taken into account as given below:

- A = Value of Component – 1 (Ref. S. No. 1 of Financial Bid BoQ) of Financial Bid
- B = Value of Component – 3 (Ref. S. No. 3 of Financial Bid BoQ) of Financial Bid
- C = Payment made to technology partner before O&M period = 80% of A + B
- D = Payment remaining with tendering authority of A = 20% of A
- E = Value of Component – 2 (Ref. S. No. 2 of Financial Bid BoQ) of Financial Bid
- Total quarters for which quarterly payment to be made during O&M period = 16 quarter
- F = Quarterly Payable amount during O&M period = $\{D+E\}/16\}$
- PV Factor = Considering 3% per quarter i.e. 12% annually
 $NPV = [C + \{F/ (1.03)\} + \{F/ (1.03)^2\} + \{F/ (1.03)^3\} + \dots + \{F/ (1.03)^{16}\}]$

NOTE: quarterly payment for 16 quarters has been considered for evaluation purposes only. However, the payment shall be made as per payment terms and conditions of RFP.

6. the evaluation shall include all costs and all taxes and duties applicable to the bidder as per law of the Central/ State Government/ Local Authorities, and the evaluation criteria specified in the bidding documents shall only be applied;
7. the offers shall be evaluated and marked L1, L2, L3 etc. L1 being the lowest offer and then others in ascending order.
8. the bid evaluation committee shall prepare a comparative statement in tabular form in accordance with rules along with its report on evaluation of financial Bids and recommend the lowest offer for acceptance to the procuring entity, if price is the only criterion, or most advantageous Bid in other case;
9. The members of bids evaluation committee shall give their recommendations below the table regarding lowest Bid or most advantageous Bid and sign it.
10. It shall be ensured that the offer recommended for sanction is justifiable looking to the prevailing market rates of the goods, works or service required to be procured.

8.16 Correction of Arithmetic Errors in Financial Bids

The bid evaluation committee shall correct arithmetical errors in substantially responsive Bids, on the following basis, namely: -

- a. if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in

the opinion of the bid evaluation committee there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;

- b. if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail, and the total shall be corrected; and
- c. if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to clause (a) and (b) above.

8.17 Price/ purchase preference in the evaluation

Price and/ or purchase preference notified by the State Government (GoR) and as mentioned in the bidding document shall be considered in the evaluation of Bids and award of contract.

8.18 Negotiations

- a. Except in case of procurement by the method of single source procurement or procurement by competitive negotiations, to the extent possible, no negotiations shall be conducted after the pre-bid stage. All clarifications needed to be sought shall be sought in the pre-bid stage itself.
- b. Negotiations may, however, be undertaken only with the lowest or most advantageous bidder when the rates are considered to be much higher than the prevailing market rates.
- c. The bid evaluation committee shall have full powers to undertake negotiations. Detailed reasons and results of negotiations shall be recorded in the proceedings.
- d. The lowest or most advantageous bidder shall be informed in writing either through messenger or by registered letter and e-mail (if available). A minimum time of seven days shall be given for calling negotiations. In case of urgency, the bid evaluation committee, after recording reasons, may reduce the time, provided the lowest or most advantageous bidder has received the intimation and consented to regard holding of negotiations.
- e. Negotiations shall not make the original offer made by the bidder inoperative. The bid evaluation committee shall have the option to consider the original offer in case the bidder decides to increase rates originally quoted or imposes any new terms or conditions.
- f. In case of non-satisfactory achievement of rates from lowest or most advantageous bidder, the bid evaluation committee may choose to make a written counteroffer to the lowest or most advantageous bidder and if this is not accepted by him, the committee may decide to reject and re-invite Bids or to make the same counter-offer first to the second lowest or most advantageous bidder, then to the third lowest or most advantageous bidder and so on in the order of their initial standing and work/ supply order be awarded to the bidder who accepts the counter-offer. This procedure would be used in exceptional cases only.
- g. In case the rates even after the negotiations are considered very high, fresh Bids shall be invited.

8.19 Exclusion of Bids/ Disqualification

- a. A procuring entity shall exclude/ disqualify a Bid, if: -
 - i. the information submitted, concerning the qualifications of the bidder, was false or constituted a misrepresentation; or
 - ii. the information submitted, concerning the qualifications of the bidder, was materially inaccurate or incomplete; and
 - iii. the bidder is not qualified as per pre-qualification/ eligibility criteria mentioned in the bidding document;
 - iv. the Bid materially departs from the requirements specified in the bidding document, or it contains false information;
 - v. the bidder, submitting the Bid, his agent or anyone acting on his behalf, gave or agreed to give, to any officer or employee of the procuring entity or other governmental authority a

- gratification in any form, or any other thing of value, so as to unduly influence the procurement process;
- vi. a bidder, in the opinion of the procuring entity, has a conflict of interest materially affecting fair competition.
 - b. A Bid shall be excluded/ disqualified as soon as the cause for its exclusion/ disqualification is discovered.
 - c. Every decision of a procuring entity to exclude a Bid shall be for reasons to be recorded in writing and shall be: -
 - i. communicated to the concerned bidder in writing;
 - ii. published on the State Public Procurement Portal, if applicable.

8.20 Lack of Competition

- a. A situation may arise where, if after evaluation of Bids, the bid evaluation committee may end-up with one responsive Bid only. In such situation, the bid evaluation committee would check as to whether while floating the NIB all necessary requirements to encourage competition like standard bid conditions, industry-friendly specifications, wide publicity, sufficient time for formulation of Bids, etc. were fulfilled. If not, the NIB would be re-floated after rectifying deficiencies. The bid process shall be considered valid even if there is one responsive Bid, provided that: -
 - i. the Bid is technically qualified;
 - ii. the price quoted by the bidder is assessed to be reasonable;
 - iii. the Bid is unconditional and complete in all respects;
 - iv. there are no obvious indicators of cartelization amongst bidders; and
 - v. the bidder is qualified as per the provisions of pre-qualification/ eligibility criteria in the bidding document
- b. The bid evaluation committee shall prepare a justification note for approval by the next higher authority of the procuring entity, with the concurrence of the accounts member.
- c. In case of dissent by any member of the bid evaluation committee, the next higher authority in the delegation of financial powers shall decide as to whether to sanction the single Bid or re-invite Bids after recording reasons.
- d. If a decision to re-invite the Bids is taken, the market assessment shall be carried out for estimation of market depth, eligibility criteria, and cost estimate.

8.21 Acceptance of the successful Bid and award of contract

- a. The procuring entity after considering the recommendations of the bid evaluation committee and the conditions of Bid, if any, financial implications, trials, sample testing, and test reports, etc., shall accept or reject the successful Bid. If any member of the bid evaluation committee, has disagreed or given its note of dissent, the matter shall be referred to the next higher authority, as per delegation of financial powers, for decision.
- b. The decision on Bids shall be taken within the original validity period of Bids and time period allowed to procuring entity for taking a decision. If the decision is not taken within the original validity period or time limit allowed for taking a decision, the matter shall be referred to the next higher authority in the delegation of financial powers for decision.
- c. Before the award of the contract, the procuring entity shall ensure that the price of a successful Bid is reasonable and consistent with the required quality.
- d. A Bid shall be treated as successful only after the competent authority has approved the procurement in terms of that Bid.
- e. The procuring entity shall award the contract to the bidder whose offer has been determined to be the lowest or most advantageous in accordance with the evaluation criteria set out in the bidding document and if the bidder has been determined to be qualified to perform the contract satisfactorily on the basis of qualification criteria fixed for the bidders in the bidding document for the subject matter of procurement.

- f. Prior to the expiration of the period of bid validity, the procuring entity shall inform the successful bidder, in writing, that its Bid has been accepted.
- g. As soon as a Bid is accepted by the competent authority, its written intimation shall be sent to the concerned bidder by registered post or email and asked to execute an agreement in the format given in the bidding documents on a non-judicial stamp of requisite value and deposit the amount of performance security or a performance security declaration, if applicable, within a period specified in the bidding documents or where the period is not specified in the bidding documents then within fifteen days from the date on which the letter of acceptance or letter of intent is dispatched to the bidder.
- h. If the issuance of a formal letter of acceptance is likely to take time, in the meanwhile a Letter of Intent (LOI) may be sent to the bidder. The acceptance of an offer is complete as soon as the letter of acceptance or letter of intent is posted and/ or sent by email (if available) to the address of the bidder given in the bidding document and accepted by the bidder. Until a formal contract is executed, the letter of acceptance or LOI shall constitute a binding contract.
- i. The bid security of the bidders who's Bids could not be accepted shall be refunded soon after the contract with the successful bidder is signed, and its performance security is obtained.

8.22 Information and publication of the award

- g) Fee for Appeal: Fee for filing appeal:
- Fee for the first appeal shall be rupees two thousand five hundred and for the second appeal shall be rupees ten thousand, which shall be non-refundable.
 - The fee shall be paid in the form of bank demand draft or banker’s cheque of a Scheduled Bank payable in the name of Appellate Authority concerned.
- h) Procedure for disposal of appeal:
- The First Appellate Authority or Second Appellate Authority, as the case may be, upon the filing of the appeal, shall issue notice accompanied by a copy of appeal, affidavit, and documents, if any, to the respondents and fix the date of hearing.
 - On the date fixed for hearing, the First Appellate Authority or Second Appellate Authority, as the case may be, shall,-
 - hear all the parties to appeal present before him; and
 - peruse or inspect documents, relevant records or copies thereof relating to the matter.
 - After hearing the parties, perusal or inspection of documents and relevant records or copies thereof relating to the matter, the Appellate Authority concerned shall pass an order in writing and provide the copy of the order to the parties to appeal free of cost.
 - The order passed under (c) shall also be placed on the State Public Procurement Portal.

- i) No information which would impair the protection of essential security interests of India, or impede the enforcement of the law or fair competition, or prejudice the legitimate commercial interests of the bidder or the procuring entity, shall be disclosed in a proceeding under an appeal.

8.33 Stay of procurement proceedings

While hearing of an appeal, the officer or authority hearing the appeal may, on an application made in this behalf and after affording a reasonable opportunity of hearing to the parties concerned, stay the procurement proceedings pending disposal of the appeal, if he, or it, is satisfied that failure to do so is likely to lead to miscarriage of justice.

8.34 Vexatious Appeals & Complaints

Whoever intentionally files any vexatious, frivolous or malicious appeal or complaint under the “The Rajasthan Transparency Public Procurement Act 2012”, with the intention of delaying or defeating any procurement or causing loss to any procuring entity or any other bidder, shall be punished with fine which may extend to twenty lakh rupees or five per cent of the value of procurement, whichever is less.

8.35 Offenses by Firms/ Companies

- a) Where an offence under “The Rajasthan Transparency Public Procurement Act 2012” has been committed by a company, every person who at the time the offence was committed was in charge of and was responsible to the company for the conduct of the business of the company, as well as the company, shall be deemed to be guilty of having committed the offence and shall be liable to be proceeded against and punished accordingly:
Provided that nothing contained in this sub-section shall render any such person liable for any punishment if he proves that the offence was committed without his knowledge or that he had exercised all due diligence to prevent the commission of such offence.
- b) Notwithstanding anything contained in (a) above, where an offence under this Act has been committed by a company and it is proved that the offence has been committed with the consent or connivance of or is attributable to any neglect on the part of any director, manager, secretary or another officer of the company, such director, manager, secretary or another officer shall also be deemed to be guilty of having committed such offence and shall be liable to be proceeded against and punished accordingly.
- c) For the purpose of this section-
- "company" means a body corporate and includes a limited liability partnership, firm, registered society or co-operative society, trust or other association of individuals; and
 - "director" in relation to a limited liability partnership or firm, means a partner in the firm.

- a) A bidder shall be debarred by the State Government if he has been convicted of an offence
- under the Prevention of Corruption Act, 1988 (Central Act No. 49 of 1988); or
 - under the Indian Penal Code, 1860 (Central Act No. 45 of 1860) or any other law for the time being in force, for causing any loss of life or property or causing a threat to public health as part of the execution of a public procurement contract.
- b) A bidder debarred under (a) above shall not be eligible to participate in a procurement process of any procuring entity for a period not exceeding three years commencing from the date on which he was debarred.

- c) If a procuring entity finds that a bidder has breached the code of integrity prescribed in terms of “Code of Integrity for bidders” above, it may debar the bidder for a period not exceeding three years.
- d) Where the entire bid security or the entire performance security or any substitute thereof, as the case may be, of a bidder has been forfeited by a procuring entity in respect of any procurement process or procurement contract, the bidder may be debarred from participating in any procurement process undertaken by the procuring entity for a period not exceeding three years.
- e) The State Government or a procuring entity, as the case may be, shall not debar a bidder under this section unless such bidder has been given a reasonable opportunity of being heard.

8.37 Monitoring of Contract

- a. An officer or a committee of officers named Contract Monitoring Committee (CMC) may be nominated by procuring entity to monitor the progress of the contract during its deployment period.
- b. During the deployment period, the CMC shall keep a watch on the progress of the contract and shall ensure that quantity of resource deployment is in proportion to the total deployment period given if it is a severable contract, in which the deployment of resources and service is to be obtained continuously or is batched. If the entire quantity of goods and service is to be delivered in the form of completed work or entire contract like fabrication work, the process of completion of work may be watched, and inspections of the selected bidder’s premises where the work is being completed may be inspected.
- c. If delay in deployment of resources and service is observed, a performance notice would be given to the selected bidder to speed up the deployment.
- d. Any change in the constitution of the firm, etc. shall be notified forthwith by the contractor in writing to the procuring entity and such change shall not relieve any former member of the firm, etc., from any liability under the contract.
- e. No new partner/ partners shall be accepted in the firm by the selected bidder in respect of the contract unless he/ they agree to abide by all its terms, conditions and deposits with the procuring entity through a written agreement to this effect. The bidder’s receipt for acknowledgement or that of any partners subsequently accepted as above shall bind all of them and will be sufficient discharge for any of the purpose of the contract.
- f. The selected bidder shall not assign or sub-let his contract or any substantial part thereof to any other agency without the permission of the procuring entity.

8.38 Verification of Eligibility Documents by RISL

RISL reserves the right to verify all statements, information, and documents submitted by the bidder in response to tender document. The bidder shall, when so required by RISL, make available all such information, evidence and documents as may be necessary for such verification. Any such verification or lack of verification by RISL shall not relieve the bidder of its obligations or liabilities hereunder nor will it affect any rights of RISL thereunder. If any statement, information, and document submitted by the bidder is found to be false, manipulated, or forged during the verification process, strict action shall be taken as per the RTPP Act 2012.

- a) The bidder must supply all items with comprehensive on-site OEM warranty after the goods, or any portion thereof as the case may be, have been delivered to, installed and accepted at the final destination(s) indicated in the bidding document. However, if delay of installation is more than a month's time due to the reasons ascribed to the bidder, the warranty shall start from the date of last successful installation of the items covered under the PO.
- b) At the time of goods delivery, the selected bidder shall submit a certificate/ undertaking from all the respective OEMs mentioning the fact that the goods supplied are covered under comprehensive warranty & support for the prescribed period.
- c) The purchaser shall give a written notice to the selected bidder stating the nature of any defect together with all available evidence thereof, promptly following the discovery thereof. The purchaser shall afford all reasonable opportunity for the selected bidder to inspect such defects. Upon receipt of such notice, the selected bidder shall expeditiously cause to repair the defective goods or parts thereof or replace the defective goods or parts thereof with brand new genuine/ authentic ones having similar or higher specifications from the respective OEM, at no cost to the Purchaser. Any goods repaired or replaced by the selected bidder shall be delivered at the respective location without any additional costs to the purchaser.
- d) If having been notified, the selected bidder fails to remedy the defect within the period specified, the purchaser may proceed to take within a reasonable period such remedial action as may be necessary, in addition to other recourses available in terms and conditions of the contract and bidding document.
- e) During the warranty period, the bidder shall also be responsible to ensure adequate and timely availability of spare parts needed for repairing the supplied goods.
- f) The warranty on supplied software media, if any, should be at least 90 days.

9.32 Patent Indemnity

- a) The supplier/ selected bidder shall, subject to the Purchaser's compliance with sub-clause (b) below, indemnify and hold harmless the Purchaser and its employees and officers from and against any and all suits, actions or administrative proceedings, claims, demands, losses, damages, costs, and expenses of any nature, including attorney's fees and expenses, which the Purchaser may suffer as a result of any infringement or alleged infringement of any patent, utility model, registered design, trademark, copyright, or other intellectual property right registered or otherwise existing at the date of the Contract by reason of: -
- i. the installation of the Goods by the supplier/ selected bidder or the use of the Goods in the country where the Site is located; and
 - ii. the sale in any country of the products produced by the Goods.
- Such indemnity shall not cover any use of the Goods or any part thereof other than for the purpose indicated by or to be reasonably inferred from the Contract, neither any infringement resulting from the use of the Goods or any part thereof, or any products produced thereby in association or combination with any other equipment, plant, or materials not supplied by the supplier/ selected bidder, pursuant to the Contract.
- b) If any proceedings are brought or any claim is made against the Purchaser arising out of the matters referred to above, the Purchaser shall promptly give the supplier/ selected bidder a notice thereof, and the supplier/ selected bidder may at its own expense and in the Purchaser's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim.
- c) If the supplier/ selected bidder fails to notify the Purchaser within thirty (30) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Purchaser shall be free to conduct the same on its own behalf.
- d) The Purchaser shall, at the supplier's/ selected bidder's request, afford all available assistance to the supplier/ selected bidder in conducting such proceedings or claim, and shall be reimbursed by the supplier/ selected bidder for all reasonable expenses incurred in so doing.
- e) The Purchaser shall indemnify and hold harmless the supplier/ selected bidder and its employees, officers, and Subcontractors (if any) from and against any and all suits, actions or administrative proceedings, claims, demands, losses, damages, costs, and expenses of any nature, including attorney's fees and expenses, which the supplier/ selected bidder may suffer as a result of any infringement or alleged infringement of any patent, utility model, registered design, trademark, copyright, or other intellectual property right registered or otherwise existing at the date of the Contract arising out of or in connection with any design, data, drawing, specification, or other documents or materials provided or designed by or on behalf of the Purchaser.

9.33 Limitation of Liability

Except in cases of gross negligence or wilful misconduct: -

- a) neither party shall be liable to the other party for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier/ selected bidder to pay liquidated damages to the Purchaser; and
- b) the aggregate liability of the supplier/ selected bidder to the Purchaser, whether under the Contract, in tort, or otherwise, shall not exceed the amount specified in the Contract, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment, or to any obligation of the supplier/ selected bidder to indemnify the Purchaser with respect to patent infringement.

- replacement operator to carry out due diligence in order to transition the provision of the services to RISL or its nominated agencies, or its replacement operator (as the case may be).
- v. Before the expiry of the exit management period, the selected bidder shall deliver to RISL or its nominated agencies all new or updated materials from the categories set out above and shall not retain any copies thereof, except that the selected bidder shall be permitted to retain one copy of such materials for archival purposes only.
- e) Transfer of certain agreements
- i. On request by Procuring entity or its nominated agencies, the selected bidder shall effect such assignments, transfers, innovations, licenses and sub-licenses as Procuring entity or its nominated agencies may require in favour of procuring entity or its nominated agencies, or its replacement operator in relation to any equipment lease, maintenance or service provision agreement between selected bidder and third-party lessors, operators, or operator, and which are related to the services and reasonably necessary for carrying out of the replacement services by RISL or its nominated agencies, or its replacement operator.
- ii. Right of Access to Premises: At any time during the exit management period and for such period of time following termination or expiry of the SLA, where assets are located at the selected bidder's premises, the selected bidder will be obliged to give reasonable rights of access to (or, in the case of assets located on a third party's premises, procure reasonable rights of access to RISL or its nominated agencies, and/ or any replacement operator in order to inventory the assets.
- f) General Obligations of the selected bidder
- i. The selected bidder shall provide all such information as may reasonably be necessary to effect as seamless during handover as practicable in the circumstances to RISL or its nominated agencies or its replacement operator and which the operator has in its possession or control at any time during the exit management period.
- ii. The selected bidder shall commit adequate resources to comply with its obligations under this Exit Management Clause.
- g) Exit Management Plan
- i. The selected bidder shall provide RISL or its nominated agencies with a recommended exit management plan ("Exit Management Plan") which shall deal with at least the following aspects of exit management in relation to the SLA as a whole and in relation to the Project Implementation, the Operation and Management SLA and SOWs.
- ii. A detailed program of the transfer process that could be used in conjunction with a replacement operator including details of the means to be used to ensure the continuing provision of the services throughout the transfer process or until the cessation of the services and of the management structure to be used during the transfer; and
- iii. Plans for the communication with such of the selected bidder's, staff, suppliers, customers and any related third party as are necessary to avoid any material detrimental impact on RISL operations as a result of undertaking the transfer; and
- iv. If applicable, proposed arrangements and Plans for the provision of contingent support in terms of business continuance and hand-holding during the transition period, to RISL or its nominated agencies, and Replacement Operator for a reasonable period, so that the services provided continue and do not come to a halt.
- v. The Bidder shall re-draft the Exit Management Plan annually after signing of the contract to ensure that it is kept relevant and up to date.
- vi. Each Exit Management Plan shall be presented by the selected bidder to and approved by RISL or its nominated agencies.
- vii. In the event of termination or expiry of SLA, Project Implementation, Operation and Management SLA or SOWs, each party shall comply with the Exit Management Plan.
- viii. During the exit management period, the selected bidder shall use its best efforts to deliver the services.
- ix. Payments during the Exit Management period shall be made in accordance with the Terms of Payment Clause.

- x. It would be the responsibility of the selected bidder to support the new operator during the transition period.

9.38 Settlement of Disputes

Any dispute existing out of contract shall be settled according to the provision of arbitration and conciliation act, 1996.

10. SOFTWARE TERMS AND CONDITIONS OF TENDER & CONTRACT

- 1) **Platform:** The server-end software should be able to run on Windows/Linux operating system environment. The selected modules of developed system should be capable of being deployed in off-line, hybrid as well as online mode.

At the user-end, various users of the application software system should be able to use their PCs under MS Windows 10 and/or Linux with commonly used office automation tools such as MS Office S-MIME compliant email systems and Internet browsers. The bidder in this regard may specify any minimum software - version requirement. Any proprietary component of the software which is not compliant to international standards should be clearly mentioned. Proprietary components, if any, in the application software should be downloadable from the portal-server by each user free of cost.

- 2) **Software Ownership Rights:** The bidder shall transfer the complete source code along with adequate detailed documents (from the testing phase onwards) ownership right of the application software package to RISL. RISL shall have the right to use the software till perpetuity for any number of users. The source code should be submitted in a DVD & external HDD both to RISL.
- 3) In case the bidder is using any third party software, the bidder must have proper legal arrangement with the developer/owner of the software to ensure complete back to back support to RISL. This should also include support on upgrades at no additional cost. Both the parties shall be jointly and severally liable for the effect of performance of software on implementation of the project. For this purpose, the bidder would indemnify RISL against any third party claim by the developer/owner of third party software to the effect.
- 4) The firm shall provide descriptive schema of database. The firm shall submit all technical documentation of all database objects including names, description and other details of all the technical entities such as tables, fields, queries, forms, reports etc.
- 5) The software should be developed using latest technologies/architecture and best practices prevalent in industry. Source code should be well documented and follow industry standard code writing practices. RISL shall have the right to check and approve the coding practices and may ask the firm, at any time, to change full or some part of the code according to the pattern suggested.
- 6) Successful Bidder must follow the below mention Industries best Practices and conventions of coding, but are not limited to following while developing the Jan Aadhaar Application.
 - Coding Standard and conventions must be applied strictly.
 - The application code should have proper comments which are self-explanatory.
 - Logging feature must be implemented which will help to analyse the bugs at Production. Provision may be made in the system for generating user-wise log file.
 - Audit log of every transaction in the application has to be preserved.
 - Developed system must have proper exception handling that can trap any production error with proper messages.
 - All PL/SQL functions and procedures will be implemented as part of a package.
 - The database must be Normalization as required, to optimize the performance.
 - All the SQL and PL/SQL must be fine-tuned. Use integrity constraints (foreign key, check, not null etc) for data integrity.
 - Every effort should be made to preserve the root cause of Exceptions to the client code.
 - PL/SQL components will not raise exceptions directly. Exceptions will be used to indicate errors, not as a normal method for branching control.
- 7) **Features of the Software:** The Technology Partner will provide the application software, which should have the following features:

1. Technology

- Application software should be web enabled based on client server technology. The central server will be placed at Rajasthan State Data Centre, Jaipur. The following stacks are available in RSDC.
- Front End : Platform of application should be Java/J2EE(Spring, hibernate)
- Application server: Websphere / Weblogic
- RDBMS Compatibility : Should be capable of being deployed with Oracle 12c or higher version
- IBM MDM: SI will be responsible for the installation, upgradation, administration, development, deployment to the latest version available with RISL.
- IBM FileNet: SI will be responsible for the installation, upgradation, administration, development, deployment to the latest version available with RISL.

The bidder can use existing software license of IBM MDM and IBM FileNet in his proposed solution. Any new software product proposed in the solution has to be arranged by the bidder himself. The software license for same need to be perpetual in nature and in the name of RISL.

Version upgradation is continuous process and Technology partner would work with the respective product version made available by RISL.

Note: Infrastructure managed services (Servers, Network, Storage, Backup, VM) would be provided by the RSDC during development and O&M phase.

2. Database

Database shall comprise of

- A comprehensive electronic record of approx. 8 crores residents of the state
- Scanned documents related with enrolment of residents
- Direct benefit transfer to beneficiaries
- The database shall be capable to handle high volume transactions.

3. Third Party Integration

The application will be integrated with following third party applications but not limited to:

- IFMS (Integrated Finance Management System)
- RPP/NPCI/etc.
- Document Management System
- SMS gateway
- Email Solution
- Enterprise service bus
- E-Sign

4. Features

The following aspects should be taken into account for implementing the proposed System:

- To adopt a J2EE based standard approach.
- To develop a scalable, extensible architecture and maintainable with acceptable response time.
- To ensure security and privacy of data for multiple users.
- Encryption and decryption facility to be provided in application as per requirement of RISL.
- To develop generic interfaces for common infrastructure services such as security, authorization and access control such that they can be reused in other applications.
- Based on the data requirements from and to the IT System, generic interfacing modules would be provided. The interface with external application should be facilitated using web service to provide data in a XML/JSON format and accept data provided in a XML/JSON format.

- Facility to interact with gateways wherever required like SMS gateway, Email Solution etc.
- The application software should provide flexibility of being customizable to meet specific requirement of different departments /organization.

5. Testing

Since Testing is an integral part of software development that needs to be planned. Successful Bidder should also follow the industries best Practices for Testing and Deployment Phase.

It is also important that testing is done proactively by Successful Bidder; meaning that test cases should be planned before coding starts and test cases should be developed while the application is being designed and coded. Manual and automated testing are to be followed for the testing of the application.

There would be different level of testing i.e. Unit testing, performance testing, user acceptance testing. Selected Bidder requires to follow above testing practices at all level of testing, planning, and execution.

Automating build tools and automated running of regression test suites for each included functionality is also recommended to ensure that existing functionality is not broken.

6. Release and Deployment Management

Successful bidder should follow the industry best practices for the release and application deployment in Test and Production environment. It must follow the certain guideline at the time of deployment. Following aspects are to be ensured while release and deployment.

- Appropriately authorized tested changes/upgrades to the application are rolled out
 - all deployments to be planned in detail, tested, and monitored
 - Keep the installation structure simple: Files and directories should be kept to a minimum.
 - Don't install anything that's never going to be used.
 - Have a roll back strategy: There must be a way to roll-back to a previous (working) version.
 - Do not change deployment procedures and scripts on-the-fly
 - Rely on automation for repeatable processes: There's far too much room for human error, deployments should not be manual. Cruise Control/Hudson/Jenkins and Maven would be used for build.
- 8) **Patent Rights:** In the event of any claim asserted by a third party of infringement of copyright, patent, trademark or industrial design rights arising from the use of the software, database etc. or any part thereof, the bidder shall expeditiously extinguish such claim. If the bidder fails to comply and RISL is required to pay compensation to a third party resulting from such infringement, the bidder shall be responsible for the compensation including all expenses, court costs and lawyer fees. RISL will give notice to the bidder of such claim, if it is made.
- 9) **Standards of Performance:** The successful bidder shall carry out the tasks/ services assigned and carry out its obligations under the contract with due diligence, efficiency and economy in accordance with generally accepted norms techniques and practices used in the industry.

The successful bidder shall also adhere to professional engineering and consulting standards recognized by international professional bodies and shall observe sound management, technical and engineering practices.

It shall employ appropriate advanced technology and safe and effective equipment, machinery, material and methods. The successful bidder shall always act in respect of any matter relating to this

contract, as faithful advisors to the Purchaser and shall, at all times, support and safeguard the Purchasers legitimate interests in any dealings with the third party.

- 10) **Software Development Personnel:** The bidder shall employ and provide such qualified and experienced personnel as are required to perform the services under the contract.
- 11) **Application source code & Documents Prepared by the Bidder to be Property of Purchaser:** All plans, drawings, specifications, designs, source code and other documents prepared by the successful bidder in the execution of the contract shall become and remain the property of the Purchaser, and before termination or expiration of this contract, the successful bidder shall deliver all such documents to the Purchaser under the contract along with the detailed inventory thereof. The bound two set of copies of Project Plan, Documentation of System Study, System Requirement Specifications (SRS), Functional Requirement Specification, System Design Documentation (SDD), Test Plans, Test Cases Document (Unit, User Acceptance), Test Reports, User Manuals etc. are to be handed over to the Purchaser after its completion at respective stages along with its softcopies on the latest media available at that time.
- 12) **Assistance to Third Party Auditor (TPA) appointed by RISL:** The integrity of the system and processes must be ensured and validated through an independent system auditor of national/international repute appointed by RISL. Robustness of the internal control system must be checked to have assurance on the integrity, reliability and authenticity of data. It must also be checked whether an automated environment exists to ensure that the accounting transactions generated are in accordance with applicable laws, standards, rules and regulations. Selected Bidder shall provide access of the systems as required by TPA for conducting the audits etc. Gaps/ issues identified by the TPA will be decided by RISL and shall further be taken up for resolution in timely manner by Selected Bidder without any extra cost to RISL.
- 13) **Passing of Property :** Ownership shall not pass to the Purchaser unless and until the products and documentation thereof have been deployed, tested and accepted, in accordance with the conditions of the contract to the entire satisfaction of the Purchaser.
- 14) **Acceptance:** The acceptance tests, which shall involve testing of each product, shall be conducted by the successful bidder in the presence of core group of experts nominated by the Purchaser. The acceptance test of each product shall be conducted when the bidder will give in writing that each product has been completely delivered/ installed.

15) Other Facilities:

- The Rajasthan Jan Aadhaar Authority Act, 2020 is to be strictly followed.
- Facility for strong Vigilance/Audit/Security/Management system with related Reports
- System should be configurable to create various types of users on the portal viz. system administrator, departmental user etc.
- Comprehensive Matrix of Authorisation for each user in the system;
- Audit trail of the entire system operations should be maintained in secured environment.

16) The general features of the application software are as below :

1. The Technology Partner will use industry standard methodology for Software Engineering, covering the entire SDLC (Software Development Life Cycle).
2. **Web Based:** The Jan Aadhaar Application will a web based application which would be connected through central servers through primary network connectivity.
3. **Browser Independent:** The application software should be web enabled so that the same can be accessed by users from anywhere, anytime. It is imperative that the user interface of the application software should be browser based so that the users can access the software using internet (HTTP protocol). The software should be compatible with all popularly used browsers.

4. **Audit Trail:** The application software should provide for proper audit trail for any change made in the data. The software should be capable to store IP addresses, date and timestamp and other identities of the applicant entering online data and IP address and user code, date & time stamp of user creating application rules, editing any rules, editing masters etc. The system should maintain proper logs of any changes made in the data. All deleted and edited records should be traceable and copy of all editions/ deletions should be available with MIS reporting of the same.
5. **Validation Checks:** The application software should incorporate proper validation checks so that garbage data is not stored in the database. The validation checks should be able to minimize data entry mistakes.
6. **Security:** The application should be designed and developed by incorporating security features as per the best industry practices. To maintain information security at transaction level, application should support both HTTP and HTTPS. The specific elements of the application should be provided access to authorized personnel. Wherever required the data should be encrypted. The bidder shall, to the extent relevant and possible, be guided by the standard information systems security policies and guidelines or suitable Industry standards. Appropriate access and authorization controls should be incorporated into the software. The bidder should also provide configurable User and Role-based security for the Menu Options of the application. Individual user will be protected with access rights. Individual users should not be able to access data of other users

The Application must have integrated security/ monitoring features with the following:

- Definition of Roles and Users
 - Define role-wise add/edit/view/delete rights for each entry form/ report in all modules
 - Digital time and user stamping of each transaction
7. **Transaction Accuracy & Consistency:** The application software should ensure accuracy and consistency of data in database and reports. The transaction accuracy would be measured from the number of reported errors vis-à-vis number of transactions. The transaction data should meet ACID property. The software should maintain 100% data accuracy and consistency.
 8. **Bilingual User Interface:** The application software should have a user friendly interface. Jan Aadhaar Application should support Unicode standard based Bi-lingual versions for user interface. The users should see the labels and captions on selected language, the System Integrator must translate, at its own, the equivalent State specific local language Captions for the English version (without altering the meaning) of the Web Portal and the same must be submitted to RISL for approval before implementation/ uploading or vice-versa.
 9. **Safe to Host Certificate:** The Selected Bidder shall get the Safe to Host Certification done for Jan Aadhaar Application as a pre-requisite for Go-Live. Selected Bidder shall remove the vulnerabilities identified during the Safe to Host certification and then deploy Jan Aadhaar Application at RSDC.
 10. **Digital Signature:** The software should facilitate digital signing and eSign of documents before submitting or uploading them in the System for verification and other reason.
 11. **Online Help:** The software should provide Online Help facility for the end-users to operate the software with ease and speed. The help may be in any of the forms viz. PDF file, PPT, Video etc.
 12. **Adherence to Guidelines :** The web enabled application software should comply with the guidelines issued by DoIT&C, Govt. of Rajasthan for development of websites and available at <http://doitc.rajasthan.gov.in> and Guidelines for Indian Government Websites (GIGW) issued by Department of Information Technology (DIT), Government of India (GoI) and available at <http://doitc.rajasthan.gov.in> and <http://web.guidelines.gov.in>. The Technology Partner will be responsible for the development of dynamic content and feature rich Web application for the department. All the sections of the Web application should be of dynamic nature.

13. **Version Control & Archiving:** The Technology Partner needs to maintain version control software which would provide version control and archiving facility for application source code, documents, etc. as strict version control is necessary for legal accountability, backup. A simple but powerful interface must be provided for these features viz. date based snapshots, version comparing etc. Check in and checkout ability is therefore an essential component of content management. Versioning should also allow contributors to know whether they are working with the latest version, and allow them to merge changes made in separate versions when needed.
14. **N-Tier model:** N-Tier model is the framework in which application user interface, logic, data, and their associated processing and repair are separated from each other in logical manner is more flexible in response to changes in internal logic, platforms, and structures; this isolates/minimizes the impact of change. Considering requirements of ease of support, scalability and interoperability, N-tier model is proposed.

17) Exit Plan after completion of project period:

On the termination of project period, the successful bidder shall:

- i. Hand over and peaceful possession of the complete source code of the application software including any third party software, free from all encumbrances, to RISL free of cost. The condition of application software to be transferred in all cases other than Force Majeure shall be such that the RISL is able to use the software for any number of years at the same level of service. In case RISL is forced to incur expenditure towards the end due to successful bidders Event of Default, it will be entitled to recover the same from the Performance Security or any other money due or by direct demand.
- ii. Transfer all its rights, titles and interest in or over the software comprised in the Project which are required to be transferred to RISL in accordance with this RFP and execute such deeds and documents as may be necessary for the purpose and complete all legal or other formalities required in this regard.
- iii. The application software shall have been renewed and cured of all defects and deficiencies as necessary so that the Project is in accordance with the specifications & standards mutually decided upon.
- iv. Hand over to RISL complete source code of the software, documentation, manuals, third party software, perpetual licence to use, up to date know-how relating to operation and maintenance of the application software and a certificate from his statutory auditors stating zero financial encumbrance on the Project;
- v. During six months prior to anticipated transfer of such facilities, the successful bidder shall provide such training to representatives and employees of RISL or person nominated by RISL as may be reasonably necessary for the RISL to operate and maintain the software efficiently and safely following such transfer.
- vi. Until transfer in accordance with this clause is finalised, the application software and services shall remain at the sole risk of successful bidder except for any loss or damage caused to or suffered by the successful bidder due to any act or omission or negligence on the part of the RISL under this RFP.

11. SERVICE LEVEL STANDARDS/ REQUIREMENTS/ AGREEMENT

- 1) Service level plays an important role in defining the Quality of Services (QoS). The prime objective of service levels is to ensure high quality of services from successful bidder, in an efficient manner to the identified users under this tender. This section provides for minimum level of services required as per contractual obligations based on performance indicators and measurements thereof. The successful bidder shall ensure provisioning of all required services while monitoring the performance of the same to effectively comply with the performance levels.
- 2) The service level shall be tracked on a periodic basis and have penalty clauses on non-adherence to any of them. The bidder shall submit reports on all the service levels to the Purchaser in accordance with the specified formats and reporting periods and provide clarification, if required. The service levels defined below provide for target level of services required, measurements thereof and associated penalties.
- 3) The services provided by successful bidder shall be reviewed by RISL that shall
 - Regularly check performance of the successful bidder against this SLR.
 - Discuss escalated problems, new issues and matters still outstanding for resolution.
 - Review of statistics related to rectification of outstanding faults and agreed changes.
 - Obtain suggestions for changes to improve the service levels.

Service Level Requirement:

S.No.	Particulars	Details	Penalty
1.	Application software bug fixing, etc.(after Go-live of application software)	Within 48 hours More than 48 hours	No Penalty INR 1000/- per day per bug
2.	Manpower Absence	No absence Absence of manpower without substitute	No penalty INR 2000/- per day per manpower
3.	Replacement in Manpower other than manpower leaving the company	Within one year After one year till remaining period of FMS	INR 20,000/- per manpower replaced INR 10,000/- per manpower replaced
4.	Training (In case of poor feedback received from participants, letter of warning shall be given to Tech. Partner.)	As per schedule Delayed faculty deployment	No Penalty Rs. 5000/- per day per training

Note:

1. Manpower replacement should follow proper exit management. The manpower leaving the work place should hand over of work being executed to the replaced manpower. Both the manpower should work simultaneously for knowledge transfer for a period of at least one month or as decided by RISL.
2. New manpower induced should be same or of higher qualification.
3. The replacement of resources by the bidder after deployment will be allowed (without penalty) only in case, the resource leaves the bidders' organization by submitting resignation with the present employer / Death / due to poor health condition of self / parents / wife / children (supported by certificate issued by a Doctor) etc. In case of failure to meet the standards of the purchaser, (which includes efficiency, cooperation, discipline and performance) bidder may be asked to replace the resource without any penalty for replacement/exit.
4. An absence of more than half an hour from the work place, without having permission from OIC shall be considered as absence from duty.

Penalty Clause

The following Penalty conditions shall be incorporated in the SLA:

1. The Penalty shall be calculated on a quarterly basis.
2. The total deduction on account of penalties shall not exceed 20% of the total quarterly payment to be made to Technology Partner.
3. Two consecutive quarterly deductions of penalty more than 20% on account of any reasons will be deemed to be an event of default and RISL shall have the rights to terminate the contract and forfeit the remaining payable amount along with the Performance security deposit.
4. The penalties shall not be charged Technology partner where the default is not attributable to him

12.13 ANNEXURE-13 – CONFIDENTIALITY AND NON-DISCLOSURE AGREEMENT

CONFIDENTIALITY AND NON-DISCLOSURE AGREEMENT

This confidentiality and non-disclosure agreement (“Agreement”) is made on this _____ day of _____, 2020

BETWEEN

Managing Director, RajCOMP Info Services Ltd., B-Block, 1st Floor, Yojana Bhawan, Tilak Marg, C-Scheme, Jaipur-302005 (hereinafter referred to as “RISL”, which expression shall, unless repugnant to the context hereof or excluded specifically, mean and include its successors, assigns and administrators) of the FIRST PART,

AND

M/s. < Technology Partner>, <Address of Technology Partner> (hereinafter referred to as ‘Successful Bidder/ Supplier’, which expression shall, unless repugnant to the context hereof or excluded specifically, mean and include its successors, assigns and administrators) of the SECOND PART.

WHEREAS

- a. The RISL wishes to appoint an agency for Technology Support and subsequent Operations & Maintenance (FMS) of Jan Aadhaar Application at RISL, Yojana Bhawan, Jaipur for a period of Four years (i.e. from _____, 2020 till _____). For the purpose there will be a requirement to exchange certain information related to or hosted in Jan Aadhaar Application which is proprietary and confidential information.
- b. The RISL is willing to disclose such information to Technology Partner only on the terms and conditions contained in this Agreement. The Technology Partner agrees to hold the Covered Data and Information in strict confidence. Technology Partner shall not use or disclose Covered Data and Information received from or on behalf of Government of Rajasthan/RISL except as permitted or required by the Agreement, or as otherwise authorized in writing by RISL.

NOW, THEREFORE, THE PARTIES HERETO AGREE AS FOLLOWS:

1. Definition: In this agreement unless the contest otherwise requires:

1.1 "Confidential Information" shall mean

- a) any and all information concerning Jan Aadhaar Application or any other successor,
- b) any and all trade secrets or other confidential or proprietary information related with Jan Aadhaar Application and hosted in Rajasthan State Data Centre (RSDC)
- c) Passwords of application software, user identifications, or other information that may be used to access information systems, technical specifications of Resident data, access policies of database and application software and information hosted in RSDC.

1.2 Proprietary Information shall mean as technical data and other information (including but not limited to digital data, products, substances, organisms, technology, research results or plans, system processes, workflows, know-how, reports, descriptions, drawings, design, compositions, strategies, trade secrets, business and financial information, and computer software) in whatever form, which is related with Jan Aadhaar Application and/or hosted in Rajasthan State Data Centre (RSDC) and is disclosed or delivered by the

First Party to the Second Party, whether by means of written or oral disclosure or otherwise.

2. Limitations on Use and Disclosure of Confidential and Proprietary Information

- 2.1 Confidential and Proprietary Information disclosed by the RISL and/or other departments/PSU whose data may or may not be hosted in RSDC shall be used by the Technology Partner solely for the purpose of fulfilment of the obligation and work assigned to it as per order no. _____ dated _____ 2020 and shall not otherwise be used for his benefit or otherwise. All information encountered in the performance of duties shall be treated as confidential unless and until advised otherwise by RISL or its representative. Technology Partner shall not share, record, transmit, alter, or delete information residing/hosted in the information systems except as required in performance of the job duties.
- 2.2 Confidential and Proprietary Information shall not be copied or reproduced by the Technology Partner without the express written permission of the RISL, except for such copies as may be reasonably required for accomplishment of the purpose stated in the tender no. _____ dated _____ -2020.
- 2.3 Confidential and Proprietary Information shall be disclosed only to the Director or employees of the Technology Partner who have a 'need to know' in connection with the purpose stated above, and who additionally agree to the nondisclosure requirements of this Agreement. Any further disclosure of confidential and Proprietary Information by the Technology Partner shall be treated as a breach of this Agreement by the Technology Partner.
- 2.4 Confidential and Proprietary Information shall not be disclosed by the Technology Partner to any third party without the prior written consent of the First Party.
- 2.5 This Agreement shall not restrict disclosure or use of Confidential and Proprietary Information which:
 - a. was in the public domain at the time of disclosure or thereafter enters the public domain through no breach of this Agreement by the Technology Partner; or
 - b. was, at the time of receipt, otherwise known to the Technology Partner without restriction as to use or disclosure; or
 - c. becomes known to the Technology Partner from a source other than the RISL and/or other departments/PSU without a breach of this Agreement by the Technology Partner; or
 - d. is developed independently by the Technology Partner without the use of Proprietary Information disclosed to it hereunder; or
 - e. is otherwise required to be disclosed by law.
- 2.6 The provisions of "Rajasthan Jan Aadhaar Authority Act-2020" and Rules thereto shall be complied by Technology Partner for entire contract period. Furthermore, in case of any inconsistency in any of the provisions of this agreement with the "Rajasthan Jan Aadhaar Authority Act-2020" and Rules thereto, the later shall prevail.
- 2.7 The technology partner would be responsible for Non-Disclosure agreement to be signed by deployed man power in the project as per the requirement in the provisions of "Rajasthan Jan Aadhaar Authority Act-2020".

3. Business Obligation:

- 3.1 During the complete contract period of the agreement, the Technology Partner shall not
 - a. Disclose Confidential Information in any manner or form to any person other than its own employees for the limited purpose stated herein, or

- b. Use Confidential Information for its own benefit or for the benefit of any person or entity other than the RISL, without the prior written consent of the RISL.
- 3.2 Whereas, the RISL as a matter of policy and with a view to develop and operate & maintain Jan Aadhaar Application has given order to the Technology Partner (_____dated ____-2020) for Development, Operation & Maintenance (FMS) for Jan Aadhaar Application hosted in RSDC, Yojana Bhawan, Jaipur for a period of four years as specified in the service level agreement (SLA).
- 3.3 Whereas, the RISL under the circumstances referred, herein before, wants to protect itself from any misuse of the confidential and proprietary information by the third party i.e. person or persons (employees of Technology Partner), had entered into an agreement with the Technology Partner that the second party shall not divulge such information either during the course of the life of this agreement.
- 3.4 Whereas, the Technology Partner has agreed to fully abide by the terms of this non-disclosure agreement and it has also been agreed by the parties that if there will be any breach or violation of the terms of agreement vis-à-vis non-disclosure clause, the Technology Partner shall not only be liable for consequential costs and damages but in addition to that will also be liable for criminal prosecution in accordance with the prevailing laws.
