Ajmer: One Time Registration in Rajasthan Public Service Commission was launched today. In the very first month of the new year, a generous gift has been given by the Commission which will benefit not only the candidates, but also the Commission. This information was given by the Acting Chairman of RPSC Dr Shiv Singh Rathore.

One-Time Verification will also be started soon. Candidates will

be allotted a unique number on registration. This will eliminate the need to submit original documents every time a form is filled, further saving time and effort. It was a long-standing demand of the candidates.

Recently, instructions were given to the IT Department to expedite the implementation process of the scheme. Information regarding this was also given in the meeting of Standard Committee held on January 7. The

move was praised by the Chairpersons of all the States' PSCs.

With this, there will be no need for the candidates to give name, qualification and other desired information repeatedly, while applying for different recruitments. By simply entering the unique number given by the Commission, the details entered in the profile by the candidate will be automatically entered in the form. There will also be a facility to update the profile from time to time.
